LOCAL ITEMS.

Denmark, Curry county, is going to celebrate on the coming 4th of July.

Capt J. Parker returned from a business trip up the river Sunday.

The Southwest Oregon Recorder has been reduced to a 4-column, 8 page paper.

The Roseburg Review office was the scene of a matrimonial knot tying last Thursday.

The school at this place is a perfect hive of industry. The teachers are giving general satisfaction.

Mr. Divelbiss is still at work on his silver ledge down the coast. It is definitely known that the mine is very rich.

Dr. R. P. Thompson of this place is at Myrtle Point. Give him a show at your jaw.

Mr. Fred Smith, of Looking-glass, is visiting his friends and relatives on the river, all of whom are glad of his visit.

A valuable horse followed Capt. Young from Coos Bay to his place on Four Mile creek, swimming the Coquille and other streams.

Pardon is asked for a failure of an interesting letter from a fair correspondent, on the ground that she has a gum-boil on her heel.

Plain and fancy sewing done at short notice and at very reasonable prices. Call on Mrs. Hays and Mrs. Hamlin, Coquille City. *

A magnificent stock of goods has lately been received by Wise Bros. & Co., Myrtle Point, examination of which will be largely to your advantage.

Ho for Coos bay!—Our old friend, Fred Jarvis, has started up his stage running from this place to Utter City twice a day. See his ad in this paper. n37tf

There are a fine lot of tree seeds from the Agricultural department for distribution at the HERALD office. Get some and give them a trial and report the experiment.

The steamer Coos Bay passed the mouth of the Coquille Friday afternoon, and evidently went into Coos bay about 5 o'clock. We understand that she sailed from the bay yesterday.

Judge R. S. Bean, and Esquires J. M. Siglin, A. A. Crawford S. H. Hazard, W. R. Willis and Dist. Attorney J. W. Hamilton were in town on Friday en route to Ellensburg to hold circuit court.

A good article of goods, fresh from the factory, and at prices that defy competition, is justly entitling Wise Bros & Co's. Myrtle Point store to an immense run of custom. Call and examine their stock and prices.

Hon. A. C. Jones has been appointed Receiver at the Roseburg land office, Hon. J. C. Fullerton's time having expired. Mr. Jones is an honest, upright gentleman, and a better selection could not have been made.

Robert Dunham has just had the misfortune to bury his first born, a sweet little boy, who died at birth. The funeral was had at the Masonic cemetery in this place Sunday, the citizens of Coaledo turning out en masse.

Mr. Goetz, a former resident of this place, but who lives in Oakland Cal., is soliciting orders for pictures in this place. Mr. G. is an excellent artist and you can do no better than to give him your order. His work is crayon, water colors, oil colors, etc.

At half past 10 o'clock next Sunday Eld. Easter will review Eld. Bunch's review of a former sermon, and a general invitation is extended to all. A business meeting is also called for just after this service and the members of the Christian church are urged to be in attendance.

Mr. D. H. Getchell, president of the Coquille Packing company, returned from San Francisco last Saturday, after a long absence. It is the intention to put things in readiness for a big run of salmon at the cannery. It is to be hoped that the run will be good, as it means a great deal of money to be spent on the river.

FOURTH OF JULY

Celebration At The Fair Grounds.

There is an impression on the minds of some of the people that gate money will be demanded at the fair grounds on the coming 4th. This is false and without foundation. The committee have endeavered but failed to trace its origin. The Agricultural Society have kindly given the use of their grounds for the purpose and all funds that may be derived from the sale of privileges etc. will go to the general fund to help defray the expenses. All that is asked of the people is to contribute their mite to make it a success. The committee have been been tardy in making arrangements owing to the uncertainty of the work now in progress on the fair grounds being completed in time, but they now feel proud that all will be ready in time. The committee are preparing a programme which will be duly announced. There will be the usual amusements and the committee will offer such prizes as in their judgement the funds will justify. The finance committee is requested to report as early as possible. Arrangements have been made for camping ground, free to all who may wish to avail themselves of the privilege, and arrangements will be made to furnish meals to those who prefer the same. Arrangements will also be made with one of the boats to run to Coquille City in the evening, and with the hacks to Myrtle Point to accommodate those who may not want to participate in the dance. The committee will use its best endeavors to make it a success, and all are cordially invited to attend.

Remember it will be a "basket picnic."

John Kronenberg jr., Asa Myers,
Committee.

Death of Mrs. Emma I. Leneve.

News reached this place last Monday night, June 1st, that Mrs. Emma I. Leneve was very sick, at her home in Bandon, the steamer Ceres making the trip up after night to bring the news to her folks. On Wednesday her corpse and that of her little babe were brought up on the Steamer, she having died on Tuesday morning at nine o'clock, in child birth. Mrs. Leneve was the wife of our esteemed friend O. L. Leneve, and the only daughter of Hon. J. H. Nosler and Matilda E. Nosler, of this place. Born at Greencastle, Indiana, Feb. 22, 1859, she was aged 25 years, 11 months and 14 days. Having been here since her childhood she was known by all, and likewise loved and respected. The long concourse of weeping friends who attended her funeral last Thursday are living witnesses of her goodness and merit. Her funeral service was preached by her uncle, Rev. W. H. Nosler.

