THE KAYSER HOUSE.—

A representative of Bohemia Nugget was accorded the pleasure of looking through the Kayser house last Saturday and must congratulate its proprietor upon his business ability displayed in both the selection of the site and the method of construction of this first-class hotel. The house is 40 feet in width and 66 feet in length and contains 18 rooms for guests besides kitchen, dining-room, pantry, bath-room, office and a very beautiful and well furnished parlor. Mr. Kayser has spared no effort in the construction of his hotel, has purchased the very best of material throughout and as a result has a hotel that is a credit to Cottage Grove. The rooms are all lathed and plastered and flues so arranged that stoves may be placed in 16 of the rooms. The bath room is well constructed and arranged for hot and cold baths at all times free to the guests. Mrs. Kayser personally superintends the culinary department which is of itself a sufficient guarantee of first-class cooking and first-class fruits, vegetables and meats as all who know her painstaking methods and knowledge of the art will testify. The Kayser house has just opened for business and has had all the guests it could accommodate from the very start. Mr. and Mrs. Kayser are to be congratulated on their wisdom in choosing Cottage Grove as a place of business and as well may Cottage Grove be congratulated upon having them locate here.

A CLOSE CALL.—

Fred Byrne, secretary of the Grizzly Mining Co., had a narrow escape from serious injury, or death last Friday while driving in from Bohemia on the Warehouse road. As he started down the second hill this side of the Warehouse, he reached his foot for the brake, which failed to hold. As the brake gave way under the pressure of his foot the front wheel on his side dropped into a chuckhole and threw him first across the wheel and then partly under the rig. As the wheels went over him, he took time to recall a few things he had done in less eventful moments of life, also to throw the lines into the front wheel, where, fortunately they wound around the hub of the wheel, stopping the horses after a short but spirited run, with no further injury to the outfit than broken straps and one singletree. Mrs. Hawley was accompanying Mr. Byrne to this city, and when the accident happened she was thrown out, but aside from a severe shock and a few bruises, suffered no harm. In twenty minutes after the accident they were sailing along as though nothing had happened.

UNION FARMERS' CLUB.—

The farmers in the vicinity o for mutual benefit, known as the Walker whoiast Aprilorganized a club Union Farmers' Club, report the organization in a flourishing condition and much benefit gained. The members of the club are provided with blanks, upon which they itemize such stock and produce as they may have for sale, stating the price they expect for the same. This list is filed with the secretary of the club, who posts a bulletin, and in other ways looks after a market for the produce of the club members. At the monthly meetings the members have a chance to exchange ideas and become familiar with market reports and such subjects as is of interest to them, and altogether the organization has proved very beneficial to that community.

THE SHOW.—

The Clara Mathes Dramatic Company which is entertaining the people at Martin's hall this week, is without doubt the best company which has booked in this city. The company from top to bottom is admirably selected, the plays are good and the cast shows careful and studied attention on the part of the stage manager. Clara Mathes is clever and far above the average and beyond the expectation of Cottage Grove theatre goers. Bert Van Cleve, the invincible comedy man, is worthy of special notice. In fact every one of the company should be praised to an extent not permissible in the crowded columns of the Nugget. They will always draw good houses here.

REPAIRING THE BREAK.—

Workmen have been at work this week repairing the break in the water main crossing the river at the foot of main street. The main was broken during the recent raise of the river. The present work is of temporary kind, the pipe being laid to the bridge and then crossing the floor of the bridge, as it is impossible to make connections on the river bed at this stage of water.

IMPROVEMENTS AT WALKER.—

The little town of Walker is taking on considerable improvement this winter. Among the later improved conditions may be mentioned the enlargement of Walkers- Bros. store, giving the gentlemen sufficient room to carry a larger and more extensively selected stock of general goods. These gentlemen are also installing a shingle mill, which will be in running order in a short time.

NEW RESTAURANT.—

Elvis Gowdy and Perkins Miller have entered into partnership and are now conducting the new restaurant in the Walker block on Main street near the depot. The young gentlemen are wideawake, obliging and painstaking and merit a share of the public patronage.

G. C. Brown who seriously hurt his hand with a saw a week ago, is improving nicely.

ASSAY OFFICE.—

Berg Bros. are this week fitting up an up-to-date assay office in the building formerly occupied by Hemenway & White's realestate and assay office. The gentlemen will be ready for business the last of this week, and will be pleased to receive a share of the public patronage.

Fred Gale, the popular harness maker who some months ago sold out his west side business to Frank Le Roy, this week purchased the business again, and is now at the old stand shoving out new and mending harness to old and new customers alike, and with each deal Fred throws in one of his pleasant smiles. Success to you, boy.

Max Kruse, the tourist painter and artist who is now in winter quarters at the Oregon Mineral Springs on Coast Fork, is in town this week. The gentleman has several pieces of work in this city, which he will finish while here. He is thinking some of locating here.

The famous DeMoss "Lyic Bands," under the auspices of the Christian church, will give one of their clever entertainment in this city on Janury 27, at Martin's hall. This attraction needs no press comment. It is one of the cleverest attractions on the road.

The ladies of the Methodist church had an old fashioned quilting bee at Mrs. Harry Hart's and Mrs. Clatten's Wednesday afternoon. About twenty-five ladies were present. Dainty refreshments were served and a delightful time is reported.

Lane county's assessable property for 1902 is $6,989,745. Our portion of the state tax is $35,112. In order to raise this amount for state purposes Lane s state levy for this year figures at a fraction under 5¼ mills. The state levy for last year for Lane was 7 7-10 mills or 2½ mills higher. This should reduce our county levy for this year at least from 24½ mills, the levy for last year to about 22 mills or less, for the 20 per cent not be taken off this year a 20 mill levy will raise about the same revenue for county purposes as the 24½ mill levy raised last year. The county commissioners fix the levy at the January term which convenes tomorrow.—Eugene Register.
