THE EXTRA SESSION.

The extra session talk has died down and there is not now even a possibility that the governor will call the legislature together in extra session. Such a dicision on his part may cast a gloom over a few politicians and political ringsters who wanted an opportuity to strengthen their grip on the people, but beyond this, there was very little demand for such a move. The following from the East Oregonian doubtless gives the facts in the case: "A gentleman who has been mingling with the political managers in Portland has some vigorous things to say on the subject of an extra session of the legislature, the calling of which is being advocated by the Portland Oregonian and some of the state papers. The Oregonian has openly made request of Governor Lord that he call the session, and, since it has learned that the governor has made up his mind not to call the session, the paper has indulged in some sharp rebukes to his excellency, the chief executive of the state of Oregon. It appears to be the element in Portland headed by Joe Simon that is making the request for a special session. And it is understood that the chief thing desired is the passage of the Portland charter bill, which Mr. Simon brought into the legislature last session and the legislators turned down. This charter was an absolute necessity, so well informed men say, to Joe Simon's maintaining his supremacy in Portland and Oregon and it is yet a necessity. The Hume and Hall factions in Portland have made such progress that Mr. Simon must do something to check them. The charter bill will do this. Ordinarily, it would be impertinence for the people in other cities to take a hand in what appears to be a local fight. But, inasmuch as Portland is Oregon's metropolis, and to such a large extent dominates the politics of the state and now asks the people to pay for an extra session to handle its affairs, the people at large are justified in taking more than a passing interest in the contest."

If Cuba is for sale what's the matter with Uncle Sam making a bid?

The time is now certainly ripe for the recognition of the Cubans as belligerents on the part of Uncle Sam.

Of Course Chicago would much prefer to have named the next president, but she will treat the mourners kindly.

If it comes to war in Venezuela, and any of the troops find it necessary to take to the woods, there will be plenty of woods at hand. That country contains 200,000,000 acres of unbroken forest.

The Gazette is in receipt of the initial number of the Oregon Senator, a Pythian magazine published in Portland by Jas. H. McKibben with G. F. McConnell as editor, assisted by a number of prominent knights of this state. The magazine is certainly very creditable, both to the publishers as well as to the Knight of Pythias of Oregon.

The demand for a special session was urged principally by those who desired to make a record to assist them in the matter of re-election. Last winter was the time for record making, and if the opportunity was not taken advantage of it is not the fault of the governor or of the state. Yes, Governor Lord was right in declining to convene the legislature in extra session.

Lively as a Cricket.

Although in the first instance as sluggish as a tortoise, the kidneys become as lively as a cricket when a healthful impulse is given to them with Hostetter's Stomach Bitters, a promoter of activity in these organs which counteracts a tendency to their lethargy and disease. Inaction of the kidneys, it should be remembered, is the first stage of those dangerous renal maladies against which the resources of medical science are too often exhausted in vain. Peril is forestalled by the Bitters, which averts Bright's disease, diabetes, dropsy, gravel and the troubles arising from a weak bladder. Equally efficacious is it in checking and eradicating malarial, bilious and nervous ailments, dyspepsia, constipation and rheumatism. Appetite and sleep are improved and convalescence hastened by its beneficient action. Either when health is slightly or seriously impaired, the value of this restorative and preventive medicine is speedily made manifest.

NEW DRUG FIRM.

T. W. Ayers, Jr., Purchaces an Interest in Tallman & Company

From the E. O.

T. W. Ayers, jr., of Heppner, on Thursday closed a contract with Joe V. Tallman, which makes the two co-partners in the drug business in Pendleton. Mr. Ayers purchased that interest in the business of Tallman & Company which was owened by Frank Frazier, and the latter has now no connection with the concern. The new firm of Tallman & Ayers will, beyond doubt, be successful. The business which had been built up by Tallman & Company was first class and constantly increasing. Mr. Tallman has been a member of the mercantile fraternity in Pendleton for many years, and has won a high place in the confidence of his business contemporaries and the purchasing public. He is known as thoroughly reliable and particularly well posted in his line of business.

Mr. Ayers has been engaged in the drug business in Heppner, and, although doing a thriving trade in that town, was attracted to Pendleton by the name it has won for being a live town and an excellent business point. His standing in Heppner is "A 1" and he will be an addition to the business community of Pendleton. Mr. Ayers will remove his family to Pendleton from Heppner, on February 1 where they have been living, and this will hence forth be their permanent home. He went over to Heppner Thursday evening.

None But Ayer's at the World's Fair

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

Council Meeting.—Council met in regular session at the council chambers Monday night with all members present excepting Patterson and Farnsworth. Minutes of previous meeting read and approved. A. Wren, $1.00. Election committee selected the following election board which was accepted: J. J. Adkins, J. W. Rasmus and D. W. Herner, judges, and Phill Cohn and E. G. Slocum, clerks. Property owners on south side May street between Main and Gale streets ordered to build a sidewalk. Report of marshal relative to reservoir and condition of stovepipes and chimneys in city of Heppner, read and accepted. Report of T. R. Lyons, who had been previously appointed to compare ordinances with charter and to carefully examine same, referred to the ordinance committee with instructions that this committee carry out the instructions of the report. Adjourned.