Shad for Oregon.

Chicago, June 3.—One of the cars of the United States Fish Commission passed through Chicago last night on its way to Portland, Oregon. The car was in charge of Commissioner Moore, who said: "This is one of, if not the most important shipment ever made by the Fish Commission. Shad has been successfully introduced at San Francisco and Sacramento river, but we never yet have tried to introduce them into Oregon, and that is where this load goes. I have altogether about half a million shad in the car and I think we shall be able to make the long journey successfully. I intend to try and make the Pacific coast give us something in return, and will endeavor to bring back with me some Pacific coast clams, which I will take to Woods Hole Station, in Massachusetts, and put them under care of Professor Baird. In talking of the general work done by the Fish Commission, Mr. Moore said the effort to introduce some of the best kinds of English fish into American waters had been so far successful with the turbot and sole, which had been put at Sandy Hook. They had bred and part of the progeny been caught. Scotch trout had also done well. Herring have been very successful, but the flavor of the fish caught on this side seemed to have somewhat deteriorated. Perhaps the most profitable of all imported fish is the German carp, which is doing well in every state in the union and will soon be very plentiful in the markets. California trout have been introduced throughout Georgia, Alabama, Tennessee and Virginia. In the great lakes the Commission had put down about fifty million white fish."

OBITUARY.

Died, of consumption, at the residence of David McNair, near Myrtle Point, June 4th, 1885. Mrs. Sophia A. Andrews, aged 63 years, 4 months and 3 days. She was born in Catarangus, N. Y., Jan. 31st, 1822, and was joined in marriage to Mr. A. J. Andrews, Akron, Summit Co., Ohio, Sept. 5th, 1843. In 1851, she removed with her husband to Peoria, Ill., and to San Francisco about the year 1856. Leaving San Francisco, they moved to Point Arenas, and in 1875 they came to Coos Co., Oregon. Although not a communicant of any church, she has lived a Christian life. Her last illness was brief. She leaves a sorrowing husband and son to mourn the loss of the beloved wife and mother.

Funeral services were held in Wise Bro's and Co's. Hall, Myrtle Point, by the Rev. H. B. Swafford at 2 o'clock P. M. June 5th, after which the body was taken to the grave-yard largely attended by citizens. Services were also held at the grave, where the friends and neighbors paid their last respects to their loved and honored dead.

After the Land Sharks.

Washington, June 1.—Land Commissioner Sparks, speaking of the work of his office, says: "The public domain is looked upon as the legitimate prey of land thieves, railroad kings and sharks of all kinds. The territory that is looked after by this office extends from Key West to Behring straits, and the difficulties of communication and intricacies of business cannot be overstated. Since I have been in office I have hardly taken a step that I have not found something wrong. I have already detected and stopped some grand land steals. One was by the Northern Pacific railroad. That corporation was smuggling through a change of boundary line, by which the Government was to lose 151,000 acres of excellent land. I revoked the order and prevented the steal."

Commissioner Sparks has issued an order suspending final action in the general landoffice, and by this means has got operations down to a basis by which fraudulent claims will be detected and canceled and honest claims given honest settlers. In a word, if properly backed up and carried out his plan will save the lands for homes of honest settlers. This plan has already met with the violent opposition of all the tricksters and land sharks in the country. They are howling over it because it breaks up their business; but it saves the public domain for men who propose to go upon and honestly settle and cultivate it. The land system under the present auspices is showing wonderful signs of brightning up, and the work already accomplished is great. The jobbers are thoroughly scared. In the past, when they have been unable to either buy or scare the Commissioner, they have brought influence to bear to cause him to resign.

Killed by Lightning.

Chicago, June 2.—During a storm to-night two laborers, a watchman and an unknown man, and a servant girl, were struck dead by lightning in different parts of the city.

Wheat Crop Damaged.

Topeka, Kansas, June 3.—Reports are coming in that the Hessian fly is causing great damage in wheat fields, and is doing more damage than the cold weather last winter. In Saline county, where the wheat never before has failed, entire fields have been plowed up and millet has been sown.

The tug Katie Cook recently made a run of 27 miles, towed a large schooner 3 miles, and did considerable bar work, sounding etc., on less than one half cord of slabs. Considering that she has no patent high pressure arrangements, and generates steam for a 21-inch cylinder, it is safe to say its equal would be hard to find. She generates as much live steam as is required for the Escort No. 2.

Middle Creek Items.

Ed HERALD:—It is so seldom that anyone sends you stray notes from our fair section, I thought I would let you know how we are getting along.

Mr. Jno. S. Coke has a thoroughbred Ayrshire calf which cost him $45 at Roseburg and which he brought down on horse back.

Peter Laswell killed a bear a few days ago, and carried it three miles. Out of twelve shots he fired, one only took effect.

John Criteser and family, of Fishtrap, were up visiting Mrs. C's father. They came up over our new wagon road up Middle creek it being completed at last. You made a mistake about this road, it being the Middle creek road instead of the Cherry creek road that was lately finished.

Crops of all kinds are looking fine.

Everybody in this part who are big enough are peeling chittim bark. They must expect a sickly season some where the coming season.

Prof. Cheeney is going to teach a writing school at Mr. Baxter's place.
