ORDER TO SHOW CAUSE

IN THE COUNTY COURT OF THE STATE OF OREGON FOR THE COUNTY OF CROOK.
In the matter of the Guardianship of
John O'Kelley and Marion O'Kelley, Minors.
On reading the petition filed herein, duly verified, of Lydia O'Kelley, guardian of the above named estate, for a license to sell the interests of the above named minors in the following described real estate, situate in Crook County, State of Oregon, to-wit:
The southwest quarter of southwest quarter of section five; the southeast quarter of southeast quarter of section six; the north half of the northeast quarter, the southwest quarter of northeast quarter, the southeast quarter of northwest quarter and the northwest quarter of southwest quarter of Section seven, and the northwest quarter of northwest quarter of Section eight in Township nineteen south of Range twenty-one East of the Willamette Meridian;
for the maintenance and support of said minors, and it appearing to the court that said land is producing no income and is an expense and a burden to said estate, and that it is beneficial and for the best interests of said wards and their said estate that the same be sold.
IT IS THEREFORE ORDERED that the next of kin of said wards and all persons interested in said estate appear before me in the County Court Room in the Courthouse in Prineville, Oregon, on the 2nd day of July, 1921, at 10 o'clock A. M., to show cause, if any there be, why a license should not be granted to said Lydia O'Kelley, guardian, to sell said real estate for the purposes set forth.
AND IT IS FURTHER ORDERED that a copy of this order be served on the next of kin and all persons interested in said estate by publication thereof in the Crook County Journal, a weekly newspaper of general circulation in said Crook County, Oregon, and published at Prineville, Oregon, for three successive weeks, the first publication being on the 9th day of June, 1921.
Dated at Prineville, Crook County, Oregon, this 1st day of June, 1921.
N. G. WALLACE,
County Judge. 38-41c.

NOTICE FOR PUBLICATION

BEWILDERING TO THE MIND

Everyday Measurements of Science That Are Almost Beyond Comprehension of the Layman.

One great difficulty in the study of astronomy is to comprehend the immensity of the distances and sizes involved. For instance, we can form no conception of the size or distance of the sun.

Suppose there was a spherical shell of the diameter of the sun. Suppose a great globe should drop into this shell, every second, night and day, a ball the size of the earth. How long would it take to fill the shell? Would it take an hour, a day, or a week? In fact, it would take two weeks, and when full the shell would contain more than 1,000,000 earths.

The distance to the sun is 93,000,000 miles. How long would it take a cannon ball to reach the sun, if shot from the earth, and continued on its course at a uniform velocity? In order not to underestimate the distance some might say a year. In fact it would take 1,000,000 earths.

Astronomically speaking, the above distance is very short. The sun is our nearest star. Strain the imagination by trying to comprehend the velocity of light which would pass seven times around the earth in one second of time. Now stagger the brain by trying to think of stars, so remote from us that a million years are required for their light to cross the enormous abyss that separates them from us. Think of it! When that ray of light, which now enters the eye, started on its course, perhaps there was no life on this earth.—John Candee Dean in the Indianapolis News.

REFUSED HAND OF SULTAN

Offer of Marriage by Ruler of Sulu Was Turned Down by Alice Roosevelt.

The Moro is not all bad. He has his good points. There has never been a case where a Moro has murdered an American woman, and there are many American women in Moroland. This abstinence, however, is not due to Moro chivalry, but to the fact that in the Moro-thought women have no souls.

Not that the believed soullessness of the sex keeps the Moro from being a ladies' man. In fact, he is inclined to be very gallant. The famous visit of the Taft party, accompanied by the then Miss Alice Roosevelt, some years ago (and long to be remembered in the Philippines), was attended by a characteristic exhibition of Moro gallantry. When this party visited Jolo—no trip to the islands would be complete without visiting this picturesque island—his royal highness, the sultan of Sulu, immediately offered his hand in marriage to the daughter of the President. He addressed her as the American princess, and the name of Princess Alice still clings to her in the Philippines. The fact that his highness already had a couple of dozen wives scattered around the town was no deterrent in case of a Mohammedan monarch.

