Comparative Digestibility of Food

Made with different Baking Powders

From Series of Elaborate Chemical Tests:

A standard quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

100 Per Cent Digested

Bread made with phosphate powder:

98.4 Per Cent Digested

Bread made with alum powder:

87.7 Per Cent Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal Cream of Tartar Baking Powder is shown to be entirely digestible, while the alum and phosphate powders are found to slightly retard the digestion of the food made from them.

Unalloyed food is not only wholesome, but it is the source of every ounce of body and energy.

"The Sweetest Story Ever Told"

(By U. S. LOUGHARY)

I'll love you and love you and love you,
With a love new and tender and true,
Love you in spring, love you in summer,
Love you in autumn and love you in winter,
That's what I mean when I say I'll
And love you and love you and love you.

Love you when you're good and when you're bad,
Love you when you're happy and when you're sad,
Love you when you're rich and when you're poor,
Love you when you're young and love you when you're old,
Love you when you're sick and love you when you're well,
I'll love you and love you and love you.

Love you when you're sleeping and when you're awake,
Love you when you're lonesome and love you when you're gay,
Love you when you're in this world,
Love you when you're in the world beyond,
Love you when you're here and love you when you're there,
And I'll love you and love you and love you.

Floors Like New

There can be no floors so hard to clean and hard to keep clean. But in an hour's work with the paint brush change your old, shabby floors into new floors that are easy to keep clean and hard to wear out.

ACME QUALITY
FLOOR PAINT GRANITE

is the best floor paint to use. It is made especially to be walked upon as soon as it is dry. It is easy to put on—you can do it yourself—and dries quickly. A quart will cover about 75 square feet, two coats.

Ask for a copy of "Home Decorating" booklet. It tells you all about the use of paint, enamel, stains and finishes in the home.

Getting Ready for the Odds

IT'S coming! The time is coming when you'll want to have an engine to help you do your work. Grind your feed, shell your corn, pump your water, run your cream separator and do a dozen machinery jobs around your farm.

Before you begin thinking about it—before some time during the Gasoline Engine season—we've got it. No complicated machinery to use, no need to hire someone to do it. Gasoline engines will do the work better, with less trouble, and will do it more economically than any other engine made.

Whether you want an engine or not, this store is here for your service in engines.

If you want to talk over your engine problem, come in and see us, ask us to come out and show you or send you a free catalog of Gasoline Engines.

If you want to know more about engines, just ask us the questions.
