There is more catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it a local disease and it was supposed to be incurable, and prescribed local remedies, and by constantly failing to cure by local remedies pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires a constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co, Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses of from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer $100 for any case it fails to cure. Send for circulars and testimonials Address F. J. Cheney & Co. Toledo, Ohio. Annual School Report.

County Superintendent C. L. Starr has sent to the state superintendant his annual report showing improvements all along the line. There has been an increase of 186 in school population, the present aggregate being 3594. The increase of enrollment over last year has been 178, and there has been a decided increase in the attendance. New schoolhouses have been built and the length of time increased. Teachers have received better pay than in the past, the average salary of males having been $55 and of females $44 per month. There has been a decided increase in eighth grade graduates. Many schoolhouses and surroundings have been improved and school work generally is on the up grade. If the teachers employed for the coming year are possessed of knowlege, industry and enthusiasm, great good will result.

FALLS CITY.

Last Monday week we spent among the good people of that sprightly and rapidly growing place. It takes the train only half an hour to cover the track between that place and the county seat. John Woods is conductor, Carl Gerlinger, engineer, Jas. Wilson fireman, and Frank Shriver brakesman. The track is well ballasted and nearly the entire distance the track is fenced with wire. Several new homes were observed near Teats' Siding and from Gilliam's there is a new road to the old county road D. Shepherd is putting up a new dwelling at the Bridgeport crossing. A variety of fair crops were growing along each side of the road. Once Thorp's flouring mill was about all there was of Falls City, after that a sawmill was established and when we came to the county sixteen years ago Vassall Bros. were running a creamery near it. Since then the population and business have been continually increasing the last years growth being greater than ever before. The big sawmills located back in the mountains and their planing mills in town employ a little army of men and ship fine lumber to all parts of the country. The sewed lumber is brought to the planers in flumes. At the half dozen stores may be had almost anything one may want, The hotel is well patronized, there is a good meat market. The postoffice has modern furnishings and two doctors care for the sick. The Vick Bros. creamery gets milk from about 100 cows. Thomas Kincheu milks 15. F. K. Hubbard 13, A. Womer 12, Dr. Perry, W. I. Bronson, W. E. Burns and B. F. Smith 10 each. There is a local demand for about half the butter they make. Will Dennis is at work on a $1500 gasoline launch which will be finished during the winter, dropped into the Willamette and taken to Portland for a pleasure craft during the exposition. Cecil Courter has two pet rats that she calls Punch and Judy. J. M. Dennis and wife, also G. M. Tice and wife are visiting eastern friends and the world's fair. There are three churches and a good school building. Every house in town is occupied and more than a dozen new ones are going up. Many of the homes are quite attractive and the town has bright prospects.
