DEATH OF SUPT. BRANDT.

A Cruelly Outraged Daughter Shoots Her Father in a Portland Court Room—Heavy Fire in Frisco.

PORTLAND, June 28.—While Assistant Postmaster Gen. Clarkson was in this city yesterday on his way to San Francisco he talked quite freely about the postal service of the Northwest. Among other things he said: "One result of my visit will be the establishment of a new division in the postal railway service. The new division will embrace Oregon, Washington, Idaho and Montana. This will consume a part of the St. Paul division under Superintendent Perkins and also a part Wilder's San Francisco division and will work a great benefit in this country, for the division will be put in the hands of an experienced and capable man.

DEATH OF SUPT. BRANDT.

On His Way Home to Portland and Dies Suddenly.

PORTLAND, June 28.—A dispatch received here to-day from San Francisco states that J. Brandt, superintendent of the O. & C. division of the Southern Pacific railroad died suddenly in that city this morning at his rooms in the Lick house. He had been for some months in southern California at one of the hot springs in an endeavor to recuperate failing health, and was on his return home to Oregon, when his death resulted as above, the trouble being supposed to be heart disease. Last evening he attended the theatre and returned at 12 and retired. At 1 o'clock this morning he awoke with a cough. Before medical aid arrived he had expired. The deceased was born in Lancaster, Pa., and was sixty years old.

He leaves a widow and four children. The remains will be sent to Portland for interment.

A DESPERATE WOMAN.

She Attempts to Kill Her Own Father.

PORTLAND, June 28.—Frank Jarvis was shot and slightly wounded by his daughter, Mrs. Joseph Ross, in the railway of the court house leading to Judge Stearns' court.

In July last Jarvis was convicted of the crime of incest, his daughter, Mrs. Ross, being the only direct witness against him. The case was appealed to the Supreme court, which granted Jarvis a new trial on the ground that Mrs. Ross' testimony was not corroborated. The case was set for this morning and when the district attorney, McGinn, stated to the court that he was unable to present the corroborative testimony desired by the Supreme court. He then moved that the indictments against the defendant be dismissed. Judge Stearns said that he declared in the deep regret expressed by the district attorney in dismissing case, but there was no other way.

Then he made an order dismissing Jarvis from custody. Jarvis then started to leave the court house when his daughter, Mrs. Ross, who had been sitting in the hallway, drew a gun and fired one shot at her father, which made only a flesh wound in his shoulder.

The woman was disarmed and placed under arrest. When seen by a reporter she said: "I shot him because he frequently threatened to take my life should I ever reveal our relationship and knowing him as I do, I firmly believed he would carry his threats into effect. I am afraid of him even now, and believe he will kill me the first chance he has."

Dan Ross, husband of Mrs. Ross, was arrested on the charge of being an accessory to the offence and by attempting to kill Jarvis.

FIRE IN FRISCO.

A $40,000 Blaze on Fremont Street—The Losses.

SAN FRANCISCO, June 28.—Fire broke out at 10 o'clock this evening in the upper story of 1416 Fremont street. It must have burned fifteen minutes before discovered. The delay enabled it to gain great headway and an hour's hard work was required to extinguish it.

The loss is $40,000. Jory Bros., boot and shoe factory on the top floor was entirely destroyed. The Revere Rubber company on the second and third floors was much damaged; Judson & Co., S. B. Harg & Company and Willard were also much damaged.

All the hardware firms on the ground floor were somewhat injured.

June 29.—The sentence of death pronounced on Stoj. Hanotzaroff conspiring against the government was carried out to-day. With a firm step he walked to his post and saluted the military officers present. He was then ordered to face his executioners. Twenty-one bullets pierced his body.

MAMMOTH ENGINES.

The Largest in the World Now Being Built for a Portland Factory.

PORTLAND, June 28.—J. H. Hoadley, of San Francisco, to-day let a contract here for the California Engineering company, of San Francisco, to construct and erect two of the largest steam engines on the Pacific coast, with a capacity of 3000 horse power, for the Willamette Steam Mills & Manufacturing company, of this city. The contract price is $90,000. The engines, when finished, it is said, will be the largest high pressure engines in the world, being of the improved Wheeler pattern.

KILLED A COUGAR.

George Kinney Slaughters a Mountain Lion With a Stone and Club as Weapons.

Pendleton East Oregonian.

