Synonyms For Jew.
The name Israelite is usually employed with reference to the religion. Hebrew with reference to the language, literature and race, while Jew is used indiscriminately to represent a member of the Semitic race or a follower of the religion of Moses. They would be distinguished as "convert to Judaism" and "convert to Christianity" or "converted Jew," so there would be no doubt that it was the religion that was being expressed.

A Man's Weight in Gold.
How much is a billion dollars? One billion dollars' worth of coin silver would make a cube nearly 50 feet on an edge. If you were worth your weight in silver that would not make you rich. The weight of a 180-pound man would be balanced on the scales with \$2,500 worth of coin silver. His weight in coined gold would be worth only \$40,000.

The Simple Life.
Prof. George Santayana writes: "To be poor in order to be simple, to produce less in order that the product may be more choice and beautiful, and may leave us less burdened with unnecessary duties and useless possessions—that is an ideal not yet articulate in the American mind; yet here and there I seem to have heard a sigh after it, a groan at the perpetual incubus of business and shrill society."

Famous English Poem.
Lodore is a cataract three miles from Greta Hall, Keswick, Cumberland, England, rendered famous by the wonderful piece of word-painting by the English poet, Robert Southey, called "The Cataract of Lodore," published in 1820. This has been considered one of the best pieces of word-painting in the English language, at least of a similar length.

Spotted Wall Paper.
Marks where people have rested their heads can be removed from wall paper by mixing pipe clay with water to the consistency of cream, laying it on the spot and letting it remain until the following day, when it can be brushed off. The mark, unless it is of long standing, will be found to have vanished.

Last Big Block of the Canadian Pacific Reserved Farm Lands

THIS announces the offering of the last big block of the Canadian Pacific Reserved Farm Lands. Until this block is disposed of, you can secure at low cost a farm home in a Western Canada that will make you rich and independent. The country is ideal for wheat raising as well as grain growing. Later, the same lands can be bought only from private owners—and naturally, prices will be higher. Never again on the North American Continent will farm lands be offered at prices so low.

Your Last Big Opportunity
This block contains both fertile open prairie and park lands in the Lloydminster and Saskatchewan Districts of Central Alberta and Saskatchewan. You can buy farm lands on the rich prairie of Manitoba, Saskatchewan and Alberta at prices averaging about \$15 an acre. To land in Southern Alberta under an irrigation system of canals water from 60 to 80 feet deep.

20 Years to Earn and to Pay
The Canadian Pacific offers you this land under a plan of long term, easy payments that is remarkable in the history of farm investments. You pay down 10%. Then you have no payment on the principal until the end of the fourth year, then return annual payments. Interest is 6%. In Central Canada, the Government has given the world's price wheat. World's price wheat was given in July, 1920.

Lands Under Irrigation
In Southern Alberta, the Canadian Pacific has developed the largest irrigation system in the world. The irrigation system is the most complete and the most successful in the world. It is a model of irrigation. An excellent supply of water is administered under the Canadian Government. Prices range from \$10 an acre up, on the same easy payment terms. 2000 acres in improvements. Twenty years to pay back.

No Taxes on Improvements
There's a small tax on the land—nothing more than \$10 an acre for all purposes but there are no taxes on your stock, buildings, improvements, implements or personal effects. Good marketing, medical schools, roads, churches, amusements, make farm life desirable and attractive. Here you can achieve independence.

No Sale Without Investigation
The Canadian Pacific will not sell you a unit you have inspected it. You must be satisfied—and every question answered—before taking up your home. Investigation is invited and made easy. This announcement calls attention to the last great block of Canadian Pacific Reserved Farm Lands.

Platinum Long Known.
The existence of platinum was first made known in Europe by Antonio de Ulloa in 1836. It was first described by Watson in Philosophical Transactions of 1750.

City Was Impregnable.
The ancient city of Nineveh was eight miles wide and fourteen miles long was surrounded by a wall 100 feet in height and so wide three chariots could be driven abreast on its top.

Wrong Tactics.
"Never never did have good sense!" Interrupted Gap Johnson of Rumpus Ridge, Ark. "He ort to have knowed that it would be cheaper to take a shot at his brother-in-law than to burn the house down to get rid of him."—Kansas City Star.

Possibly.
An expert announces that there are ten causes of crime. Wonder if belief in the old adage that "the good die young" is one of them.

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine—and one entirely free from cigarettey aftertaste,

It's Camels for you.
