A Remarkable Invention

It is no longer necessary for the motorist to get stuck. This little device, if carried in his tool-box, multiplies his power by 73, and makes him independent of road conditions. If his auto sticks in the mud, skids into a ditch or overturns, he can right it in 10 minutes by simply driving the three stakes in the ground, attaching

Pull-U-Out

to them and to the auto and giving the ratchet crank a few easy turns. The stakes will hold, even in very soft ground—and out comes the auto. No trouble, no expense, not even soiled clothes! This wonderful little device lifts a ton, of dead weight, or pulls 50 tons on wheels; yet its shipping weight is only 28 lbs., and it fits easily into a space 4x6x14 inches.

100,000,000 DOLLARS—WHY

Prompting the President's appeal are the thousands of Red Cross ambulances on the firing line that must be maintained. Other thousands of ambulances must be built and sent to the front. Forty-five base hospitals already have been established and their work must be supplemented with that of many more hospitals in order to treat the wounds and save the lives of thousands of soldiers, including our own home boys. The force of Red Cross physicians and nurses must be greatly increased and kept on duty.

British, French and Belgian soldiers can be sent home when, under hospital care, they have commenced to recover from wounds or sickness, but for Uncle Sam's soldier boys convalescent hospitals must be built by the Red Cross.

Mothers and wives who have given up sons and husbands and who have no other support must be cared for by the Red Cross organization.

Vocational schools for soldiers, incapacitated by wounds for ordinary work must be organized and financed.

From the front line trenches to the mothers left at home the Universal Service of Mercy must maintain a vast organization and spend tremendous sums in order to meet an almost overwhelming emergency growing out of United States participation in the World War. Nor can the work be delayed one day. Bullets will not wait on tardy dollars. The man who offers his life on the battlefield for the defense of his country must not be left to bear the burden alone.

Why does the government not finance this relief work? The question is often asked. The American Red Cross is ranked as a neutral, as long as it is maintained by private subscriptions. The administration of the Red Cross cannot be carried on as are the national naval and military operations. Relief work, also, must cut red tape, must be promptly ready for every emergency, must be governed by humanitarian principles and quick decisions and must not be hampered by the restrictions of governmental machinery. At the same time the Red Cross is the only relief agency formally authorized by the government. Its head is the President of the United States. Its accounts are audited by the war department. It is chartered by Congress. President Wilson declares:

"A large, well organized and efficient Red Cross is essential. It is both a patriotic and humane service that is rendered by every citizen who becomes a member of the American Red Cross."

Red Cross subscriptions need not be paid all at one time. One-fourth will be due July 1; one-fourth August 4; one-fourth, September 1, and the balance, October 1.

In this world war some must give their lives, others their money. No patriot at home could bear to think that a patriot bled to death on the battlefield because he or she failed to contribute his dollar to the Red Cross. You have no right to say you are patriotic unless you give your utmost in service no matter what it may involve in personal sacrifice.

THE HOME PAPER

Ex-Governor Francis, of Illinois, once said the following of newspapers:

"Each year the local newspaper gives from \$500 to \$1,000 in free lines to the community in which it is located. No other agency can or will do this. The editor, in proportion to his means, does more for his town than any other ten men, and in all fairness he ought to be supported—not because you like him or admire his writing, but because the local paper is the best investment a community can make. It may not be brilliantly edited or crowded with thought, but financially it is of more benefit to the community than the preacher or teacher. Understand, me, I do not mean mentally and yet on moral questions you will find most of the papers on the right side. Today the editors of the local papers do the most for the least money of any people on earth."

ANDREW JOHNSON AT CHAUTAUQUA

Johnson One of the Best Story Tellers on American Platform.

A rousing Ellison-White Chautauqua event for 1917 Assemblies is the coming of Andrew Johnson, noted platform humorist. Johnson has taken the East and Middle West by storm. That he will repeat his previous triumphs on

ANDREW JOHNSON.

the Pacific Coast is certain. The "Johnson smile" alone starts the diaphragm to shaking and the risibles to bubbling into the wrinkle of every laugh Johnson lays a thought. The famous humorist is said upon authority to possess the richest store of point illuminating anecdotes in Chautauqua or Lyceum.
