A Fourth of July Disturbance in Boston.

BOSTON, July 4.—The Fourth of July parade of the patriotic societies at Boston and vicinity at East Boston this afternoon ended in a pitched battle between some of the paraders and spectators, in which sticks, stones and revolvers were used with fatal effect.

It is claimed the trouble all resulted from the persistence of those who managed the parade in introducing as a feature a float representing the "little red school-house," which, from its association as emblem of the A. P. A., has become so obnoxious to many who do not sympathize with the A. P. A. movement.

Both Sides Lost Heavily.

KEY WEST, July 4.—A prominent Cuban of this city recieved a letter last night from his brother who is in Cuba, who says that on the 1st inst., General Macco defeated the spanish troops near Guantanamo the insurgents loss being 72 killed. The Spanish loss was much greater.

More Trouble in Formosa.

HONG KONG, July 4.—The Foreign residents of Tai Wan, in the island of Formosa, have fled to Laiko, abandoning their property. It is rumored that the Japanese troops have landed 40 miles north of Lai Wan, intending to surround the enemy and preventing them from retreating to the mountains.

Two Boys From the Reform school.

SALEM, Or, July 4.—Two boys escaped from the reform school today and one of them is a bad one. He is Fred McMurray, aged 18, and was in company with Blanck, the Seattle murderer when he killed Jeffery. McMurray has a large birth mark on the left cheek, brown hair and eyes and the appearance of a tough. He was raised in Washington county The other is Newell Shontell, the same age, stooped shoulders, light hair, blue eyes and a big nose.

There Is Another Girl at Gray Gables.

BUZZARDS BAY, July 7.—The long expected stork arrived at Gray Gables at 4:30 this afternoon and left a third daughter with the president and Mrs. Cleveland. The mother and child are doing as well as can be expected. While it is well known a son would have been much prefered to perpetuate the name, the president looked very happy tonight as he greeted the correspondents, but he refused to talk.

Chicago Visited by a Storm.

CHICAGO, July 7.—One of the most furious wind and rain storms known in this vicinity for years passed over the city about 6 o'clock this evening, coming from the Northwest. The day had been intensely hot, and there were many people out in sailboats, and as the storm came up very suddenly it is feared several lives have been lost. The lifesaving crews have been busy all the evening tracing rumors or capsized boats, all in a very exhausted condition. No trace of any others has been found up to this hour, and it is hoped that no more are out.

Spain Will Join in a Monetary Conference.

WASHINGTON, July 5.—Senor Du Puy le Lome, the Spanish minister, says Spain will take part in the next international monetary conference, as she is interested in the solution of the bimetalic question. Spain uses both gold and silver, the latter being coined at a fixed ratio of gold, and there is also an an issue of paper currency. Only two of the Spanish colonies, Porto Rico and the Phillipine islands, use silver almost exclusively. For these reasons Spain's policy is definitely favorable towards the use of both metals, and her interests, particularly in the colonies, are toward an enlargement of the use of silver.

The Elements on a 4th of July Spree.

FORT SCOTT, Kan., July 5.—The heaviest rain that has fallen in this section in many years occurred last night when there was a precipitation of 4.19 inches of water. Marmater river and Mill creek overflowed, and the north side of town is completely inundated. Families have been driven from their homes and much damage to property has resulted. The Missouri Pacific shops are under water, necessitating the stoppage of work. The rivers joined on National avenue and the water is still rising.

The Business Outlook Continues Favorable.

NEW YORK, July 5.—Bradstreet's will say tomorrow: Nothwithstanding the week was broken by a holiday, favorable trade conditions reported continue to exercise a pronounced influence. General advance in the price of staples and the wages of industrial enterprises as a prominent feature. The extent of the voluntary advance in wages reported within a month or two has outgrown the resources of voluntary statistical bureaus which have endeavored to keep track of them. The latest advices are that more than 1,000,000 industrial workers have received an advance averaging about 10 per cent.

"Captain" Webb Not Dead Yet.

SPOKANE, Wash., July 5.—The report given out late last night that Paul Webb was dead was incorrect. Although the doctors say his back is broken in two places, he clings to life with wonderful tenacity, and physicians now say he has a fighting show for life. Webb is quite rational, and speaks of recovering as though death was not to be considered.

One of the Train Robbers Identified.

ROSEBURG, Or., July 5.—John Case, alias McDowell, and James Poole, were arrested by George K. Quine, of Riddles, about 10 miles above Canyonville, brought to Riddles and placed under charge of Deputy Sheriff Shambrook. Case, alias McDowell, was convicted here two years ago for burglary, and returned from the penitentiary a short time since.

It is Now the Pullman Company's Turn.

CHICAGO, July 6.—The Pullman Palace Car Company has advanced the wages of the employes at the Pullman shops 10 per cent. This affects about 4000 people. No formal announcement has been made by the company of its action, as the advance has been gradually taking effect in its various departments for the last two weeks. Vice-President Wickes said today that the company assured its men last year when the great strike was ordered that wages would go up as soon as business conditions would permit, and the present increase was simply a fulfillment of the promise.

THE DALLES, Or July 7.—Reports from the country contiguous to The Dalles indicate good prospects for all kind of crops. The late rains have been of inestimable value. Volunteer is not in good condition but fall and spring-sown grain will produce a good harvest. Farmers are in good spirits, and there is a general air of confidence that prosperity is returning. The amount of money recieved for wool sold at this place will exceed $500,000, and next season a larger amount of wool will pass through The Dalles warehouses.

Weiman was seen shortly after the accurrence, and in answer to a question as to what prompted the rash act, stated that he was tired of life owing to unrequitted love, and regretted that he had not made a better job of it.

The Sharon Strike Settled.

SHARON, Pa, July 8.—After the non-union men from Pittsburg had started to work, the strikers asked for a conference with the operators. The old demand for an advance was made by the strikers, and as a satisfactory agreement was reached by which the firm gives them an advance, the non-union men are to be removed.

The Storm Raged From Iowa to Texas.

KANSAS CITY, Mo., July 8.—Reports of storms during the past three days show the entire eastern watershed of the Rocky mountains to the Nebraska and Iowa lines and to Texas, were swept Friday night by the severest blow. Fields of grain that promised the most bountiful yield for many years, were swept bare of vegetation. The seas of rain were abetted in their work of destruction by tornadoes. It is too early yet to sum up the loss, but the total is appalling, and those to whom the angry elements spared life have little left to sustain it.
