RAIN FALLS IN ALL PARTS OF THE STATE

Gervais, Or., May 27.—A wholesome rain fell the greater part of last night and is steadily falling. It is worth much to the spring grain that had already begun to show the need of moisture. As a matter of fact the grain crop was not suffering, nor was there any immediate danger. Fall sown wheat and oats look excellent, but spring sown grain was short. The prospects are that there will be an immense acreage of wheat, oats and hay, especially the former.

Hops are almost a failure in this part of the valley, and it is doubtful if there will be one-fourth of a crop in the French Prairie country, or an acreage of 300 against 1000 in former years, and that estimated at a trifle over two bales per acre.

Pendleton, Or., May 27.—. . early half an inch of rain fell and was soaked up by the wheat fields of Umatilla county yesterday afternoon and last night. Rain never came at a more opportune time, as growing grain was beginning to suffer in many sections. The Pilot Rock country was the most in need of it and more fell there than here. A telephone message from Pilot Rock this morning says that last night's storm had added 10 bushels an acre to the crop.

Heppner, Or., May 27.—It began raining here yesterday evening at 5:30 and stopped about 2 o'clock this morning. Crops were in a bad way for rain and what has fallen will help a great deal. More rain is needed in the Ione and Lexington country. Rain and warm weather would help in all localities.

Medford, Or., May 27.—A steady rain is falling today which is bringing smiles to the many fruit growers in the valley. The orchards needed rain for some weeks, and today's showers mean thousands of dollars to producers in a better yield.

But little hay has been cut and only good will result. A half inch fell before noon today.

MONROE'S FIRST RAILROAD IS DEDICATED

Monroe, Or., May 27.—Two thousand Benton county people welcomed the arrival here Saturday of the first passenger train over the Corvallis & Alsea railroad.

Miss Pansy Howser dedicated the new railroad by breaking a bottle of milk and honey, the contents of the bottle representing the productions of Benton county. Miss Howser refused to break a bottle of wine, because Benton is a "dry" county.

With the words: "By this solemn act I dedicate this highway as the Corvallis, Monroe & Alsea railroad," Miss Howser dedicated Monroe's first railroad.

At the Monroe picnic grounds, an appropriate program was rendered, the Corvallis marine band furnishing music. E. H. Belknap presided. In his address he dwelt at length on the resources of Benton county and Monroe and vicinity in particular. He then spoke kind words of Stephen H. Carter, promoter and builder of the road that now connects Monroe with the world. The speech struck a popular chord and Mr. Belknap was cheered heartily.

After the program dinner was served, the roasted steer donated by the Wilhelm's being served cold. In the afternoon there was horseracing and a ball game. The Corvallis high school team was defeated by a Monroe team, 10 to 9.

Among the visitors were 175 excursionists from Calvallis.

Miss Howser, who dedicated the railroad, is one of the foremost contestants for the honor of representing Benton county at the Portland Rose festival.

BIG LAND SALE IN BENTON COUNTY

The biggest realty deal ever made on farming property in the history of Benton county was closed in this city yesterday, when F. J. Taylor, of Rock Island, Illinois, bought the 2023-acre farm of J. W. Foster, paying $72,500 for the property.

This purchase is not only remarkable for its magnitude, but it was made by Mr. Taylor after he had spent eight weeks in an exhaustive personal investigation of all the conditions of soil, climate and other advantages offered by the best known sections of the state, and proves conclusively that Benton county land is not surpassed anywhere in Oregon.

This splendid farm is located 12 miles south of Corvallis and six miles from Monroe, the Corvallis & Alsea railroad passes through it and affording excellent transportation facilities. It is an ideal place for diversified farming and stockraising, to which its new owner will devote it, he having decided to at once move out here with his family and begin extensive improvements.—Gazette.
