SATURDAY - NOVEMBER 8

It does look a little dubious for peace down in Venezuela considering that President Castro has made a fresh order for two million cartridges. Too many for target practice—except on men.

A Portland young man stole his own dog the other day and got a twenty-five dollar fine in consequence. He took the dog out of the dog wagon during the temporary absence of the poundmaster.

Bishop Moore, Methodist, of Asia, probably makes no mistake when he says that if Russia once gains a foothold in China "all the powers of the world cannot dislodge her." Of course this statement is not meant to apply to the seacoast.

What else than trouble could that Spanish automotist leader expect when he sent his telegram to President Roosevelt congratulating him on the independence of Cuba? If the Spanish public prosecutor fails to make his demand for eight years' imprisonment good, the foolkiller should be sent around to finigh the job.

It is a great compliment to the productive capacity of South Africa when Lord Milner, the British High Commissioner, says that "In their coal and iron deposits and in their agricultural development England's new colonies will find a surer source of wealth than even in the more speculative riches of the gold reefs and the diamond fields."

Kansas is suing Colorado for a river, in other words to restrain the latter state from taking all the water thereof for irrigation purposes not leaving enough in the dry season of the year to even water the Kansan's cattle. It is the old story—a surplus of arid territory with a pronounced water shortage.

Yale University now requires that new students take swimming lessons if unable to swim. This is good, practical education, though at first thought it appears out of place. While learning how the better to live and enjoy life, they may easily be taught how to save that life in case of accident on water.

Lane, the Democratic candidate for governor of California, would have been elected if—yes, "if" several thousand electors who plainly intended voting for him had not marked their ballots wrongly. And thus it seems a voting school is needed down among those Californians who heretofore have led our plain Oregon people to suppose they knew most everything. It turns out they don't even know how to cast their ballots.

A timber cruiser is missing from Portland, and with him about four thousand dollars that between thirty and forty people paid him for timber locations and land office fees. He took them down on the Alsea and showed them timber—good timber. Now they are being held in suspense as to whether or not tuey are located on the timber they saw. It may be, but the chances—big chances too—are that the gentleman was entirely dishonest.

The trial of Lafson Balliet, mining promoter, at Baker City developed the fact that he got possession of the deserted "White Swan" mine, and advertised it extensively through the East as a good thing, making payments on stock easy on the installment plan. Then the money fairly flooded him, the government showing that he received not less than $180,000. As it was a straight steal without a redeeming feature, it is hard to understand how he got off with a sentence of one year in the county jail and a thousand dollar fine. Of course it was the hundred and eighty thousand that he stole that saved him from going to the penitentiary for a term of years.

WHAT HE MISSED.

"I was so angry," said Mrs Henpeck "when they mistook me for a shoplifter that I just couldn't speak."

"My!" Henpeck exclaimed. "I wish I'd been there."

"How can you love him? Why! his father butchered cattle for a living!"

"I know. But his father's son has $3,000,000!"

Diabetes and Bright's Disease.

Interview With Edward Short of the San Francisco Call.

Mr. Edward Short, connected with the business department of the San Francisco Call interviewed:

Q.—You are reported to have been cured of diabetes?

A.—That is right.

Q.—Are you sure it was diabetes?

A.—I was rejected for insurance, and later failing rapidly, our physician told me I had diabetes and to put my affairs in shape.

Q.—Have more than one physician?

A.—Yes, I had another confirm it. He, too, said I could not live long. I had dropped from 200 to 135 pounds and was very weak. A neighbor told me of the Fulton Compound.

Q.—How long did you have to take it?

A.—About a year before I was perfectly well.

Q.—Did your physicians then test for sugar?

A.—Both did. Both reported normal. They were very greatly surprised at my recovery, for they had told me diabetes was incurable.

Q.—Know of any other cures?

A.—Several. I told my friend, William Martin, an S. P. conductor of Stockton, about it. He had diabetes, and was about to give up his position when I told him. He got the same results I did, and was well when killed a year or so later.

Q.—Any others?

A.—I told William Hawkins of the Custom House and Captain Hubbard of the barkentine G. N. Castle, upon hearing they had diabetes. Both of them were cured. I also told a neighbor who had dropsy. In a month it was eliminated. I can't recollect all I've told.

Q.—Did it fail in any case?

A.—Not one. It is a positive cure in Bright's Disease and Diabetes. Go over and see Hawkins and he will tell you the same thing.

Medical works agree that Bright's Disease and Diabetes are incurable, but 87 per cent. are positively recovering under the Fulton Compounds. (Common forms of kidney complaint offer but short resistance.) Price, $1 for the Bright's Disease and $1.50 for the Diabetic Compound. John J. NO A RELIEF BUT A CURE
Helena, Mont., Oct 4, 1902.
Dr C A Perrin, Helena, Mont.
I wish to thank you for my relief. I was suffering agonies from piles and was taking morphine to relieve me, when on the advice of a friend, I procured a bottle of your Perrin Pile Specific and took a tablespoonfull at night and another in the morning. At half past twelve, noon, my wife gave me another tablespoonful, when my pain all stopped. In two days I was able to tend my regular business, relieved. It was simply wonderful. Yours truly, JULIUS STERN, Furrier. Helena.
