Efforts of Western cattlemen to secure special Governmental consideration, though persistently urged at Washington during recent weeks, have failed. Their representatives lately called at the White House to enlist the support of the President in the leasing bill. Failing in this, they urged him to direct the indefinite suspension of the orders of the Interior Department for the removal from the public ranges of all fences illegally standing thereon. In this they were not more successful than in the other request. There are many miles of these fences, sequestering unlawfully to private uses wide areas of the public domain. While realizing the trouble and expense that the order for the removal of these fences will entail, and sympathizing to a certain extent with the cattlemen in the matter, the President is inflexible. Delays of one kind and another have been granted until final orders were issued for the removal of these fences by July of the present year. No further extension of time will be granted, and the quicker the cattlemen move in the matter the better. There are those who believe that this is a blow that will stagger the beef trust and bring meat once more within the limit of the working-man's means. Be this as it may, a general order has been issued by the President covering the contested points and sent to the land agents of the West. Immediately upon receipt of reports of violations of the law order will be served on the offending parties; if they fail to come to time, proceedings will be taken against them through the Department of Justice, and the fences will be removed by representatives of the Government having full authority in the matter. A beef-eating public awaits in some impatience the enforcement of this law, so long violated.—Oregonian.

NO LOSS OF TIME.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are working this morning.—H. R. Poelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single days' time. You should keep a bottle of this Remedy in your home. For sale by Slocum Drug Co.

Sheepmen of this section are feeling rather blue over market prospects as reported from different shipping points. It is to be hoped there shall soon be a change for the better.—Spray Courier.

When you wake up with a bad taste in your mouth, go at once to Slocum's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

The directors of the Columbia River Basin board of trade have indorsed the Dallles Portage railway project. A committee was appointed to complete the organization outside of Portland.

[STARTS ON LONG VOYAGE.]

Titus, a Seagoing Tug Has Left New York to Make Soundings for the Pacific Cable.

To take soundings in the Pacific ocean from near San Francisco to the Hawaiian islands, thence to the Ladrones, and from there to the Philippines, for the projected Pacific cable, the Titus, a 120-ton sea-going tug, has just left New York. Stops probably will be made at Valparaiso and Panama. One of the government's most trusted transport captains, who has a knowledge of soundings and mathematics, took the Titus out.

He expects to begin soundings about the end of April, and to complete this task by the end of May. For ascertaining depths a new device will be used. It is a large iron cylinder, topped by a cone, containing air, and is hermetically sealed except when the cylinder is immersed. Then water, flowing into the cylinder and through a tube, has access to the cone containing the air.

Working on the principles of hydraulics and gravitation, it is possible to drop the cylinder to a reasonable depth, and the pressure is indicated on a dial attached to the cone. When the cylinder is drawn up, by taking the pressure and the depth, and making the proper computations, the total depth of the sea at that point is determined.

Soundings will be taken every half hour, with the tug going at a speed of about six miles an hour. It is not expected that a greater depth than 6,000 feet will be found on the course.

NEW OFFICERS FOR NAVY.

Sixty Men with Shoulder-Straps to Be Graduated from Naval Academy at Annapolis.

There will be an addition to the navy of 60 new officers. Secretary Long has authorized the graduation on May 1 of the present first class at the naval academy. This means the commissioning as ensign of 50 naval cadets, who under ordinary circumstances would not be graduated until July 1. For some time there has been great trouble over the scarcity of officers. There have not been enough to perform the ordinary duties at sea, and while congressmen have been anxious to have their friends assigned to shore duty or kept home from sea duty, they have publicly berated the navy department for not keeping naval officers at sea all the time.

It began to look as if naval officers on foreign stations, notably those with the Asiatic squadron, would not be able to come home for five or six years, the regular tour of duty being but three years.

With the graduation of the naval cadets two months earlier than usual it will also be possible to send some of the officers who are instructors at Annapolis to sea for duty on board ship. There are 15 of these officers who may be so detailed.

SENT OUT BY MISTAKE.

McKinley Memorial Postal Cards Sent to Congressmen Without Being Marked "Specimen."

