Chamber of Commerce Asks Auxiliary Protection For Coast.

In support of the bill to construct a naval auxiliary of 40 ships, to be placed upon the Pacific Coast, the Portland Chamber of Commerce, through its board of directors, at a regular meeting yesterday, passed a resolution giving the measure its full indorsement.

The bill has been introduced in the United States Senate by Senator Newlands, of Nevada. The resolutions recite that the United States is engaged in the construction of an interoceanic canal between the Atlantic and Pacific which will cost $400,000,000, reducing the water mileage from 15,000 to 6000 miles, making it possible for fast freight steamers to make the trip in 20 days, as against 21 days on the railways.—Oregonian.

JACKRABBITS ARE PESTS

Fruit Growers at Dilley Have Big Round-Up and Bag Many.

FOREST GROVE, Or., Jan. 17.—C. Scheese, of Dilley, reports that the fruit growers of that section have a difficult time to ward off jackrabbits from making their homes under the houses of the community during the snow storm and doing damage to the fruit trees.

The farmers of the neighborhood held a round-up yesterday, at which a large number of rabbits were bagged. One of the sportsmen set his gun up against a stump to light his pipe, when a pack of dogs chased a rabbit and passed him. The jack in some way knocked the gun down, which went off, killing the rabbit by the discharge of the weapon.—Oregonian.

Oregon Soil Survey.

WASHINGTON, an, 18.—During the last fiscal year the bureau of soils, department of agriculture, made soil investigations of an area of 500 square miles in Oregon, bringing the total of the survey work of the department in that state up to 1195 square miles, or 764,800 acres. Since the department began soil survey work in Oregon, in 1903, the following areas have been covered: Baker, Coos, Klamath Falls, and Salem.

What is The Definition of Reliability?

It means that when you can buy good, reliable home grown stock, at reasonable prices, that you are saving **time** and **money**; it also means, that you are assured of a better orchard—as your soil conditions are the same, thus not retarding the growth from the start.

Henry Holterman, of Creswell, Ore., says of our stock: "Of the 1800 apple trees, purchased of you last Spring, we did not lose one tree. The orchard is the best for the time being planted, of any in this vicinity." Sold for $300 per acre in less than six months after being planted."

Our motto is—"Treat others as you wish to be treated." A trial order will convince you.

In perfect health there is always a fine feeling of buoyancy and exhilaration, of strength and conscious power. The reverse is the case when the Liver is Torpid. It is a dead weight that hampers every organ in the body and fills the system with impurities that undermine the constitutional strength.

In All Such Cases the Remedy is

HERBINE

THE GREAT TONIC AND INVIGORANT
For Torpid Liver and Constipated Bowels.

When the Liver gets Torpid, it brings with it a long train of symptoms. The most prominent are: bad digestion, dizziness, constipation, vertigo—which means spells of blindness on stooping or rising suddenly, sallow complexion, flatulence or wind in the bowels, intolerable lastiness which the victim is ashamed of but cannot overcome. Great discouragement, a feeling that everything and everybody is against him. The fine cleansing and rejuvenating influence of Herbine is just the thing needed in this condition. It acts at once on the Liver, Stomach and Bowels. The Liver responds promptly to its stimulating effect. The Bowels are emptied and purified through its excellent cathartic properties. The digestion is strengthened and the whole system renovated. As a result the patient feels better. Its begins to improve with the first dose and a few days use puts him in fine vigorous condition. Try it.

NEED OF CORPORATIONS

HEAD OF OREGON POWER COMPANY PLEADS FOR HONESTY.

J. L. White, Local Manager, Attends Meeting of Fellow Employes in Chicago.

CHICAGO, Jan. 17.—The second annual convention of the officers and employes of H. M. Byllesby & Company, engineers and managers of public utility plants, opened here today, at the Auditorium Annex Hotel, with an attendance of 250 delegates. Forty cities in twelve Western and Southern states were represented, among them being Dallas, Oregon, the delegate from that point being J. L. White, local manager of The Oregon Power Company, one of the subsidiary companies controlled by H. M. Byllesby & Company.

Following an address of welcome by President Byllesby, the convention, with H. F. Tidnam, of Oklahoma City, presiding as chairman, settled down to a four-days' consideration of a program composed of professional and technical papers.

Mr. Byllesby said in part:

"I hope I shall be pardoned if I refer to the marvelous development in the marvelously short time occupied of all the enterprises coming under the general term 'public service corporations.'

Deserve Fair Hearing.

