Frank Kilkenny, of this city, is suffering from a severe gunshot wound in the foot. About two weeks ago, while attending camp for his brother in the Blue Mountains, near La Grande, in attempting to load up a 45-caliber revolver, the weapon was discharged, the ball entering his left foot at the side of the arch and coming out at the big toe, making a very serious wound. He is now getting along nicely under the care of Dr. McSwords.

Beasley, of the Great Northern mine. From that point they will visit the Butch creek country and examine some undeveloped mining property in that locality. Stockmen generally are looking after their cattle on the range. The exceedingly dry weather this fall has caused many cattle to leave the range and congregate along the river, apparently ready to enter the enclosures used for fall pasture. Harrison Hace arrived from the Harney valley yesterday with 400 head of stock cattle, which he will take to the Heppner country. He found the cattle of Harney county of good quality and held at about the same figures as like stock in this valley.

County Commissioner Ed. C. Ashbaugh, of Eight Mile, was in the city Monday. Mr. Ashbaugh stated that he would finish a 35-day run with his threshing outfit today. With his 26-inch horse power machine he has made a record-breaking run, averaging 1100 bushels of wheat per day. In the Eight Mile district wheat has yielded from 10 to 20 bushels per acre, all good wheat, a greater portion of the crop being No. 1. Mr. Ashbaugh will finish on his own grain today, the last in the neighborhood. The season has been very favorable for harvest, and the grain has all been saved in fine condition. The Eight Mile country is one of the principal grain districts of Morrow county. This season Mr. Ashbaugh had 260 acres of wheat, 400 acres of volunteer and 500 acres of summerfallow. Some of the volunteer wheat yielded 15 bushels to the acre. He will have 12,000 bushels of wheat, principally club.

The train will be hurried to St. Louis, Mo., where the horses will be ferried at once down the Mississippi to New Orleans, and there loaded on a British transport for South Africa and the front.

The GAZETTE has made arrangements to club with the Weekly Inter Ocean of Chicago. The regular subscription price of the Inter Ocean is $1.00 per year and the regular price of the GAZETTE is $1.50. By special arrangement, both papers will be furnished one year for $1.60. The old, reliable Inter Ocean is too well known to need much recommendation. It will be a valuable addition to the reading matter for the winter. Besides giving all the news, it has many special features, making it one of the most desirable weeklies in the United States. This special, liberal offer is limited and will be withdrawn in a short time.

Dyspepsia

What's the use of a good cook if there's a bad stomach—a stomach too weak properly to digest what is taken into it?

The owner of such a stomach experiences distress after eating, nausea between meals, and is troubled with belching and fits of nervous headache—he's dyspeptic and miserable.

"I have been troubled with dyspepsia and have suffered almost everything. I have tried many different remedies, but could get no relief until I began taking Hood's Sarsaparilla. After the use of this medicine I could eat without distress, and today I am as well as ever, but I always keep Hood's Sarsaparilla on hand." MRS. J. A. CROWELL, Canajoharie, N. Y.

Hood's Sarsaparilla and Pills

cure dyspepsia, strengthen and tone all the digestive organs, and build up the whole system.

HEPPNER IS GROWING.

Many New Buildings are Being Built This Season.

Many new buildings are being built in Heppner this season.

Work on Frank Roberts' stone building is progressing rapidly. The stone work will be finished the latter part of next week.

Work has been commenced on the moving of buildings to make room for the new stone building to be built by Willows Lodge, No. 66, I. O. O. F. This building will be 60x90 feet, two stories. It will be a very fine building and will add much to the appearance of the city.

The old I. O. O. F. building will be moved to May street, opposite Gilliam & Bisbee's warehouse. The building occupied by Jas. E. Dawber as a cigar store will be moved down Main street and placed by the side of Wills & Patterson's office. Mr. Dawber will move his stock of goods across the street to the building formerly occupied by the Salvation Army.

E. J. Slocum, of the Slocum Drug Co., is considering the question of erecting a new stone building on Main street, opposite The Fair store. At present Mr. Slocum is not fully decided whether he will build this fall or wait until next spring.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

GEORGE WASHINGTON'S QUEUE

It Hid a Luxuriant Suit of Straight and Very Dark Hair.

The Father of his Country concealed a luxuriant suit of hair beneath his queue wig. Many now wish the old fashion were in vogue, to conceal thinned hair or baldness. Yet no one need have thin hair nor be bald, if he cure the dandruff that causes both. Dandruff cannot be cured by scouring the scalp, because it is a germ disease, and the germ has to be killed. Newbro's Herpicide kills the dandruff germ. No other hair preparation will. "Destroy the cause, you remove the effect." There's no cure for dandruff but to kill the germ.
