A TERRIBLE CRIME.

A Young Lady Attempts the Life of Mother and Sister.

THE DAY IN CONGRESS.

A Wisconsin Railroad Is Sold—Price of Hops—A Five Million Transaction—The Austrian Emperor's.

OTTAWA, Ont., Sept. 18.—Sarah E. Larmer, a pretty young French Canadian dressmaker, is under arrest in the town of Grafton, in this province, charged with the heinous crime of seeking the death of her youngest sister and aged mother out of jealous revenge. The prisoner is 24 years of age, a tall, slender brunette of fine appearance but with an air that would make the average observer call her dangerous. She was arrested yesterday on a warrant charging her with setting fire to her home with the intent to destroy her bed-ridden mother, and with contemplating the murder of her sister Alice. The officers of the crown have overwhelming evidence against her and their story is as follows:

"Sarah, the prisoner, is dark and her sister is fair. The latter resembles her father greatly and besides having been left the much larger share of his small property on his death, was the favorite of the mother. There is two years difference in the sisters ages and when they grew up, they both fell in love with a young neighboring farmer. His choice was undetermined until he learned that the aged mother contemplated leaving her share of the property to Alice, which gave the latter nearly the entire farm, and he proposed to the younger sister and was promptly accepted.

Wild with jealous anger the elder sister left home and went to Port Hope, supporting herself as a dressmaker. She was very bitter against her mother and sister, and on the 7th she sent a telegram to her sister to come and pay her a visit. The latter came, but Sarah started for home and while the mother was alone, fired the premises. A passing driver saw the flames and rescued the old woman just in time. Sarah was seen leaving the house. She was traced to Grafton and when arrested had a loaded revolver in her pocket, with which she intended to kill her sister. But the latter not finding her in Port Hope returned home at once, passing her on the road and thus escaping."

SPECIMENS OF LEGISLATION.

Kicking the Door Down to Get Rid of Performing a Sworn Duty.

WASHINGTON, Sept. 18.—This has been another lively day in the house. The democrats early resorted to their familiar fillibustering against the venerable Langston contested election case. They vacated their chairs and broke a quorum several times. A call of the house would be ordered each time, and when a quorum was announced the democrats would again retire to the corridors and the cloak rooms. Then another call would be ordered and the doorkeepers would have difficulty in preventing the bulldozing democrats from forcing their way out of the house chamber. Speaker Reed resolved to prevent this if possible, so he stationed an athletic fellow at the door immediately to left of his desk. Kilgore, a wild Texas member, wanted a drink and wanted it badly. The doorkeeper told him he could not go out, whereupon Kilgore lifted his No. 12 cowhide boot and fetched the door a kick which almost loosened it from its hinges and it flew back and hit little Dingley, of Maine, on the nose, bringing the blood. Later in the afternoon this episode was repeated by Cummings, of New York, who fetched the door a kick and broke it open and proceeded on his way. The house was unable to do business and at 3:05 adjourned amidst applause from the democrats.

FAIR NOTES.

A Distressing Accident—The Principal Day Passed.

Special to the HERALD.

SALEM, Sept. 18.—Mrs. Frank Jolly and her little nine-year-old son Ralph, of Portland, came up on the morning train. They alighted at the fair ground depot and were standing still as the train started on. A big, burly man, who imagined he was about to be left, came running up to catch the train and accidentally struck the little boy, knocking him entirely under the train. Another gentleman attempted to rescue him but only partially succeeded, as the train passed over one of his legs, cutting it nearly off just below the knee. The little fellow was taken to town and the disabled member amputated.

The best time made was by Rose C. in 2:21¼. The three-year-old trotting race was won by Pandora in 2:46½, 2:48 and 2:37½.

The premium committees have about all completed their reports and blue and red ribbons cover a portion of all articles on exhibition.

To-night's train will take away many people, and the fair will virtually close on to-morrow.

Moulton; attorney general, J. J. Johnson; auditor, P. F. O'Neal. One hundred negroes were poisoned Sunday at a barbecue in Dalla county, Alabama, which wound up with a big revival meeting. Eight have died and many others are seriously ill. It is feared several more will die. An analysis of the barbequed pork disclosed traces of arsenic. The coroner is investigating the matter.

At this morning's session of the Switchmen's convention in Buffalo the recommendations in Grand Master Sweeney's annual report were referred to committees. Vice Grand Master Downey and Grand Secretary and Treasurer Simsrott presented reports. The latter's report shows the order to be in a flourishing condition. Grand Organizer Hall detailed the results of his report for the year. His report showed the order to be rapidly increasing in numbers and influence.

Tommy Kelly, champion 105 pound man of America, and Tommy Russel, of Harlem, fought eleven rounds to a finish in Hoboken. There were only two minutes to the last round, but Russell by that time was such a pitiable looking object that the crowd begged the referee to give a decision. Kelly did not have a mark upon him.

Silas S. Brew, of the failed dry goods firm of Silas S. Drew & Co, was arrested on a charge of obtaining $8,300 worth of goods by false pretenses from four different business houses of Boston. The police will withhold the names of the houses which Drew is alleged to have defrauded. Drew will be arraigned.

