There's Health in

Strong nerves. They are the fountain from which flows all the energy, all the strength and all the vital powers of the body. Strong nerves overcome the weaknesses and disorders of the system and give to the step a springiness, to the eye a brightness and to the mind a clearness that they can get from no other source. If you are tired and nervous, irritable, restless, run-down and sleepless, build up your worn-out nerves with

"My wife was down with nervous prostration and general debility for years, and nothing we could do for her seemed to do her any good. When we heard of Dr. Miles' Nervine we dropped all other treatment and began giving her that medicine, and the results were apparent from the start. She improved so rapidly that in a few months she had regained her old-time health and energy, and they returned to stay." C. W. OLMSTED, Kickapoo, Okla.

Dr. Miles' Nervine.

It is a brain-food and nerve-restorer without an equal; and it nourishes, fortifies and refreshes both body and mind, as nothing else can. Now is the time to begin.

Sold by all druggists on a guarantee. **Dr. Miles Medical Co., Elkhart, Ind.**

THE Philippine opposition to American rule is gradually giving away and orderly contentment is taking the place of chaotic resistence. It were profitless to now discuss what ought to have been done in that country. A condition exists out of which our government is making the most it can, the same being true in Cuba. In both cases the final outcome will be better for both those countries and our own. The result will be enhanced civilization and greater prosperity, each of which will increase for many years to come

THE fact that hog products, stock feed and many other things that we can make or raise at home are still shipped here for sale is evidence that our farms are not producing as much as they could or should. The land in this county can be made to produce double what is now obtained from it. We need more population and greater energy. Steps should be taken to induce the former and it would not be hard for all hands to put on more steam and bring greater results. If we would raise more and better stock, we must also raise a greater variety and more on which to feed them.

Teachers' Association.

Their next session will be at Monmouth, beginning Friday evening, March 29th, when after a short musical programme, Dr. Kellogg, of Portland, will lecture about that boy we teach. Beginning at 10 o'clock Saturday Misses M. M. Frantz and Nellie Muscott will treat of primary arithmetic, to be followed by P. J. Mulkey and Miss Ethel Hall concerning how to teach intermediate arithmetic. In the afternoon there will be a short programme by pupils of the normal training department. Next Miss Grace Hargrove will discuss percentage and Miss Anna Pagenkoff proportion, after which the whole subject of arithmetic will be reviewed by Prof. W. A. Wann.

Citizens' Mass Meeting.

At the request of numerous citizens of Dallas, a mass meeting will be held in the city hall next Wednesday evening, March 20th, at 7:30 o'clock, for the purpose of placing in nomination a Citizens ticket, to be voted for at the coming city election. All citizens who desire a careful and diligent enforcement of law, looking to the maintenance of our present high standard of decency and morality, and who wish to see nominated a ticket composed of clean, progressive business men, are invited to attend and participate in this meeting.

SPRING VALLEY.

A healthy tendency towards improved methods is noticeable among us. We are to have less wheat and more stock, less summer fallow and more pasture, less impoverishment of the soil and more nitrogen, fewer scrub stock and a greater number that are well bred. A car load of wire fencing recently landed at Lincoln tells its own story. It means ten miles less of weed infested worm fence, ten miles less of breachy stock and eight acres added to tillable fields. Our road from Zena to Salem is now graveled almost the whole distance which means that we can hold our hay, grain, fruit and potatoes for highest prices, and haul when other roads are impassable. We have been paying too little attention to pure bred stock Some years ago we drifted into graded Jersey cattle and are now reaping the results of our folly, selling an occasional steer for $30 when a wiser policy would have produced one worth $60 All agree that Shorthorn cattle are the thing, but each one is waiting for someone else to introduce them. There are but few really good horses, but the fact is that a horse worth over $140 is an unnecessary farm luxury. We must use our horses for all kinds of work and one of 1,350 pounds, well boned and muscled, short hair and glossy coat with not too much daylight under him, worth say $110, is an ideal farm horse and can do the work of a $200 horse. We have some well-bred flocks of Angora goats which are more profitable than any other farm animal save the family cow and old Dobbin. They require some more care but less feed than sheep and it pays to infuse better blood. At present Jasper Skaife makes the best showing. Uncle John Toner has the only pure bred sheep, Cotswolds, but there are many well graded ones that bring a goood profit. Most attention is being paid to swine, there being several registered Poland China animals. As wheat cannot be profitably raised for hogs some of us are going into rape and clover for pasture, with field peas for fattening. The easy kept Poland China can thus be made to dress 200 pounds at twelve months. But pure blood will not take the place of good care, good pasture and good fodder. Our climate forbids good winter pasture and we shall be compelled to build silos and put up vetch and field peas, and clover hay before we can turn off such fat cattle as go to the Chicago market. No farmer will care for a half breed Jersey scrub, that has not character enough to be called a steer nor luck enough to have been born a heifer, as he would for a large, handsome Shorthorn. XX

In the matter of the estate of Magaret L. Tuttle, deceased, late of Polk county—Citation.

To Anna Grath and to whomsoever may concern, greeting:

IN THE NAME OF THE STATE OF Oregon, you are hereby cited and required to appear in the county court of the state of Oregon, for the county of Polk, at the court room thereof, at Dallas, in the county of Polk on Monday, the 1st day of April, 1901, at 10 o'clock in the forenoon of that day, then and there to answer the petition now on file in said court asking for the sale of the real property belonging to the estate of the said Margaret L. Tuttle, for the payment of the debts against said estate. Said real estate is described as follows, to-wit: Lot No. 5 in block No. 13 in Levens La Creole Homestead addition, and lot No. 9 in Ellis addition, all in said block No. 13, in said Levens La Creole Homestead addition to the town of Dallas, in Polk county, Oregon, and show cause, if any you have, why an order for the sale of said real estate should not be made.

WITNESS, the honorable J. E. Sibley judge of the county court of the state of Oregon for the county of Polk, with the seal of said court affixed, this 27th day of February, A. D., 1901.

[seal] Attest: U. S. Laughary, clerk.
By W. F. Nichols, deputy.
