THE GEER ADMINISTRATION WAS HANDICAPPED.

The degree of approval that will be accorded the officers of the state during any term will depend largely upon the record made by the corps of officers. That is ordinarily a just criterion, but it is also proper and just to take into consideration the disadvantages or favoring conditions under which the administration labors. It may be well to call attention at this time to some of the peculiar circumstances which have been thrown in the way of the present state administration. Not that the officials now in control need any special favor in public opinion, but that the public may know something of the condition of affairs at the head of the state government.

It goes without saying that the last administration was very unfriendly to the present and that it was with very uncharitable wishes that the official places were turned over to the new incumbents. Everyone has recognized this since the first of the year. Evidence of this can be seen in the acts of the retiring officials—acts which will not admit of any other explanation. For instance the appropriation for running the reform school was cut to $35,000, while the former administration used $61,000. This cut was made by the ways and means committee of the house of representatives on recommendation of the former superintendent of that institution. As a result of this the working force at the reform school has been cut down and perhaps seriously impaired. For any evil consequences of the lack of sufficient working force, the administration will be more or less censured.

Again, it will be remembered that the last few days of his incumbency in office, the superintendent of the penitentiary called for an opinion upon the legality of the amount of salary received by one of the prison officials. The attorney general promptly decided that the amount paid was $25 per month more than the law allowed. The superintendent had been drawing vouchers for the salary for four years and had not raised the question. But just as he was going out of office he raised the question in order that his successor might have to employ a man for the place at a reduced salary. The new administration is expected to conduct affairs as well, yes better, with a cheap man than did the other administration with a well paid officer.

A perusal of the reports of the various officials will disclose many things that are intended to be obstructions in the way of those who now have the conduct of state affairs in charge. Such tactics as these receive quite general condemnation. It is not a fair way of treating a public trust. The people, therefore, watching as they do the acts of every administration, will do well to keep in mind the difficulties that surround the present state government.

The woman who can wear a diamond tiara without looking overwhelmed by its magnificence is unusual.

Carried Down Stream.

When a man crossing some difficult place in his working career, spurring all his energies to accomplish some critical passage in his business journey, suddenly finds his health giving way and feels himself swept out of the saddle by the swift-running current of disease—then is the time when the marvelous rejuvenating properties of Dr. Pierce's Golden Medical Discovery will prove an unfailing means of rescue and restoration.

It is a very simple though eminently scientific medicine. It is not a mere stimulant like so many malt extracts. It restores healthy power by reviving the innermost sources of vitality in the nutritive system. It enables the digestive and blood-making organism to manufacture good blood abundantly and rapidly, so that the immense waste of tissue and nerve fiber entailed by hard labor is offset by a speedy upbuilding of fresh energy and strength.

A prominent and venerable Illinois physician, D. W. Vowles, M. D., of Fowler, Adams Co., writing to Dr. Pierce, says: "I send herewith thirty-one (31) cents in stamps for 'The People's Common Sense Medical Adviser' in cloth binding. With this pittance for so valuable a work (truly a gift to the public), I must express my high appreciation of the vast amount of good that you have rendered the public. A correct measure of your usefulness never has been, and never will be estimated by the public, no, not even by the multitude of afflicted humanity that has been relieved and cured by your medicines. Wherever I go or have been in the United States, I find persons who have used, and are using Dr. Pierce's medicines with satisfaction, for all conditions for which they are recommended. Never has one spoken disparagingly of their action, and from having seen so often their good effects, I am also enthused with confidence in their action in cases and conditions for which they are recommended. It is not common for regular physicians to endorse and recommend proprietary medicines, but in this case I have no equivocation or hesitancy in so doing."
