When wear begins to exceed repair in your body you are going to fall sick. The signs of it are: loss of flesh, paleness, weakness, nervousness, etc. The repair needed is food. You think you eat enough, and yet you feel that you wear out more tissue, energy, nerve-force, than your food makes for you. The difficulty is that you do not digest enough. And this is so serious it is worth sitting down seriously to think about. If you can't digest what you eat, take a few doses of Shaker Digestive Cordial. The effect of it will be to increase your flesh and make you feel stronger. You won't fall sick. Proof that it is in control of your repair apparatus. It's easy enough to test this for yourself. Take a few bottles of Shaker Digestive Cordial.

AN UNEQUAL CONFLICT.

Cuba would be the first field of battle in a war with Spain. The first shot would free that island and give us as allies nearly 50,000 trained, courageous and determined soldiers. Spain would promptly try to extricate her armies from Cuba, and the United States would as promptly try to throw an effective blockade around the island. This would lead to a hurried massing of the Spanish and American navies in Cuban waters, and terrific naval fighting. In the initial struggle the two countries would stand upon a nearly equal footing. Their navies are much alike in weight and numbers, and neither has seen actual naval warfare.

If the United States succeeded in cooping in the Spanish soldiers, its next move would be the landing of its own armies, and the formation of a working campaign with the insurgents. If it succeeds in these moves, and Spain held out for further warfare, it is probable that Spain would draw her navy away from Cuban waters and try to destroy our seaboard cities and commerce. That would put the United States at some disadvantage, because it has an exceedingly long seaboard, many rich and populous cities on the coast and much commerce.

But however the war might go in its earlier stages, there could be but one outcome. Spain has a population of only 17,550,000, and a combined population, counting its colonies, of 28,911,000. Of these, 9,500,000 people are in the Philippine islands, 1,521,000 in Cuba, 784,000 in Porto Rico, and 437,000 in Spanish Africa. From these colonies Spain could expect nothing. As a matter of fact they would fly at her throat the instant war was declared with the United States.

On the opposing hand, the United States has 70,000,000 people and enormous warlike resources. It could have billions of dollars for the asking, and millions of men for the calling, whereas Spain is bankrupt, and her best fighting blood has been fed to the fevers and insurgents of Cuba.

Spain's incapacity is the best safeguard of peace at this juncture. Before plunging into war she must reckon with her creditors, and their restraining influence will be powerful.—Spokesman-Review.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.
