Our supervisor is engaged putting in a new piece of road from Moulton's to Kerrigan's place on the road leading up the river, overcoming the worst toadhole in the county. The grade is an easier one, being made nearer the foot of the hills. This will greatly improve travel on that route.

Owing to the setting in of winter and the present condition of our roads for travel, real estate has not been so brisk as several weeks back. The only sale of which we have learned during the last week is that of Charles Watkins' upper ranch sold yesterday by Sherwood and Sanford to G. W. Stevenson, of the North fork.

There is strong talk of putting up a telegraph line from this place to Coos bay by a joint stock company, Coquille City parties having promised already about two-thirds the amount necessary. Dr. Vance is moving in the matter. It were better, we think, to put in a loop from the Western Union at Burton prairie, since one set of poles would do for both wires, and eight miles would reach it, whereas it is twenty miles to Marshfield, and a cable for Coal Bank slough would be required, or the distance increased in going around.

We have a couple of the photos of the G. A. R. parade at Bandon, by McMillan, and they are simply grand. The O. N. G. boys, the Coquille City band, in full uniform and the old Vets look gay. The picture is 8x10, but so plain and distinct that you will recognize any person in it with whom you are acquainted. Every person present ought to have one.

High Priced Eggs

A farmer near Silver Creek Falls has lately been losing quite a number of sheep. He thought wolves were doing the mischief and prepared for a wholesale poisoning. He procured a number of eggs in which he placed a quantity of strychnine and scattered them about where the wolves might find them. Imagine his surprise next morning on going down to his spring, to find carcasses of seventeen wolves. Their scalps are worth $15 apiece, and his friends congratulate him on his night's work.

The Coast Survey.

San Francisco, Nov. 14.—Captain E. F. Dickins and party, of the coast survey, returned to-day from the southern coast of Oregon, where they have been engaged since last May, in prosecuting the work of the coast survey. During the season they made a topographical reconnaissance of the coast from Port Orford to Cape Sebastian, including the Rogue river reef, locating the position of several dangerous sunken rocks. They also made a topographical survey of the coast between Umpqua river and Coos bay. The party now expect to remain here all winter, making up their report.

The party had much rough work in moving about through the wild forests and rugged country. There were no wagon roads in many sections, travel being confined to mountain trails. Captain Dickins noticed signs of many new settlers, clearing in the woods, improvements and the beginnings of farms, but the great need of railroads through all the coast districts impressed him. This lack is evidently the present hindrance to more rapid development. There are a hundred fertile valleys and several fair harbors, which now are far from all soil communication.

In the fertile Coquille valley, vegetables and fruits were so abundant as to be almost given away, while at Roseburg, on the railroad, thirty miles east, none could be obtained except those brought from San Francisco. These products can be sent up from here, it has been found at less cost than from the Coquille. The Coos bay towns are all thriving, but the same need is evident there.

The dry cold weather of the early winter months is productive of a great deal of croup among children. Mothers should be on the lookout for it, and be prepared to arrest it as the first symptoms appear. True croup never comes without a warning a day or two before the attack the child will become hoarse, and that symptom is soon followed by a peculiar, rough cough. If Chamberlain's Cough Remedy is given as this hoarseness or cough appears, all danger and anxiety may be avoided; it has never failed, even in the most severe cases. There is no danger in giving the Remedy for it contains no injurious substances. For Sale by J. H. Nesler of Coquille City and also by W. L. Dixon of Myrtle Point.

A traveling man, stopping at the Lee House, Campbellsburg, Ind., on learning that a lady in the village was suffering terribly with cramp colic, gave the landlady a bottle of medicine, which he had with him and requested her to take it to the sick woman. H. Nesler, Coquille City, also, by W. L. Dixon Myrtle Point.

A Cure for Diarrhœa.—Mr. J. A. Harrison, of Colbert, Muhlenberg Co., Ky., has found out how he can cure any case of Diarrhœa. H. Nesler, Coquille City and by W. L. Dixon Myrtle Point.
