Should not forget to call at Towne's San Francisco Gallery, where may be seen photographs of all the leading men and women of Oregon and Washington Territory. Skillful operators always in attendance, and the most minute attention paid to pictures of children. Don't forget the location, S. W. corner First and Morrison streets, up stairs. No trouble to show specimens to visitors. Street railroads pass the door every ten minutes, and this is the nearest gallery to the five principal hotels.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. FOREIGN DISPATCHES.

ENGLAND.

In the commons the under secretary for the foreign office read a letter from Granville concerning the recent colonial controversy with Germany. Granville says he has "good reason to hope this friction will soon be a thing of the past." The letter was received with cheers.

John Coleridge Kinnard, conservative, will ask whether the government awarded a contract for the manufacture of cartridges to an American firm without due consideration of prior claims of British manufacturers.

The secretary of war moved that forces at army depots be increased by 3,000 men. He believed the £130,000 already voted would cover the cost of military operations in Soudan. The number of additional men required next year he estimated at 15,000. He believed it would be found advisible to construct short lines of railway for the transportation of troops and supplies around the more serious cataracts.

Granville, in the letter read in parliament, denies that he ever received Bismarck's dispatch of May 5, which, he says, was evidently private and intended for Von Munster's guidance in dealing with the general political situation. Shortly after May 5 Von Munster and Herbert Bismarck told Granville that Germany would be unable to maintain a friendly attitude in relation to Egyptian matters if England continued unfriendly on colonial questions. Granville denied that England was unfriendly, and gave positive assurance of friendly action. Bismarck was satisfied. The tension since has resulted from a difference of opinion whether the assurances given had been kept or broken.

The Archbishop of Canterbury makes public expression of a desire to hold religious services in memory of General Gordon in Canterbury cathedral, St. Paul's and Westminster abbey next Friday.

A strike of 55,000 miners against a reduction of wages is threatened.

The increase of the army will be 15,000 men.

The government does not regard north Borneo under British sovereignty.

THE SOUDAN.

KORTI, March 9.—A messenger from Kardofan reports a rising against the authority of El Mahdi's uncle. There is great dissension and famine among the rebels. El Mahdi has gone in Abbas island, 130 miles above Khartoum.

LONDON, March 9.—A dispatch from Korti says the rear guard of General Butler's troops arrived at Korti from Gakdul in a terribly fatigued condition.

PORT SAID, March 9.—The Italian men-of-war *Dandolo* and *Conte Cavour*, with six Italian torpedo vessels, have arrived here.

KORTI, March 9.—General Wolseley to-day held a general review of the Nile expeditionary force, now reunited here.

PARIS, March 9.—General Briere de Lisle telegraphs the government that his loss during the two days' fighting, to relieve the French garrison at Thuyenquan, was sixty-six killed and one hundred and thirty-three wounded. The garrison itself lost fifty killed and thirty wounded, thiry French officers being among the killed.

WARSAW, March 9.—A bread riot was suppressed by police at Cracrow to-day. A great number of poor unemployed workingmen gathered in front of rich man's castle in a suburb of Cracrow and made a great disturbance, demanding work or bread. The police arrested 100 rioters.

The *National Gazette* of New York gives currency to the following: "There are rumors which lead us to believe that ere many weeks roll on ship yards in the United States will be called upon to exert their utmost abilities to fill orders for steamers which sooner or later be called to do service under a foreign flag. It is said that parties in this city are now engaged in getting up plans and specifications for this new fleet. We have it from good authority that already quite a number of American built steamers have been selected for cruising purposes by a European power, in the event of hostilities on the other side of the water. There is no doubt but that articles besides ships will be largely purchased here for use in Europe. The provision market will likely take a rise, as soon as buying commences to an extraordinary degree."

Ex-Empress Eugene is seriously ill at London.

Poor Invalid Picked Up.

"I was a poor invalid," writes Mr. S. T. Thornton, of Oxford, N. C. "I used Brown's Iron Bitters, and I think it is a fine tonic. It has had such a wonderful effect on me that I am now able to walk about with the greatest ease." This was a case of dreadful debility. Other people who are troubled as Mr. Thornton was, are reminded that any druggist will sell them Brown's Iron Bitters at a dollar a bottle, and they might as well recover their health and strength.

EUROPEAN POLITICS.

BERLIN, March 9. The emperor is highly pleased with the success of Herbert Bismarck's visit to England, in bringing about the acquiescence of England in Germany's colonial schemes in Africa. The emperor is about to bestow upon the count a high order of knighthood, and it is stated Prince Bismarck will take the occasion to declare in the reichstag at the earliest possible opportunity that complete reconciliation with England has been effected.

LONDON, March 9.—Advices from the west coast of Africa state that Germans hauled down the British flag and hoisted the German at Victoria, English mission town, situated at the head of Ambas bay, joining Cameroons territory, while the English consul protested against the action his opposition was unheeded.

LONDON, March 9.—Late advices show there can be no doubt that Russia is rapidly concentrating troops in central Asia, and active dislocation or breaking up of smaller scattered and unimportant military forces is progressing. Additional guns and men are being sent to central Asia and the Baltic, and troops are moving in from the Caucasus.

TEHRAN, March 9.—Sir Peter Lumsden, British commissioner on the Afghan frontier question, and his surveying party, are encamped at Zurabad, on Persian territory.

The name of the point selected for the Gray's harbor lighthouse is Hanson, and not "Robinson," but it is better known hereabouts as Chehalis point. According to the masters that sail here the selection of the site is the best that could have been made, and now for the light. A gentleman in conversation with a member of the lighthouse department was informed that this would be a good light of its order, and that work would be begun on it as soon as possible.—*Gray's Harbor News.*

The queen has taken a hand in the Anglo-Russian complication, and has reminded her cabinet ministers, somewhat sharply, that in addition to being Queen of England she is Empress of India. This reminder was coupled with an intimation that any minister who opposed a vigorous maintenance of her imperial rights would soon find himself without a portfolio.

Ex-President Arthur has not yet decided upon his business plans. He will remain in Washington for a month or two, and it is not probable that he will resume legal practice before September. Whether or not he will become associated again with his former law partners, he will probably occupy one of the offices which they have recently leased.

Great excitement prevails in Shanghai, owing to the news of the overhauling and searching of several English and American steamers en route to Tonquin, by a French man-of-war. Serious losses were caused owners and shippers by detention of vessels.

The governor of Caucasius has arrived at St. Petersburg to attend a staff conference on military movements in central Asia. It is reported he has resolved to send an army of 25,000 from Baku.

Col. M. Lewis Clark, Prest. Louisville, Ky., Jockey Club, states: "Many trainers and others have frequently requested me to attest the excellence of St. Jacobs Oil as a panacea for the many ills that beset the human race."