Postmaster General Payne several days ago sent to each member of the senate and house of representatives a die-proof of the McKinley memorial postal card the department will issue in the near future. In almost every case the secretaries of the various members of congress seized upon the cards and addressed them to friends all over the country, generally with a little explanatory note calling attention to the new postal card and stating it should be treasured as a curio, being the first to go through the mails. But the cards did not go through the mails, however, as they were all held up in the city post office. The department had omitted the notice "Specimen—not good for postage," which is printed across the face of the later sample sent out, and those who used the card have been notified to call for them, as, not having been officially adopted by the post office department for use in the service, they cannot be sent through the mails without the payment of additional postage.

Harvard to Get Big Gift.

The officials of Harvard university have announced that only $294,00 is yet to be raised before the medical department can secure the $1,000,000 offered by John D. Rockefeller. They also said that they had promises of several large contributions and felt sure of completing the fund. After Mr. Rockefeller's conditional offer J. Pierpont Morgan contributed $1,000,000. Then $756,000 remained to be raised to complete the $4,950,000 necessary to carry out the plans for a new set of medical buildings. James Stillman, of New York, has since contributed $100,000 and the alumni have been sending in various sums.

Wears Skull Cap in Senate.

Senator Hawley, of Connecticut, surprised his colleagues the other day by appearing in the senate chamber wearing a silk skull cap. The Connecticut veteran has been suffering from colds as a result of going about the capitol building with his head uncovered, and has adopted this means to overcome the difficulty. This is quite an innovation, as it has been many years since any member of the senate has appeared with head-covering while in the chamber. The senator was subjected to some good-natured chaffing by his colleagues, but he unconcernedly clung to his cap, which is similar to those once worn by some passengers upon railroad trains.

Great Country, But Few People.

With a population of only 210,000 Manitoba equals in size the whole of Great Britain and Ireland.

A jeweler says: "Since 1893 the price of pearls has jumped. In the past three years it has increased fully 32 per cent. The number of oysters brought to the surface of the waters of the world averages 30,000 daily, more than were ever taken out before, and still the supply of pearls decreases. When I say supply, I mean the pearls offered for sale to the public. Personally, I believe the pearls are being bought up by investors, and that the bulk of them never get into the market."

"IMPOSSIBLE, for you to enjoy the happiness of motherhood," says the doctor. Sometimes he qualifies the statement, and says: "Impossible without an operation." Yet both these "impossibles" have been made possibles by the use of Dr. Pierce's Favorite Prescription. Many times the hindrances to motherhood are to be found in womanly diseases or weaknesses, which are perfectly and permanently cured by "Favorite Prescription."

This great medicine for women cures irregularity and dries debilitating drains. It heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I wish to add my testimony to hundreds of others as to the value of Dr. Pierce's medicines," writes Mrs. Ida M. De Ford, of Latona, Hubbard Co., Minn. "Have doctored with a great many physicians—some specialists—have twice been in a hospital for treatment. My case has been regarded as a hopeless one, and they knew not what the trouble was. Heart was bad, stomach all out of order, tired out, severe pains in all parts of the body, sinking spells, and nearly every ailment a woman could have. I took many a bottle of patent medicines without effect. I began taking Dr. Pierce's Favorite Prescription and ten months afterward I gave birth to a ten-pound boy. All physicians had tried to find a case they could hear a child. Both the baby and myself were strong, and I got along splendidly—thanks to your medicine."

SUMMONS

IN THE CIRCUIT COURT OF THE STATE OF Oregon, for Morrow county.
Ida A. Weir, Plaintiff,
vs.
Ida A. Weir, Defendant.
To Ida A. Weir, Defendant:

In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit, within SIX weeks from the date of the first publication of this summons upon you, to wit: SIX weeks from April 17, 1902, the date of the first publication of this summons; the date of the last publication of this summons will be May 29, 1902, and if you fail so to answer, for want thereof, the plaintiff will apply to the Court for a decree dissolving the bonds of matrimony now existing between you and the plaintiff, and for such other relief as may be just and equitable.

This summons is served upon you by publication in pursuance of an order of the Honorable A. G. Bartholomew, County Judge of said county, made and entered in the above entitled suit on the 16th day of April, 1902, at Heppner, Morrow county, Oregon.

ARE YOU DEAF? ARE YOU HEAD NOISES?

ALL CASES OF
DEAFNESS OR HARD HEARING ARE NOW CURABLE
by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 20, 1901.

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success; consulted a number of specialists, among others, the most eminent ear specialist of Baltimore, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after six weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain. Very truly yours,

F. A. WERMAN, 298 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.
