ISSUED EVERY THURSDAY

THURSDAY, AUGUST 28, 1902.

Evidently the populist party has not been entirely absorbed in Kansas. At a recent state convention of that party seven delegates were present and signified their intention of nominating a ticket.

It is announced that the greater part of the lumber to be used in the construction of the great Isthmian canal will be from Oregon, which will be another grand advertisment for the state.

Elgin seems to be the most unlucky town on the face of the globe. She has burned out numerous times and last week she was struck by lightning. The town must have been started in the wrong phase of the moon.

Idaho Republicans at their recent state convention declared in their platform for a revision of the Dingley tariff so as to "place on the free list every article and product controlled by any monopoly, and such other articles and products as are beyond the need of protection."

In the near future complaints about a "car famine" will be in order again, as the West has a tremendous crop to move to the seaboard and to milling centers. With an average of 775 bushels to the cars, it is estimated that it would take a train 92,000 miles long to move the country's wheat crop alone.

Baker county has stopped issuing warrants for coyote scalps on the grounds that the state fund is exhausted and the county has to advance the entire amount of the bounty and further that with the decline of the coyote the jack rabbit increases to an alarming extent. Thus the death knell of the scalp bounty law is being sounded even in Eastern Oregon for whose benefit the law was supposed to have been passed.

The organization known as the Trans-Mississippi congress that was in session at St. Paul last week passed a resolution strongly condemning the great combinations of capital known as trusts and favored the enactment of laws that will stop their growth if the ones on the statute banks at present are inadequate. The vote on the adoption stood 20 to 19 which would indicate that the attendance was very slim for an organization that makes such great pretensions.

Navigation of the air may not be so near at hand as supposed. A railroad is being constructed in Illinois on which the trains will be run by electricity at a speed of 100 miles an hour. The peculiar part of it is that scientists say the train cannot possibly leave the track because of the great speed. The theory held by electricians is that the train is practically welded to the track and cannot leave it as long as the power is on. What is the use of areal navigation when we can travel at this rate with perfect safety.

The more recent victims of accidents on an automobile are Sir Thomas Lipton and Sultan of Morocco. There will be quite a fight made to injure the business of the manufacturers of the automobiles just as there was when the bicycle came into general use. Great publicity will be given every accident and scarcely anything said of the merits of the vehicle. But the auto is bound to have its run of popularity just as the bicycle did and after the novely is worn off it will take its place among the other useful and necessary methods of conveyance in proportion to its cheapness and utility.

A peculiar state of affairs with reference to commerce exists along the western coast of Oregon. In Tillamook, Coos and Curry counties nearly all of the wholesale trade is with San Francisco. This trade does not come to Portland because there is no frequent regular communication established. Why this is not done Portland business men can only tell. Now that there is a great stir about a trans-continental road with a terminus at Coos bay, Portland announces that a steamship line is to be established to make a trip every five days. But then every one knows that it will never materialize. Portland is in the same box with numerous other towns. She has too many wealthy men who would rather clip coupons than exert themselves in using their capital in a way that would keep them from dry rotting and be a lasting benefit to the State of Oregon.

SUMMONS.

IN THE CIRCUIT COURT OF THE STATE OF OREGON, FOR WALLOWA COUNTY.

B. R. LAPHAM,
Plaintiff.
vs.
ALLEN SHEEP-SHEARING MACHINE CO.,
Defendant.

To the Allen Sheep-Shearing Machine Company,—defendant.

You are hereby required to appear and answer the complaint filed against you by the plaintiff in the above entitled court and cause, within six weeks from and after the 7th day of August, 1902, the same being the date of the first publication of this summons.

You will take notice that if you fail so to answer said complaint within said time, you will be in default for want of answer, and the plaintiff will take judgment against you for the sum of $173.20, with interest thereon at the rate of six per cent per annum from July 13th, 1901, and his costs and disbursements, which judgment will also include an order to the effect that the following described personal property, to-wit, a debt amounting to the sum of about $225.00 heretofore attached and garnished in the hands of the F. D. McCully Company, at Joseph, Oregon, or so much of such debt as may be necessary, be applied in satisfaction of such judgment or the execution that may be issued thereon.

This summons is published in the Wallowa Chieftain, of Enterprise, Oregon, for six consecutive weeks and seven issues thereof, by order of Hon. Robert Eakin, judge of the above named court, which order is made and dated at Chamber, at Union, Oregon, the 2nd day of August, 1902.

PULLMAN ORDINARY SLEEPERS.

The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a seccial class of equipment. To meet this demand the Pullman Company has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths, keep the car clean, and look after the wants and comforts of the passenger. In each of the trains which a, dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers.
