REPUBLICAN PLATFORM.

The republican party of Oregon, in state convention assembled, proud of its record and past history, its devotion to the principles of human liberty and human rights, its great and imperishable names which lend lustre and glory to the American nation at home and among the nations of the earth, and as a measurement of its continued fidelity to the great principles for which it has contended in the past in state and national affairs, does hereby make and affirm the following declaration of its policy, to-wit:

First—That we pledge ourselves, officers and members of administration of every department of government both state and national.

Second—That we regard the free school system of our state as the special care and pride of the republican party, to be cherished as one of the bulwarks of the liberties of the people.

Third—That whereas the republican party have always contended for a pure electoral system, in pursuance of this policy we favor the adoption of the Australian ballot system, and we pledge the Republican party to enact such a law at the next session of the legislature, subject only upon the line and of the character of the law as drafted by the Ballot Reform leagues of Oregon.

Fourth—That the republicans of Oregon send greetings and congratulations to their brethren of Maine for having furnished Thomas B. Reed, an honest and outspoken statesman, who, as speaker of the house of representatives, has secured for the representatives of the people the right of the majority to govern, and we denounce the Mills ministerial democratic obstructors of congress, who attempt to justify his technical defeat of the will of the people and the majority of their representatives by refusing to vote, in spite of fact present and making count to do so.

Fifth—That we rejoice in the fact that in the last presidential election the American people voted to sustain and uphold the republican doctrine of protection, which the democratic party proposes to destroy, and we are in favor of the continuance of that system of protection which has developed our manufacturing and agricultural interests of our country and protected American industry from degrading competition with the pauper and serf poorly rewarded labor of the Old World, and to that end we endorse the provisions of the bill known as the McKinley tariff bill, now pending before congress and on behalf of the wool growers and other industries of the Pacific Northwest we urge upon our representatives in congress to do all in their power to secure the early passage of said bill.

Sixth—That recognizing the fact that the United States is the greatest silver-producing country in the world, and that both gold and silver were equally the money of the constitution from the beginning of the republic until the so-called legislation against silver, which unduly contracted the circulating medium of the country, and recognizing the great interests of the people demand more money for use in the channels of trade and commerce, therefore we declare ourselves in favor of the free and unlimited coinage of silver and denounce any attempt to the contrary, against silver as unwise and unjust.

Seventh—That the gratitude of the nation to the defenders of the union cannot be measured by laws. That the legislation of congress granting pensions to the veterans made by a loyal people, should be enlarged and extended so as to provide against the possibility that any man who honorably wore the Federal uniform shall become an inmate of an almshouse or dependent upon private charity.

Eighth—That we favor a fair and equal distribution of taxation, and we believe that all property not now exempt by law should contribute its due proportion in payment of the legitimate expenses of the government. That we are in favor of the adoption of such amendments to our present laws as will secure the equal assessment and taxation of all property at its true value.

Ninth—That we denounce the immediate forfeiture by congress of the land grant of the Northern Pacific railroad from Wallula to Portland.

Tenth—That we are heartily in favor of the passage through congress of the Pacific railway, and we hope that the Pacific railway will be constructed on the authorized route of Mount Hood, and that we believe that the present president is entirely in favor of the construction of such a road, and that we believe that the majority of congress is also in favor of such a road.

Eleventh—That we favor the enactment of a law by congress appropriating for the payment of all such appropriations for internal improvements necessary for our rivers and harbors, and that we favor the establishment of a policy of using the public money for the public welfare, believing that the improvement of our waterways will result in a material reduction of the rates of transportation; that we hold all corporations strictly to their duties under the law, and we favor the right of the legislature to enact all reasonable legislation of corporate power.

Twelfth—That we favor legislative enactment by which there may be elected or appointed a state inspector of weights and measures, and also favor amendments to municipal bar ordinances which shall require the appointment of cooling and sanitary inspectors in all cities of ten thousand or more inhabitants.

Thirteen—That we are in favor of an early survey of unsurveyed public lands in this state that the same may be claimed and occupied and homes specially procured by bona fide settlers, under the laws of the United States. We demand liberal appropriations by congress to secure that end.

Fifteen—That while disclaiming the right to interfere with the administration of internal affairs of foreign nations we sincerely approve the effort of Irish and English statesmen to secure by peaceful methods the American principle of home rule for Ireland.

Sixteen—That we denounce all trusts and combinations that have for their object the controlling of the market values of the necessaries of life and that we are in favor of laws framing and abolishing the same.

Seventeen—That we congratulate the country upon the success and prosperity that have marked the first year of President Harrison's administration; that we rejoice in the restoration of dignity, vigor and statesmanship in the conduct of foreign affairs, which have settled grave international complications upon a basis which secures every American right, and which, by friendly advances and hospitality, have strengthened the works of sympathy and interest which joins us to the republics of the American continent paving the way to a policy of peace, of extended commerce, and of amity among all the nations of the New World; that we commend the present national administration for applying the surplus funds to the payment of interest-paying bonds, as contrasted with the demo-rabb policy of lending the surplus to banks which retain their bonds and collected interest thereon while using the people's money, which should have been applied to the payment of said bonds.

Prof. J. W. Johnson, president of the State university, says it cured him of a cough after two other prescriptions had failed. Likewise two of his little girls used it to cure their coughs. Mrs. Mark Bailey, wife of Prof. Bailey, sent it to Prof. Johnson, and recommends it to all who suffer from colds, and coughs. For coughs it acts like a charm, and can be inhaled into the pipes or passages, where no other cough cures can reach.