"The men who had the courage and the faith to invest their own fortunes, great or small, and by sacrifices of every description, to induce the investing of additional capital in the betterment of this business, at a time when it was looked on as experimental and chimerical and unprofitable—I think these men deserve a fair hearing at the hands of the public, and that alongside of their derelictions should be placed the overwhelming number of benefits they have conferred upon the community at large. Because some of the pioneers and prominent workers of the public service business—as the result of years of toil and conscientious industry, along with certain human errors and mistakes—have amassed independent fortunes, we should not close our eyes to the fact that the great numerical majority died heart broken and in penury.

"It would appear that the world has advanced to a point where controversies should be handled in an advanced and enlightened spirit—where heartburnings, and unfair advantages or arguments on one side or the other of the case, should be avoided. It would appear monstrous that the policies of a mercantile association or corporation should be reviewed and governed by a board composed of physicians, clergymen or lawyers. It would be, perhaps, equally inappropriate if the same mercantile organization were to have its affairs passed upon and rules made for its government by a board made up of public service officers and of farmers—and so on through the category.

Need Men of Integrity.

"On the broad question of public service commissions, I believe, speaking for all of my associates, there is no objection to the public service commission, per se, but a very earnest plea is made that the public service commission should be composed of men of integrity and of ability, and men who have had a previous experience in the business in regard to which they are proposing, under color of a law, to pass regulations and rules.

"I believe a large part of the present unrest and antagonism between corporations and the commissions and law makers would disappear if the corporations appeared before bodies composed of—as we have previously briefly referred to—men of breadth of vision, free from favoritism, and who had a working knowledge of the problems confronting the enterprises upon which they are passing."

Vice President Arthur S. Huey, discussing the subject of "Franchises," said:

"To many, the possession of a public utility franchise is only an opportunity for personal gain. To the conscientious man such possession means an opportunity of administering to the public welfare. A city in granting a franchise not only places in the hands of the grantee an asset of value, but makes the grantee a trustee of the public good. The term itself, 'public utilities,' implies being useful, and therefore of benefit, to the public. To attain this end, that service must be competent. Along with this grant, go certain legal restrictions and rights.

Prefer Spirit of Law.

"Speaking for H. M. Byllesby & Company, I say to you that our organization prefers to consider the spirit rather than the letter of the law, believing that if we administer our affairs as a public trust, we will seldom or never require defense of any legal rights.

"We, as managers and operators of electric, gas, street railway and telephone properties, prefer to keep our franchises by retaining the confidence of the people—to hold the privileges conferred by the public, not by right of law, but by right of merit.

"So thoroughly does our organization believe in this principle, and so anxious are we for its genuine application in all the municipalities in which we operate utilities, that I am now making a special effort to deeply impress upon you its far reaching significance.

"In few other lines of endeavor do petty practices cost so dearly as they do in the operation of public utilities. It is suicidal to adopt a policy bounded by the straight-laced terms of contract and franchise, cap-sheafed by the motto, 'we don't have to.'

"The 'we don't have to' spirit, gentlemen, has caused unmeasured woe to public utility corporations. It was one of the mortal sins of the old-fashioned operator, and we of the present day are still doing penance for its commission.

Honest Policies Required.

"Transact your business above board. Frame your policy and your projects honestly, and stand pat. So you will increase respect for your occupation in the minds of your fellow men."

One of the matters of general interest to be considered is the establishment of an employes' magazine. To-night the delegates will visit the Chicago Electrical Show, where the latest developments in applied electricity for lighting, power and cooking are on exhibit. A trip of inspection to one of the big plants of the local gas company is on the program for Friday.

Social features will consist of a theater party Thursday evening and a banquet Friday night to conclude the meeting.

FRUIT GROWERS PROSPER

Eugene Association Handled Products Worth $120,140 Last Year.

Stockholders of the Eugene Fruit Growers' Association, at the recent meeting received the annual report of the manager, which is of interest to every orchardist in the state. Among other things, it enumerated that there are now 139 stockholders, with paid up stock amounting to $17,580.

The Association shipped 33,411 boxes of apples and canned 126 tons of the same fruit. The cars shipped were distributed as follows: Waco, Texas, one car; Temple, Texas, one car; Kansas City, Missouri, one car; Bakersfield, California, one car; Los Angeles, California, one car; Sacramento, California, five cars; Nashville, four cars; Baltimore, four cars; Chicago, nine cars; New York, 20 cars; Liverpool, four cars; Glasgow, one car.

Prunes were one of the large items handled at the Eugene cannery. There were received 351,471 pounds already dried, and 789,648 pounds of the green fruit. The fruit graded exceptionally well, 25 per cent of it grading 30s, 60 per cent of 40s, and 15 per cent smaller than 40s.

