LUCKY BOY MINE SHORT OF HANDS

Operations Hampered by Scarcity of Labor--Plant Ought to Have Sixty Hands but It Is Almost Impossible to Get Them -Gold Bullion Brought Down

Louis Zimmerman, president of the Lucky Boy Mining Co., arrived in Eugene from the mine at 12 o'clock last night on his way back to Portland. He brought out a lot of bullion, the result of the last cleaning up at the 40-stamp mill, and took it to Portland on this afternoon's train. The amount of the cleanup this time is not given, but it is presumed that it is up to the average as the miners are now working in good ore.

Mr. Zimmerman told a Guard reporter this morning that operations at the mine are greatly hampered at present by the scarcity of laborers. It is a hard matter to get enough men to operate the plant to its full capacity and now the force is considerably smaller than it ought to be. Mr. Zimmerman says that at least 50 men are necessary to operate the plant on full time and they ought to have 60. The wages paid by the company are good but it seems that the men, most of whom come from the cities, become dissatisfied with mountain life and are constantly leaving.

FIGHTING THE FLAMES

Thrilling New Spectacle Presented With Great Adam Forepaugh and Sells Brothers Enormous Circus

The progressive policy of The Great Adam Forepaugh and Sells Brothers Enormous United Shows is again illustrated this season in their magnificient spetacle "Fighting the Flames."

This remarkable specatacle is realistic in every way and illustrates the working of the modern fire department from the time an alarm is given until the burning building is consumed. During the action of the play many daring rescues are made and as a fitting finish the leaping of persons from the top of the burning building into a life saving net is most thrilling. Regulation fire engines and other appartus used by the fire fighters are of standard make. The same policy of enlargement and novelty is to be seen in the ring performances this season. Three hundred of the pick and flower of Europe, America and the Orient in the circus profession are to be found in the huge arenic program. Many of the leading artists in the riding, acrobatic and gymnastic numbers have never been seen in this country before, and are celebrated in their foreign homes. This year it takes four enormous special trains to transport the immense equipment, horses and personal factors. When the circus is completely set upon the show grounds there are twenty pavilions in all. The street pageant on the morning of the show day is the biggest and most varied ever organized. This attraction with Forepaugh and Sells has always been immeasureably superior to the efforts of all other shows, and this season it is more diversified, resplendent, novel, sensational and longer than ever before. The great shows will be here one afternoon only Friday, August 24. Numbered reserved seats and admission tickets can be bought circus day at DeLano's Drug Store for exactly the same prices charged in the ticket wagons on the show grounds.

The Glass Blowers

Lorow's glass blowers in the Walton block continue to draw immense crowds of enthusiastic visitors with their splendid exhibition. Saturday will positively be their last day here and on that afternoon children will be admitted for five cents. Each child will receive a present. There will be 200 glass ships given the children.

Complexion treatments are necessarily a part of the grooming of a well preserved woman. It is not so much a matter of how you look today, as how you will look tomorrow. Hollister's Rocky Mountain Tea does the business. Tea or Tablets, 35 cents. Linn Drug Co.

GUARD PRINTS NEWS UP TO 4:30 P. M.

We understand the morning paper has a female solicitor in the field who is making a house to house canvass of Eugene; that this solicitor states the Guard prints no news after noon of each day.

Now as a matter of fact the Guard prints news up to 4:30 or even later, and, owing to the difference in time, its telegraphic service covers the east up to 6 or 8 o'clock p m.

But as far as that is concerned, if any one wishes to know what paper prints the most news, and prints it first—just compare the papers, The Guard in the evening and the next morning's paper.

We are willing to stand by the test, as the Guard seeks circulation only on its merits as a newspaper.

Brevities

Yesterday's baseball scores: S Francisco 4; Portland 0. Seattle 5; Oakland 3. Los Angeles 3; Fresno 4.

The old Huddleston residence on West Eighth street is being torn down to make room for a new $2000 residence. The old house was built in 1853.

In another column in today's Guard is a statement of the condition of the Loan & Savings Bank of this city. During the past year the business of he bank has increased greatly.

The Guard has a number of times during the past few years stated that the Pacific States Telephone Co. intended installing telegraph instruments in its offices and at last one has been placed in the Eugene office.

L. N. Roney is building a new county bridge across the mill race about two miles above Springfield. It has a span of about 60 feet in length.

Walter L. Tooze will open a hop office in Portland and enter into the hop brokerage business on an extensive scale. Frank Page of Eugene will be associated with him.—Woodburn Independent.

SUPERINTENDENT ARNOLD'S ANNUAL SCHOOL REPORT

At the meetnig of the board of education last evening Superintendent M. H. Arnold's annual report was read. In part it is as follows:

Although more than usual care was taken to enumerate all children between the ages of 4 to 20, yet the enumeration this year is less than it was last year. The enrollment is 54 less; average number belonging is 6 more; average daily attendance is 27 less; per cent of attendance is 1.9 less than last year. The average number belonging is greater and the per cent of attendance is less than last year, due to the fact that last year the teachers followed the custom of former years in dropping an absent pupil at once if his absence amounted to 3 days or more. This year an absent pupil was carried on the roll and dropped at the end of the third day unless the teachers were informded of the permanent withdrawal of the pupil, in that case the name was dropped at once. This of itself would increase the number of days absent and lower the per cent of attendance Also the unusual amount of sickness has affected these figures. At one time there were reported 116 cases of fever among the pupils of the schools. Not all of these were typhoid fever cases.

But with the fever and several contagious diseases it has been difficult to maintain as good attendance as might otherwise have been secured. The number of cases of tardiness in the grades is 84 which is a very excellent record. It is very desirable that young people form the habit of punctuality and the earlier this habit is fixed the better.

The number of cases of corporal punishment has been reduced almost one half. The fewness of the cases of corporal punishment is not necessarily an index of the efficiency of the teacher. On the other hand the greater number is not an index of superior ability. There is a difference in the different grades and rooms also a differenec in the pupils from different sections. Where the teacher receives the hearty sympathy and cooperation of the parents, it is seldom found necessary to inflict corporal punishment. The fact that it is seldom necessary to inflict corporal punishment upon girls would seem to indicate that if the boys had the same careful training at home and on the street, similar advantages and privileges, and should receive the same or equally sympathetic consideration, they could be controlled without resort to such means.

The number visitors is an excellent indication of the interest taken in the schools and the welfare of the youth. Teachers and pupils are always glad to have visitors. Especially are they glad to have their parents visit the schools.

Attention, W. O. W.

Eugene Camp No. 115, will meet in regular session tomorrow (Friday) evening at 8 p. m. All members and visiting neighbors are requested to be present, as there will be three candidates for the Protection Degree. a3 V. G. CHESSMAN, C. C.

Wood, wood, wood. At Eugene Transfer Co.