Encouraging the Hen.

The modern method of increasing the quantity of eggs that may be obtained from hens is turning on electric lights in their pens in the middle of the night, thereby awakening them, to the end that they eat an extra meal and thus approach closer than ever before the ideal of laying an egg a day, week after week. One cannot but think that this lengthening of the working day for hens is a device of the same genius who discovered that there was no need of arising at dawn to feed the poultry. He simply waited until after the henyard denizens had gone to roost, and then scattered their morning meal. The hens found their breakfast waiting for them in the morning, while the ingenious one arose and went about the affairs of the day only when he felt so inclined. No chauticleer called him to work.

"Automobile" Street Car.

Mechanical arrangement similar in many respects to that of an automobile is the distinguishing feature of a new form of gasoline-driven interurban car described in Popular Mechanics Magazine. Though the body, seating 35 passengers, is like that of a standard modern street car, there is a long hood extending in front, in which the 50-horsepower engine is mounted. An auto-type gear shift is provided, and a shaft transmits the power to the rear wheels. Air brakes, electric lights, and a hot water heating plant are other details of the equipment. The car makes a round trip of 40 miles in a little more than two and one-half hours, consuming about five and one-half gallons of gasoline, or one gallon to seven miles.

Too Late.

"Ah!" exclaimed the fallen baseball star as he wiped away a tear. "If I had only thought about that song the young people were singing when I was a bush league player!"
"What was it?" asked a sympathetic friend.
"Take Back Your Gold!"—Birmingham Age-Herald.

Bad Housing and Tuberculosis.

Because of lack of housing in New York Doctor Copeland, city health commissioner, fears an increase in the tuberculosis mortality rate. He says unsanitary conditions create an excellent field for the spread of disease and are sure to result in a moral and mental degeneracy.

Last Big Block of the Canadian Pacific Reserved Farm Lands

THIS announces the offering of the last big block of the Canadian Pacific Reserved Farm Lands. Until this block is disposed of, you can secure at low cost a farm home in Western Canada that will make you rich and independent. The country is ideal for mixed farming as well as grain growing. Later, the same land can be brought only 10¢ per acre every—and naturally, price will be higher. Never again on the North American Continent will farm lands be offered as low.

Your Last Big Opportunity
This block contains both fertile open prairie and park lands in the Leopold and Battledore Districts of Central Alberta and Saskatchewan. You can buy farm lands on the rich prairie of Manitoba, Saskatchewan and Alberta at prices averaging about \$20 an acre. Or land in Southern Alberta under an irrigation system of retailing water from \$50 an acre and up.

20 Years to Earn and to Pay
The Canadian Pacific will not sell you a land you have imported. You must be established—and every question answered—before taking up your home. Investigation is required and made easy. This announcement calls attention to the last great block of Canadian Pacific Reserved Farm Lands.

Special Rates for Homesteaders and Full Information
Should receive your information now to expedite your land. Send for the free illustrated pamphlet, "How to Buy a Farm," and receive facts about land prices, surveying, title, etc. Do not delay. Write today.

Land Under Irrigation
In Southern Alberta, the Canadian Pacific Railway has developed the largest irrigation system operating on the American Continent. This district contains some of the best lands in Canada. An unlimited supply of water is administered under the Canadian Government. Prices range from \$20 an acre up, do not miss early payment terms. \$2000 loan in improvement. Twenty years to pay back.

No Taxes on Improvements
There's a small tax on the land—nothing more than the cost for all purposes but there are no taxes on your live stock, buildings, improvements, implements or personal effects. Good markets, modern schools, roads, churches, amusement, public farms for pleasure and attractive. More you can achieve independently.

No Sale Without Investigation
The Canadian Pacific will not sell you a land you have imported. You must be established—and every question answered—before taking up your home. Investigation is required and made easy. This announcement calls attention to the last great block of Canadian Pacific Reserved Farm Lands.