All varieties of fruit canned totaled 8865 cases, and there were 850 barrels of cherries put up.

Of loganberries, 47,167 pounds canned netted the growers three cents a pound, and the Royal Anne cherries netted the growers $90 a ton.

Eighteen cars of potatoes were shipped before the first of the year, and seven more have gone out since.

The total amount of business done amounted to $120,140.

The total number of cars of fruit shipped out was 108, and there were 36 carloads of supplies received for the cannery and members of the association. Some $32,450 was paid out for freight alone.

Supplies for the cannery cost $22,872.42, and labor, including all salaries, $11,137.39. Telegrams cost $211.47.

Some of the items of supplies used the past year are 150,000 tin cans, 1000 50-gallon barrels, 35,000 apple boxes, 23,000 dried prune boxes, 150,000 berry boxes, and 375 cords of wood.—Eugene Register.

CALL FOR TWO NEW OFFICES 12

Lieutenant Governor and Assistant Secretary of State Are Urged.

Provisions for a Lieutenant Governor and Assistant Secretary of State for Oregon were made recently in the State Legislature when Senator Calkins introduced a resolution covering the former and Senator Bowerman a bill covering the latter.

Calkins' resolution calls for a constitutional amendment and if his resolution is adopted must be referred to the people for a vote at the election two years hence. If it is passsed at that time in the shape it now stands, President Ben Selling will act as Lieutenant Governor until 1914, when another shall be elected by the people in the same manner as the Governor is elected. The Lieutenant Governor, the amendment provides, is to act as President of the Senate, but without a vote, is to serve without compensation only when acting in the capacity of President of the Senate, and is then to be compensated in the same manner as the Speaker of the House.

The Assistant Secretary of State, under Bowerman's bill, will have power to act for the Secretary.

Valley Merchants Complain.

That the advance in railroad transportation rates made March 22, 1910, is to be attributed directly to the merger of the Southern Pacific and the Union Pacific, is one of the contentions made in the Willamette Valley rate case, which comes on for hearing February 2, before Commissioner Prouty of the Interstate Commerce Commission, at Portland.

The Willamette Valley case is known as the 10-cent differential adjustment. Between 40 and 50 prominent Willamette Valley merchants appear as complainants. The present complaint involves rates as far south as Albany and Corvallis, but the entire Southern Oregon region may ultimately be involved. The investigation may surpass in importance the celebrated Spokane case.

Dallas Has to Bow to the Inevitable. Scores of Citizens Prove It.

After reading the public statement of this representative citizen of Dallas given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

Mrs. Mary Hubbard, Leavens street, Dallas, Ore., says: "My back and hips were painful and I could not stoop or move quickly without suffering intensely. On the morning when I first got up, I was troubled the most. The kidney secretions annoyed me by their irregularity in passage, especially when I caught cold. After trying a number of remedies without being helped to any extent, I was told about Doan's Kidney Pills. I began their use and they entirely relieved me. I can say that this preparation is an excellent one for kidney complaint." (Statement given August 29, 1907.)

Re-Indorsement.

On December 8, 1909, Mrs. Hubbard added to the above: "My former endorsement of Doan's Kidney Pills still holds good. This remedy has been of such great benefit to me that I am always pleased to say a word in its favor."

When buying a cough medicine for children bear in mind that Chamberlain's Cough Remedy is most effectual for colds, croup and whooping cough and that it contains no harmful drug. For sale by all good dealers.

To secure the best results, manure should be evenly and thoroughly mixed with the soil.

Do you know that fully nine out of every ten cases of rheumatism are simply rheumatism of the muscles due to cold or damp, or chronic rheumatism, and require no internal treatment whatever? Apply Chamberlain's Liniment freely and see how quickly it gives relief. For sale by all good dealers.

Growing the same kind of a crop on a piece of ground, year after year, wears out the soil.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Stomach and Liver Tablets, keep your bowels regular and you will avoid these diseases. For sale by all good dealers.

A seed bed should be thoroughly pulverized from the surface to the bottom of the furrow.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all good dealers.

Fall plowing causes vegetable matter turned under to rot and become more useful for plant food in the spring.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all good dealers.

You cannot plow deep enough to break the hard-pan with a one-horse plow.

Put in Jail

very accurately describes anyone's feelings who is confined to the house with an attack of rheumatism, lumbago, stiff joints or muscles. Ballard's Snow Liniment will cure the trouble, relieve the pain and make you as supple as a two year old. Sold by Conrad Stafrin.

Deep plowing assists in the absorption of water and stimulates capillary action.
