THE democratic party of Oregon justly proud of two democratic office-holders who have marked their official career by stern integrity and strict attention to duty. They are Governor Pennoyer and United States Marshal John Myers. Both belong to the plain people. Both hold to the axiom, "A public office it a well-lie true."

H. L. Garsey, a bed-rock democrat, of Helena, Mont., said to a friend in Wash-ington recently: "There is one thing sure, when Montana votes again she will roll up such a democratic majority that it will make the men who are engaged in the present conspiracy sick. I think the effect of this steal of two United States senators will make Montana a reliable nocratic state in the future.

Gov. Hill's last master stroke et titles him to an honorary membership of the republican national com-mittee. He has selected as his mittee. He has selected as mittee. He has selected as his mouth organ the Albany Times, owned and edited by Theophilus C. Callicot, a professional betrayer of his own party for years, and an exconvict. As a member of the New York assembly in 1863, he sold out to the republicans for \$1200, and being appointed two years later by Andy Johnson interrict of the state, he was in 1868 convicted in the United States district court of being concerned with others in de-frauding the government. His sentence was a fine of \$10,000 and imprisonment in the Albany penitentiary for two years. With such a vile tool Gov. Hill hopes to work his way to the presiden-tial chair. He can't do that with dem-

The answer comes from all over the country, from every Grand Army post:
'No! not unless liberal treatment is given to the veterans of the Union ar-It is useless to disguise this fact. Through their committee on pensions, in their national encampments, these brave fellows have again and again snggested certain legislation, which congress has again and again failed to enact. They have never beretolore blamed the republican party for these failures. Now, however, the republican party is in power in both houses of congress, and in the White House, and the soldiers expect and demand such legislation as they have heretofore recom-mended. Some of their leaders do not hesitate to say that unless their wishes are complied with or an effort made to comply with those wishes, they will rethe republican party with their ballots in 1892."

New York Post comments on this: "On the other hand, there are plenty of voters who are so thoroughly disgusted with the pension extravagance that they are sure to rebuke the party if it yields further to these demands."

DID BRICE BUY HIS SEAT!

The New York World is an organ of Gov. Hill and therefore naturally hostile to the reform wing of the democracy represented by such men as Mr. Cleveland and Mr. Brice, the latter the new senator from Ohio. Why the Oregonian relishes the attacks of the World on Senator Brice, consequently explains itself. tor Brice consequently explains itself.
Those who pin their faith to the "great daily's" contention that Calvin Brice bought his senatorial seat are requested to peruse the following from the St. Louis Republic, a paper which is certain by as good subscripts as the head-care.

assumption that because he has money to bribe with he is therefore necessarily a briber. The Republic has been able to find less real ground for scandal in

the Brice campaign than in any sena torial canvass in Ohio since the times of Thurman and Pendleton. It did not wish to see Mr. Brice attacked as a corwish to see Mr. Brice attacked as a corruptionist without cause, and it was fully aware of the reason of the fight made upon him by his leading oppornents in New York city and Cincinnation and Cincinnation obligations. A debt contracted when disadvantage by the help and influence wheat was high, matured when wheat of a good character.

The counts his election as an emphatic was low. To illustrate: The average Youth is the time to form a good nents in New York city and Cincinnati. It accepts his election as an emphatic repudiation of the so-called 'protection's democracy,' and it hopes to see Mr. Brice refute by his course in the senate the charge that he is 'nothing but a millionaire.' If he makes a millionaire at the charge that he is 'nothing but a millionaire.' If he makes a millionaire and a clog to the democratic party, but he can show, as Samuel J. Tilden did, that the possession of abundant means does not necessarily make their possessor a pint to crat. His work in the senate is to justify the democratis in Ohio in railying to him when he was attacked, repudiating the charge that he is a corruptor of politics and selecting him for the senaters would have required the charge that he is a corruptor of politics and selecting him for the senaters would have required above his able competitors for that

A Patriotic Negro.

The following extract from a letter written to the Boston Transcript by Andrew J. Chambers, a colored citizen of Durham, N. Carolina, is respectfully submitted to the consideration of our republican brethren: I may be wrong in declaring that

Christianity has no more devoted ad-herents on the globe than are to be found among the white men and women of the south, and that their humanity and religion is a better basis for negro security than any contemplated legis-lative enactments. When I look at the lative enactments. number of negro homes in every southern community, built by negro wage earners; their numerous churches, built good part by southern philanthropy; while schools ornament every district, asylums honor every state, and every negro sorrow has a white man's sympathy and every negro funeral a white mourner, and then enter an unequivocal protest against the assertion that the negro suffers from a species of outlawry at the hands of the dominant race at the south, it may indicate water on the brain. When every southern state is bearing her legitimate share of national burdens of responsibilities, with both patriotic and heroic pride, I may be a fool for denying that the cruptive fires of another rebellion are smothered in every southern home. Good Character.

The tollowing address was delivered before the Young People's Society of Christian Endeavor in Beaver Creek by John S Jones, who was president of the society during the past year. The address is pithy and is fully worth a care-

Good character is the crown of life. It adorns every situation from the poor working man to the highest in the land. This is the post valuable pearl in man's possession. Once a man has won for himself a good character no one but himself can destroy it; and if once a man loses his character it is very difficult to build it up again.

The way to form a good character is to live according to constant habits based

rock. It is by perseverance alone we can lay hold of this valuable pearl, therefore it is of the greatest moment that we pay due regard to the importance of forming a good character. Of what benefit are all other things with sider the fact that

is good we raise the morality of the place we live in. A man's moral character is his only real property; and since it is of such importance, we should be very careful not to injure it. This is the only propercy transferable to another world. While we must leave everything else behind, our character will follow us.
This is the standard by which we shall

stand, approved or not approved before God-amen and amen.

The Mist correspondent of the St Helens Mist draws this peculiar picture of rustic life: "There passed this place to-day a female headed for the source from Astoria. She claims to be a maid. She is over 50 years of age. Her clothing was slightly dilapidated. She had ing was slightly dilapidated. She had a next on her shoulder with a small bundle hung to it. She had a bey with her about 15 years old. On account of the boy some think the maid business rather thin. She is bunting a timber claim—probably one with a man on it would suit her best."

On January 27th one of the boldest robberies that ever occurred happened in the Elite fero bank in Seattle. A stranger entered the place when a game was in progress, bet one dollar and lost. He there remained until all the occupants had departed except the dealer. He then pulled a revolver on the dealer, at the same time demanding \$200. By his menseing menner the dealer knew he was not to be trifled with and quietly handed the amount asked for; the hold in ruler then asked for \$500, but at that moment three efficers entering made the desperate highwayman retreat. At the same he fired and mortally wounded Dick Richards, the door keeper of the bank. He escaped and the police did not find him entil next day, when he was arrested and placed in jail.