George Kinney, the well known farmer, who has been sojourning in the Blues for some days past, killed a large cougar Tuesday night in a rather peculiar manner. He had turned in and was sleeping soundly under the slumberous influence of mountain ozone when he was awakened by an outcry from one of his horses, which was tethered near the camp. He could faintly distinguish the outlines of a huge, catlike body, crouching near, and evidently preparing to spring upon the horse. Picking up a big stone he threw it at the creature's head, by good good luck stunning the animal. He then belabored it with a club and killed it before it could recover. The cougar measured six feet in length from head to tail, and George now exhibits it as a trophy as an evidence of his stone-throwing ability.

AN EXCESSIVE HOT WAVE.

A California Horse Walks Off With the Honors at Chicago—A Fatal Train Wreck in Illinois.

MILWAUKEE, June 28.—This is the hottest day of the season. The thermometer at 11 a. m. registered 92. Since early this morning the prostration has been very great. Many have been sent home suffering from the effects of the heat. The most marked effect is the increased death rate of children. Out of the twenty-eight deaths reported yesterday twenty-six were children under five years of age.

DEATHS FROM SUNSTROKE.

CINCINNATI, June 28.—Up to six o'clock this evening 27 cases of sunstroke are reported, four of which were fatal.

In Milwaukee 20 cases of prostration were reported, two of which are fatal. Several factories are closed to-day on account of the excessive heat.

CROP OUTLOOK.

The State Prospects are Better than for Years.

PORTLAND, June 28.—The following was telegraphed to-day by the Oregon weather bureau to the chief signal officer at Washington: A copious general rain fall has fallen throughout the state during the past week. The weather is cool and cloudy; excellent for crops. The grain yield promises to be better than for years; the hay crop is better than expected; rye is now being harvested, and farmers are enthusiastic. The wheat harvest will be several weeks later than usual.

RAILROAD ACCIDENT.

Two Ladies Killed and Several Injured.

CHICAGO, June 28.—As the Omaha & Council Bluffs passenger train on the Chicago and R. I. & P. railway was nearing the station at Joliet, at 8:15 this afternoon, one coach, a chair car, sleeper, and dining car, took another track and overturned. Mrs. Ann Pearson of Morris, Ill., and another woman, whose name could not be learned, were instantly killed. Seven others were hurt but not seriously.

The World's Fair Vice Presidents.

CHICAGO, June 28.—The World's Fair commissioners this afternoon selected the following vice-presidents: Thos. M. Wallace, Conn., M. H. DeYoung, Cal., D. P. Penn, Louisiana, G. W. Walden, N. Y., A. B. Andrews, N. C.

Records Broken.

CHICAGO, June 28.—At Washington Park this afternoon two records were broken. Racine beat Tenbrook's long-standing record of 1:53¼ by making it in 1:52¼. What makes the performance of Racine remarkable is the fact that it was made in an actual race, whereas Tenbrook's record was made against time on a specially prepared track. The second record lowered this afternoon was in the Oakwood handicap when the time in 1⅛ miles was cut down from 1:58 to 1:52¾ by Tenton.

Racine is a California horse, three-years-old, and the property of Senator Stanford. Tenton is owned by R. I. Ralway and is four-years-old.

The Porte has sent private envoys to Berlin, Vienna and London on a mission relating to the demands of Bulgaria for independence upon the immediate payment of their share of war indemnity. The Bulgarian prime minister observed that Russia is reported to be preparing to back up her demands by sending the Black sea fleet into Turkish waters. The recent stories of the undermining of the Czar's palace at Gatchina proves to have been exaggerated. A parcel half full of dynamite was found in the wine cellar, and the chief of the private police has been dismissed on account of it.

OUR NORTHERN BOUNDARY

Settled so Long as Stone, Earth and Iron Will Last.

Formerly great difficulties were experienced in locating the exact line which separates our country from that belonging to the king and queen of her majesty, Victoria I., yet all that has been overcome by the St. Louis Republic. According to the treaty of Ghent, the Britishers were allowed all the land lying north of a point 4700 feet south of the forty-ninth parallel, thence running west to the Pacific ocean. In April, 1870, surveyors at work east and along an Indian reservation, discovered the fact that a great error had been made in the calculations of the commissioners who had established the line 4700 feet south of the forty-ninth parallel, which, if followed west as laid out, would take in the British fort at Pembina. The surveyors communicated this startling fact to the general government, and the secretary of state informed the British minister, whereupon a new "boundary commission" was formed forthwith.

Few of the 45,000,000 of people in the United States at that time knew that our country was without a northern boundary for two years following April, 1870, but such was the case. During the session of the year last named congress, by joint resolution, appropriated $1,000,000 for carrying on the work of establishing the new boundary.

By the end 1872 the boundary commission had done its work; stone cairns, cattle mounds and wooden and iron pillars had been set up at intervals of from one to eight miles apart from the Lake of the Woods to the Pacific ocean. There are exactly 282 of these landmarks between the Lake of the Woods and the base of the Rocky mountains.