WASHINGTON LETTER.

From our Special Correspondent.

The ponderous wheels of the national legislative machine are beginning to move, and from this time on to the close of the session their revolutions will continually grow more rapid.

Senator Mitchell is now well settled in his new committee room. It is on the gallery floor and is one of the finest in the capitol. Here he works in the morning until he is called to committee meetings. After the committee adjourns he goes to the senate chamber where he remains until the set speeches begin; then he returns to his room and remains there until he disposes of his mail. This frequently keeps him engaged until late at night as its volume has been enormous this session, sometimes running as high as 100 letters in a single day. Senator McBride has a very pleasant room in the terrace and is fast making himself acquainted with the detail of his senatorial duties. He made his debut in the senate by reporting favorably from the committee on public lands, Senator Mitchell's bill to correct the injustice done to several hundred purchasers of forfeited railroad grants under a ruling of the present secretary of the interior. This ruling was contrary to the construction placed upon the forfeiture act by his predecessor Secretary Noble and by the present land commissioner, and deprives men who in good faith improved and cultivated railroad lands they purchased of all title. After the bill was reported by Senator McBride, Senator Mitchell put it upon its final passage, it then went to the house and within 48 hours Mr. Ellis succeeded in getting a favorable report from the committee, reported the bill to the house and securing unanimous consent passed it. Today the Oregon delegation in full force visited Sec. Smith to impress upon him its justice. It will probably be approved by the president. The action on this bill is one of the quickest pieces of legislative work on record.

Mr. Hermann has nice quarters in the terrace of the capitol and is, as usual, busily engaged upon matters which concern the welfare of Oregon. Mr. Ellis also has a room in the terrace.

The first formal meeting of the Oregon delegation was called a few days ago by the senior senator. Various important matters connected with the state's interests were discussed, views exchanged and policy determined upon. It was a very harmonious meeting and revealed the fact that the first thought of the members of the delegation is for the state and each one of them is ready to sacrifice his individual views if necessary to the end that her interests may be advanced. The Cascade forest reserve was one of the matters considered. The delegation agreed to conform closely in their action to the wishes of the state as expressed in the memorial adopted by the legislature. They will endeavor to secure a division of the reserve into two one around Crater Lake and the other around Mt. Hood and thereby segregate from the present reservation valuable mineral and agricultural lands now included in it, and also to relieve a number of settlers who under the present conditions of the reservation are isolated and cut off from all possible neighbors. Senator Mitchell is now collecting data on the subject, and in my next letter I will possibly be able to report the changes of the reserve to be urged upon the president.

Frank A. Peltret.

Washington, D. C., Jan. 16, '96.

Not a few who read what Mr. Robert Rowls, of Holland, Va., has to say below, will remember their own experience under like circumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerous remedies, none of which did me any good, until I was induced to try a bottle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work, and the second bottle effected a cure." For sale at 50 cents per bottle by Phill Cohn, druggist.

Pendleton Laundry Burned.—Those who called for their laundry at C. M. Jones' barber shop Sunday morning were given the information that the landury, together with all its contents, had been destroyed by fire the previous Friday night, and that consequently no laundry had been received. This was anything but cheerful information, though the situation brightened up when Charley informed his callers that Mr. Gates, the proprietor had promised to make good all losses. The machinery was only slightly injured, and is already being put in repair for use again. Mr. Gates promptly began the erection of a frame building which will be arranged in a much more convenient manner than the old one, and he now claims that everything will be ready for operation next week.

As an instance we mention Perry & Cameron, prominent druggists of Flushing, Michigan. Ghosts, Etc.—On Tuesday evening the Ladies' Aid Society of the Christian church gave what they designated as a "Ghost Social", at the residence of Vawter Crawford, and it proved to be a very pleasant and amusing, as well as profitable affair. A large number of the members and friends of the church were in attendance, in fact as many as could be accommodated at a private residence. The women had prepared an excellent lunch for the occasion, and when the time arrived for supper, the ladies in attendance were disguised in sheets and auctioned off to the highest bidders, Geo. Conser acting in the capacity of auctioneer and proving a complete success, as the cash returns showed. A very plessant social time was had by all, and the wish is expressed that the aid society will continue these gatherings which was so well begun in this, the initial number.

A Chinaman's Adventure.

There are a large number of Chinese engaged in mining in northern California, and two of these Celestials had a queer adventure during the closing days of last winter. Three Chinamen in camp were taken ill, and two of their companions volunteered to go to the nearest town, sixteen miles away, for medicine. The weather was clear, and the town was reached in safety. But on the return trip a snowstorm came up, and the Chinese became hopelessly bewildered in the rough, mountainous country. To add to their troubles, they each had different ideas as to which direction to take, and finally quarreled and separated. One of them had not gone far before he found a hollow tree, into which he crawled. He had matches with him and built a small fire, and there he stayed until rescued, ten days later.
