The Stayton Wagon Bridge.

Work on the wagon bridge at Stayton, which is being built jointly by Linn and Marion counties, is going steadily forward. There are at present thirteen men employed. As soon as the iron arrives from San Francisco, which will be about the 15th of September, a force of 25 or 30 men will be put to work. The bridge will be completed by the middle of October. Hoffman & Bates are the contractors and the contract price is $18,250. The bridge will be 609 feet and eight inches in length, exclusive of the approaches with which the length will be 800 feet. Lee Brown & Co. of Stayton are furnishing all the timbers used in its construction. The bridge, when completed will be quite a substantial structure and a vast improvement over the little ferry.

Railroad Commissioners.

The Salem Statesman says the state railroad commissioners met in regular session yesterday afternoon in their room at the state house, and a good part of the afternoon was consumed in attending to correspondence. The board will be in session again to-day when some important business will most likely be considered. Commissioner Clow reported that he had just inspected the Oregon and California track, sidings, etc., between the city and the fair grounds, and reported everything in good, substantial condition.

The Umatilla Reservation.

One hundred and sixty acres of the Umatilla reservation has been ordered set apart for the benefit of an Indian school, and will be selected in a few days by Rev. T. M. MILL CITY NOTES.

Newsy Items from This Thriving Lumbering Town on the Line of the O. P.

MILL CITY, Sept. 3.

Several new houses are going up now.

The merchants in this place have found that goods can be bought in Albany as cheaply as in Portland, and the stores here are being stocked from Albany.

Friday John Goodell, while working in the Santiam lumber company's mill, cut his leg quite severely with a hatchett, just below the knee. He will be laid up for a few days.

Rev. Wade has been holding meetings for the past ten days in the school house here. Seven conversions have following his work here. Rev. Wade has organized the church. It has twenty-four members.

Mill City will soon have a feed store which will be a great convenience to the traveling public. Heretofore they have had to get along as best they could without, either bringing their feed along or buying it here.

The Santiam lumber company are getting out about 25,000 feet of lumber per day, the larger part of which is shipped to Salem and Albany. They have in their employ sixty men, twenty of whom are working in the mill and the remainder cutting down the trees and getting the logs in the Santiam.

Mill City is enjoying a building boom just now and the sound of the hammer and saw can be heard on all sides. J. H. Crable is enlarging his house. When completed it will be a very neat roomy residence. The recently completed drug store building is being painted. Dr. Hughes, of Portland, as soon as possible will move in with a full line of drugs. The carpenters are busy on Mr. Bundy's store. It will be ready for occupancy in about three weeks. He will put in a stock of general merchandise.

The Reaper Death.

A letter from Turner last evening states that news has been received by telegram of the death of James Hilleary, of Burlington, Iowa. The deceased is the father of James Hilleary, of Turner, Marion county, and died at 9 P. M. on September 1, 1889, at the age of 75 years. Mr. Hilleary has many friends among the pioneers of Oregon. He was a wealthy and trusted citizen, respected by all who knew him. The deceased leaves a wife and eight children to mourn his loss.

More Capital for the Santiam Mines.

The Salem Journal says: The Gold Mountain and Dry Gulch consolidated mining company opened up their office and stock books for business this morning. To-day parties are down from the vicinity of the mines. They came to get stock and give it as their opinion that all the Santiam country lacks a little capital to develop it. This mining company is incorporated for the object of developing the mines of the Santiam and it is hoped they will do a big thing.

Findley Soda Springs.

Frank Crabtree has removed to Findley Soda Springs, and has taken charge of the hotel and springs. He is prepared to furnish first class accommodations to travelers, and will furnish feed for horses when desired. Satisfaction guaranteed to all who patronize the popular pleasure and health resort.

Schuffler, the experienced tailor who has charge of that department. Call early and get your choice of patterns before the stock is broken.

OREGON LAND GRANTS.

Wholesale Suits for the Forfeiture of Grants Comprising Millions of Acres.

It is stated that United States District Attorney L. L. McArthur has completed the work of preparing the bills of complaint in the cases brought in the United States circuit court for the forfeiture of various wagon road grants in this state. He was assisted in this work by Special Assistant W. C. Johnson, under direction of the department of justice. The bills are signed by Acting Attorney-General O. W. Chapman, United States Attorney McArthur and Special Assistant Johnson.

There are twenty-one of them, and as they are very voluminous and include eight corporations and sixty-eight individuals as defendants, the labor of preparing them has been great, especially as instructions to this end were not received until July 12, and the bills had to be sent to the attorney-general's office at Washington to be revised and signed.

The suits are brought under the provisions of an act of congress approved March 2, 1889, "providing in certain cases for the forfeiture of wagon road grants in the state of Oregon."

The defendants in these cases comprise the following corporations:

The Willamette Valley and Cascade Mountain wagon road company.

The Willamette Valley and Coast R. R. company.

The Oregon Pacific R. R. company.

The Farmers' Loan and Trust company.

The Dalles Military wagon road company.

The Eastern Oregon Land company.

The Oregon Central Military wagon road company.

The California and Oregon land company.

Also 68 individual defendants.

It is alleged that the roads were not constructed as required by law, wherefore it is prayed that all the lands granted to the state of Oregon by said acts of congress be decreed forfeit to the United States and restored to the public domain that the patents, certificates and deeds described in the bills of complaint be declared fraudulent and void, and that the United States have such other and further relief as to equity seemeth fit.

Some lively litigation is likely to follow this act on. In the case of the Lebanon, or W. V. & C. M. wagon road grant, the road across the mountains was actually constructed and used for travel, as many old citizens testified at the investigation before the commissioners in this city. In many cases, however, the grants were fraudulently obtained and should be forfeited.

HE TOOK THE WRONG MEDICINE.

Robert Stewart, of Petaluma, recently had a queer experience. He writes:

"Carbuncles and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading Sarsaparillas. To my surprise it made matters worse. This made me lose faith in Sarsaparillas, but seeing a statement that Joy's Vegetable Sarsaparilla dried up boils and face eruptions instead of forcing more out, as the potash sarsaparillas do, I bought a bottle. The effect was astonishing. The carbuncles and boils began to dry up, and in two weeks my face was as well and smooth as ever. My brother also took a bottle with the same benefit.

ROBERT STEWART,
Petaluma, Cal."

[Explanatory Note.—The mineral, Iodide of Potash, which is the basis of nearly all other sarsaparillas, attacks the blood direct, hence forces impurities through the skin, creating more boils and pimples. Joy's Vegetable Sarsaparilla acts oppositely. Its vegetable alteratives stimulate the various secretive organs and thus eliminate all impurities through the natural channels, hence dries up pimples and skin eruptions at once. The above testimonial is a case in point.]

INSURE.

Julius Gradwohl calls the attention of the citizens of Albany to insure before it is too late. He represents seven insurance companies who carry a capital of $76,000,000, with a cash deposit in the state of Oregon of $350,000.

Farmers who have spent the entire year in producing a crop of wheat should run no risks now, but promptly get insurance upon the crop and guard against fire, for if they lose their crop by fire, it is a calamity to the whole community as well as an irreparable injury to them.

Seattle, Ellensburg, Vancouver and Spokane Falls has nothing to do with our companies; the losses will all be paid and still we are ready for business, the same as after the Chicago fire.