The Red River valley is marked only with iron posts which are set at average distance of one mile apart. All the iron pillars used in the consummation of this great work were cast at Detroit, Mich. They are eight feet high, eight inches across at the base and three inches across at the top, east hollow. They were made hollow so that they could be set permanently by driving cedar posts through the hollows. Each post is inscribed with this legend: "Convention of London, October 20, 1818."

When stone cairns were used they were made eight feet high, seven feet square at the bottom, tapering to three and a half feet at the top. The mounds of earth used as marks were made four feet square and seven feet high. How many of these mounds and cairns were built between the Rocky mountains and the Pacific ocean, only the commissioners know; suffice to say that as long as stone, earth and iron will last, the question of our northern boundary is settled.

THE CENSUS RETURNS

They Will Show 64,500,000 Population in the United States.

PROCEEDINGS IN CONGRESS.

Two Hundred Whites Raid Negro Quarters and Kill Several—Pugilists Arrested—A Railroad Wreck.

WASHINGTON, June 28.—Superintendent of Census Porter in conversation with an Associated Press reporter to-day said that from present indications the returns of the enumerators would show the population of the United States to be 64,500,000 against 50,155,783 in 1880.

POSTOFFICE APPROPRIATIONS.

WASHINGTON, June 28.—An agreement was reached by the conferees on the postoffice appropriation bill to-day. The appropriation for postoffice inspectors of mail, depredations, etc., remains at $250,000; appropriations for the pay of postoffice clerks was fixed at $7,300,000 as agreed upon. The bill carries the total appropriation to $72,326,000.

IN THE SENATE.

In the senate to-day a message was received from the house asking for a conference on the silver bill. This evening it was laid before the senate and on motion of Sherrill, a conference was agreed to. Sherman, Jones of Nevada, and Harris were appointed conferees on the part of the senate.

AFFAIRS IN BRAZIL.

The People Are Satisfied With a Republican Form of Government.

NEW YORK, June 28.—Advices from Rio de Janeiro of June 5 state that on May 13th, the anniversary of the abolition of slavery, a friend of Vice President de Peixoto, first republican governor of the state of Rio Grande do Sul, called a public meeting for the purpose of manifesting friendship for him. Geo. Silva Tavares and the chief of police, considering the time ill chosen, prohibited the gathering. It was attempted notwithstanding to make the manifestation. A riot ensued, involving a loss of one life and injury of several persons.

The governor at once sent in his resignation and General Costa succeeded. A close observation reveals that there was almost no indication of a desire on the part of the people to return to a monarchical form of government, and the friends of the Empire will hardly raise that question in the approaching election.

DISHONEST BANK OFFICERS.

Wholesale Arrests Over the Defunct American Bank Trouble.

PHILADELPHIA, June 28.—Migistrate Cochersperger this afternoon issued warrants for John McFarland, president of the defunct American Life Insurance Co., Louis E. Pfeiffer, president of the defunct Bank of America, and Chas. W. Dugan, cashier of the Bank of America, charging them with conspiracy in obtaining $125,000 of funds of the bank by crediting a loan to Richard E. Banks one of the employes of the bank.

CHINESE LABORERS.

Thousands of Them to Work on Railroads in Mexico.

SAN FRANCISCO, June 28.—An evening paper states that on the arrival of the steamer Newbern to Mexico a few days ago a well-known attorney of this city took passage with a view of carrying out a contract to furnish a number of Chinese to work on a projected railway on the west coast of Mexico, lasting to the entire Gulf of California.

It is also proposed to construct with Mexican capital, a railroad from Mazatlan, on the west coast of Mexico, to the City of Mexico. The Mexican consul when spoken to about the proposed railroad, said that he understood that a movement was on foot to build a road from Tehuantepec through the states of Oaxaca and Vera Cruz, connecting with the canal. It was learned that several thousand Chinese will be required to do the work, and they will be brought from China by the Li Hoy company of this city.

A RAID ON THE NEGROES.

Two Hundred Armed Whites Set a Town in an Uproar.

NEW ORLEANS, June 28.—A Picayune special from Amite City, La., says that early this morning two hundred armed whites rode into town. They threw out pickets and asked the whereabouts of Henry Daniels, Zach Taylor, Dug Tillis and Geo. Howard. Howard was found in a garden and refusing to surrender was killed.

Two other negroes were wounded seriously. Dug Tillis and two others were taken to the outskirts of the town and whipped and ordered to leave. The men then searched the residences of all suspicious colored people. The negroes have been very bold here of late. There has been considerable promiscuous shooting, which aroused the whites.
