As to the extortionate charges the $15 for fumigating was exaggerated. The other charges of $40 for driver and $5 for vehicle were about straight.

ASKED COUNCIL TO BEAR EXPENSE

Board of School Directors Take Measures to Prevent Spread of Varioloid.

Realizing that the presence of mild smallpox or varioloid is in the city the school directors met this morning to consider ways and means of preventing a spread of the contagion which might at any time occur. The school children were all vaccinated two years ago and the number that would have to be treated would not now be great.

The following document was ordered prepared and presented to the mayor:

"OFFICE OF THE BOARD OF SCHOOL DIRECTORS OF DIST. NO. 4, LANE COUNTY, OREGON., Oct. 21, 1902.

"At a special meeting of the board held this day to consider ways and means to prevent the spread of contagious diseases among the school children of the district, all members of the board being present, a motion was made and carried unanimously that the city be asked to provide virus for the vaccination of the school children and that the city council request physicians to vaccinate such school children as need it.

"And further, that the Honorable Mayor be requested to call a meeting of the city council at once to act in the matter, if it is thought necessary.

"E SCHWARZSCHILD, Chairman.

"F REISNER, Clerk."

Mayor Chrisman accordingly issued a call for a special council meeting for tonight at 8 o'clock. The various members of the council are in favor of strict and prompt measures to stamp out the disease and will probably accede to the request made by the school board. They also express themselves in favor of rigid quarantine. By this movement the bugaboos of varioloid or smallpox will cease in our midst.
