FORM A STATE COMBINE

Merchants of Various Cities to Organize for Mutual Protection

President D. E. Yoran, of Eugene Protective Association, at Head of Move—Will Discuss Matter at Albany

D. E. Yoran, president of the Eugene Merchants' Protective Association, has a scheme on foot whereby a state organization will be formed and the merchants in every town of any size in Oregon will combine for their own protection.

Eugene was the first city in the state to organize a protective association, and since then Roseburg, Grant's Pass, Cottage Grove and Albany have followed its lead.

It is proposed by Mr. Yoran to discuss the matter of a state organization at the meeting of the Willamette Valley Development League this week. While no such organization may be effected at that time the delegation from the several cities in the valley will be made acquainted with the plan and at a future date the big combine will be effected. It is first desired that many more local associations be organized.

The benefits from a state organization are many. For instance, if a man who is pronounced a "dead beat" or placed on the "blacklist" in one town he cannot secure credit in another town to which he should happen to go until he straightened up his dents. Another feature will be to protect the merchants in the various tons from gratis, "fake" advertising schemes and begging operations.

S. P. SURVEYORS AT JASPER

Will Begin Permament Survey of Natron Extension in Few Days

The Southern Pacific surveyors who have been running preliminary lines and doing reconnoitering work for the Natron-Klamath extension across the Cascade mountains have returned to the valley and are at present encamped at Jasper, where Engineer C. R. Rankin, at the head of the crew, has made his headquarters.

One of the crew, who was in Eugene yesterday, told a Guard reporter last evening that they would stay at Jasper only a few days, starting out in a short time to make the permanent survey for the line, set the grade stakes and do all the work preparatory to actual construction work.

It is expected that grading and tracklaying on the line will begin in the early spring, as soon as the winter rains cease.

COURT GIVES SOUND DECISION

Judge Frazer, at Portland, has held that a real estate man is entitled to his commission even where buyer and seller conspire to do him out of it. H. Wagoner was empowered to sell S. L. Goldschmidt's property on First street, in Portland, for $13,000, what he got over this figure to be his commission. He sold it for $13,500. Then the buyer and seller got together, trying to beat the real estate man, who sued, and the court allowed him his commission. The decision is a just one.

VOTERS SHOULD REGISTER NOW

Give Your Politics or You Cannot Vote at the Primary Elections

Up to five o'clock last evening a total of 927 voters had registered at the county clerk's office. The registrations are not coming in fast enough to suit those in charge of the work. Near the close of the time for registration there will be such a rush that it will be difficult to handle the business properly.

Many voters decline to give their politics when registering. They should bear in mind that they cannot vote at the primaries in April unless they do. Those who register as non-partisan or independent will be barred from participating in the primary election, though of course they can vote at the state and county elections.