DUBLIN, Sept 18.—John Dillon was arrestek this morning at his residence near this city and conveyed on a special train to Tipperary, accompanied by a large military escort. William O'Brien was arrested at Glengariff and taken to Cork. Warrants have been issued for the arrest of Sheedy and Condon, members of the commons, Patrick O'Brien and Rev. David Humphreys, of Tipperary. The charges on which Dillon was arrested are conspiracy and inciting tenants on Smith Barry's estate not to pay rents.

The arrest of William O'Brien was made at Glengariff hotel. The present charges against O'Brien are similar to those for which Dillon was arrested. O'Brien was immediately carried to Dublin. In addition to those already mentioned, it is ascertained a warrant has been issued for a man named Dalton, who has been active in the work of the Land League.

SAN SALVADOR, Sept. 18.—President Ezeta has granted general amnesty to all political offenders. This is the principal act under his administration and is taken as a sign of his disposition to unite all divided political interests of Salvador into a solid body, or in other words, to create strictly friendly relations between the citizens of the country. This decree outlines the liberal policy which Ezeta intends following.

NEW ORLEANS, Sept. 18.—The Anti-Lottery League of Louisiana fired salutes yesterday at New Orleans, Baton Rouge and other points over the passage of the anti lottery bill by congress. There has been a decided change in the attitude of the republicans on the question. A new anti-lottery republican newspaper, the New Republican newspaper, has been established in New Orleans.

TERRIBLE STORM IN EUROPE.

Heavy Rains and Cold Weather Rendering Thousands Homeless.

LONDON, Sept. 18.—From all parts parts of Europe comes news of disastrous storms and of wild, wet weather. At Aix Les Bains the season is more like November than the ordinarily lovely weather of September. In Switzerland streams have become great torrents and sweep through the valleys with a fury that makes it dangerous for tourists to venture far in their meanderings. People of many towns in Bohemia, Austria and Hungary have been made homeless by the floods and the government authorities are doing all they can to assist them. In Holland extraordinary precautions are being taken for the maintenance of dykes, and in the coast towns the whole population have to be ready for work at a moment's notice. No exception is being made for visitors or non-residents who are held liable to forced labor for common protection.

KIDNAPPED SLAVES.

A Steamer Load of the Ameers at Capetown.

CAPETOWN, Sept. 18.—Great excitement is caused here by the arrival of a Portuguese steamer loaded with kidnapped natives from Mozambique, en route to the west coast. The tribunal here decided that it was unable to interfere with the steamer. The governor referred the matter to the government at London. Meantime the steamer proceeded.

Couldn't Trust the Jury.

BIRMINGHAM, Ala., Sept. 18.—Yesterday the jury returned a verdict of not guilty in the case of Chas. Sample, a negro charged with murder. This the public prosecutor thought was not in accordance with the evidence, and today he moved that the jury be discharged and a new one summoned, and he said he had several other cases and could not afford to prosecute them before that jury. The judge granted the motion and discharged the jury. The affair has created a great deal of talk.

Unprofitable Friends.

WASHINGTON, September 18.—Virgno Vaccarano, superintendent of silk culture, agriculture department, has been victimized to the extent of $3000 by two of his fellow-countrymen. They represented themselves to be rich wine merchants of California and the three became friends. TWO LOVERS SUICIDE

The Anti-Lottery Legislation Pleases.

THE KIDNAPPED SLAVES.

A Liberal Policy in Salvador—Storms in Europe—Bad Jury—Fleeced by Friends.

NEW YORK, Sept. 18.—A strange double suicide occurred here at daybreak this morning. at that hour Gustave G. Koch, a well-known crayon artist, ascended the steps to the Canal street station of the Fourth avenue elevated road, walked to a point in front of the second story of No. 140 Canal street, nodded, and said: "Yes, I have come, Emily. Are you ready?" The answer was not heard, but Koch drew a revolver from his pocket and shot himself in the head, dying instantly. As he fell there came what seemed to be the echo of his shot from the direction of the window towards which he had looked, and in a few minutes a messenger came running out and said a woman had shot herself at 140 Canal street.

An investigation revealed that Emily Rossi, an actress aged 19, lay a corpse on a bed in her room with a bullet in her heart. She was attired in her night robe with a bunch of heliotrope pinned to bosom. It was evident that she had bared her bosom for the fatal shot, for the garment was unscorched. There was nothing to show the cause of death except a little red spot over the heart with a hole in the middle, for not a drop of blood flowed from the wound. Death was as instantaneous as in the case of Koch. It was evidently pre-arranged that they should take themselves out of the world together.

The Atchison Deal.

NEW YORK, Sept. 18.—The report that the Atchison has secured control of the Colorado Midland is generally conceded here, but not officially confirmed. It is now reported that the Atchison is after the control of the Denver & Rio Grande.

A Ripe Old Age.

J. H. Holcome and wife, of —elcherville, Texas, have celebrated their fifty-fifth wedding anniversary, and are still hale and hearty. The secret of their long life and good health is that they correct any slight ailment promptly, and in that way avoid serious sickness. Like most every one else, they are more frequently troubled with constipation than any other physical disorder. To correct this they take St. Patrick's Pills in preference to any other, because, as Mr. Holcomb says, "They are a mild pill and, besides keep the whole system in good order. We prize them very highly." For sale by Foshay & Mason. Druggists.
