Warren Brown returned last week from a trip to Portland, where he went with the Cox children. He reports having a very enjoyable time.

A. E. Hammond left for Cline Falls Tuesday, to make preparations to turn water on a large tract of land owned by his company.—Shaniko Leader.

A special dispensation has been granted the Artisan lodge at this place and a number of new members will, no doubt, be initiated in the near future.

Hon. J. N. Williamson and family left for The Dalles Tuesday, where Mrs. Williamson and daughters will winter, while J. N. will make a business trip to Portland before returning.

Rev. J. A. Morrow, formerly of the Warm Springs Agency, requests us to say that he goes to Vale and vicinity to engage in Home Mission work for the United Presbyterian church.

Dean Huston and Stanton Black, were over from Ashwood the first of the week looking after some land matters and report things moving along smoothly over that way at present.

Mr. and Mrs. Knox Huston returned from a trip to Eugene last Wednesday. They were accompanied by their son J. Insley, who has accepted a position on the JOURNAL typographical force.

O. G. Colver, the Culver merchant, was in town the first of the week, and reports that J. P. Hahn had begun the erection of a new building to take the place of the one lately burned down.

No country under the sun could have any finer weather than we have been blessed with for the past few days. Typical autumn days filled with sunshine, cool nights that cause one to reach for an extra blanket.

Prof. E. E. Orton arrived from Eugene last week and has taken hold of the school work in earnest. The first day of the present term, Monday, there were 117 pupils present, which is very good for the beginning of the school.

Only two more issues of the JOURNAL before the voting contest closes. If you expect your favorite teacher to win the prize it is time to hustle. We would like to take in twenty new names before the last of the month.

A. Hackleman was down from his ranch on Camp creek the first of the week with a lot of cattle which he disposed of and also a few horses which he is taking to Webfoot. He reports a number of sales of cattle in that vicinity this fall.

James Fuller had the misfortune to have all the fingers on his left hand mashed by the 1000 pound hammer of the pile driver while working at the new bridge across Trout creek last week. He was brought to town and Dr. Rosenberg amputated his mangled fingers at the second joint.

Leondor Brothers show has come and gone. Taken as a whole it was a very fair show, and the tumbling was excellent, as was a number of the acts in which scientific training was necessary. It is a clean show and well worth the price of admission.

The Prineville hotel was formally opened to the public, under the new management, Sunday morning and it has been crowded to its fullest capacity since. As soon as the improvements are completed it will be one of the best appointed hostleries in the interior.

Last week we failed to report a very pleasant little party at the home of Miss Alice Cary which was given her by a few of her friends as a farewell party. All united in wishing her unbounded happiness in her new home. She will be sadly missed by a large circle of young people.

Isaac Troth is suffering from a severe attack of heart trouble. He has been on the Deschutes for some time for his health, but had to be brought in from there Monday as he was getting worse. —Later. As we go to press we learn Mr. Troth died Tuesday evening, and Mrs. Troth is seriously ill.

J. G. Julian was over from his stock ranch on Squaw flat last week and reports stock looking well over that way. Mr. Julian says that that part of the county is one of the finest stock ranges he has seen for a long time. Water is scarce in that country and for that reason it has not been eaten out. He also reports, what is something of a freak of nature, that he has cut the second crop of wheat this year on his farm.
