CITY COUNCIL HAD QUIET SESSION LAST NIGHT

Graft of Draymen for Hauling Fire Apparatus Cut Off —Letter from J .R. Campbell .

Routine business characterized the regular session of the city council last night in every sense of the word. Mechanically one subject after another went through the mill in regular order. A large number of city bills were audited, the various committees reported, an ordinance was passed and miscellaneous communications read.

The first on hand was a letter from Ex-councilman A. W. Gilbert who is now in Minnesota. It was read by the mayor. The ex-councilman recently underwent an operation and he says he is getting along very well.

A communication from Morris brothers stated that the first issue on the payment of the filter ponds is ready and could be obtained as soon as Recorder Bryson returns to sign the blank coupons which have been sent. There are 60 of them in denominations of $1000 each.

Graft Cut Off.

The fire and water committee reported that they had nothing to report other than that they were working on the question of new pipe lines and would have this ready shortly. They did make one recommendation. They suggested that an ordinance be prepared doing away with the payment of the $1.50 fee for hauling the hose and ladder truck to and from each fire. It is the opinion that the chemical engine is enough and if the others are to be used they must be brought to the fire by the fire team returning after them.

The street committee had a petition for a cement curbing and sidewalks on West Seventh street and the grading of Eugene avenue, two blocks from Park to Cherry streets for favorable reports and both were granted. The street commissioner reported that he had used 3070 feet of lumber for the month of August.

Extend City Limits.

Here Mayor Matlock suggested that in connection with changing the city limits on the west side of the city that an extension be also made in the east end. It is the mayor's plan to extend the limits across the river from Judkins Point, taking in the whole of the channel of the Willamette, but no land on the other side. This is to be as far as the city bridge but to include this bridge. The purpose of this will be to be able to control the river for the protection of the intake pipe into the filter plant and by leaving out the bridge it will settle the dispute with the county as to who stands for the expense of repairs. The city engineer was instructed to survey this. A petition from the property owners must also be secured before it can be brought before the vote of the people.

The question of whether Madison street through the Huddleston property is subject to assessment was questioned and referred to the street seems as though there has been some written or verbal agreement on the part of the Huddleston estate to give this land to the city so that Madison street could be extended. For this they objected to the assessment.

The acceptance and bond of the Oregon Electric company was then read and formaly filed, after a vote of approval by the council.

Water Report

The city bills which were read were carefully gone over and a few held up. Among the larger ones was that of the Eugene Sand and Gravel company of $2451.91 for street material; that of the Northwestern Corporation of $1019.20 for power, $555.75 for light; A. C. Mathews $2564.91 for street material; J. D. McDonald for one month's street sweeping and K. L. Hall for $945 for sewer construction. The report of the water department for August was given as follows:

Balance on hand from July.	111.82
Received water rent for Aug.	2627.32
	2739.11
Paid F. Reisner, City Treas.	2626.29
Cash on hand to bal.....	118.85
	2739.14

A petition to have a shed on the corner of Third and Adams streets removed as a nuisance was refered to the health committee.

A communication from the S. P. in regard to the power line and railroad crossing was read and filed.

A Caustic Letter.

As the result of a rather clearly stated communications from J. R. Campbell in regard to the condition of Blair street, the street committee was given power to act. The first thing that must be done before this street can be improved by the city is to bring it into the city limits. Mr. Campbell's letter was as follows:

"Coming over Blair street today I am qualified to characterize it as a h—— of a road for the city to neglect, with its at least a third of the travel in and out of town.

"If you can't improve it any way else, for God's sake put on a man with a rake and pick to take off the loose rock and boulders that stick out.

(Signed "J. R. CAMPBELL"

Five property owners on Olive street were ordered issued warrants for sums from 14 cents to $1.13 for over assessments that have been paid.

The ordinance to extend the width of Agate avenue to 80 feet was read the third time and passed.

Contractor Ellis was advanced $600 to pay for cement that he had purchased.

The council then adjourned until next Monday night at 7:30.

One May Overcome

constipation permanently by proper personal co-operation with the beneficial effects of Syrup of Figs and Elixir of Senna, when required. The forming of regular habits is most important and while endeavoring to form them the assistance of Syrup of Figs and Elixir of Senna is most valuable, as it is the only laxative which acts without disturbing the natural functions and without debilitating and it is the one laxative which leaves the internal organs in a naturally healthy condition, thereby really aiding one in that way. To get its beneficial effects, buy the genuine manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists. Syrup of Figs and Elixir of Senna is never classed by the well-informed with medicines which make extravagant and unfounded claims to cure habitual constipation without personal co-operation.

TO THE INDEPENDENT REPUBLICAN VOTERS

Gentlemen: As the old bosses have had their convention and nominated their candidates it seems to me that it behooves the progressive republicans (anti-assemblyites) to unite on the candidates they should support at the primaries. If our vote is scattered on two or more candidates the old-time convention plans will beat us, but if we stand together I believe even in Lane county the insurgents will rule. If the convention plan wins this fall our independence is lost for some time. The anti-assembly candidates ought to come together and agree on which one to make the run against the opposition. Some one ought to call an anti-assembly meeting and some plan ought to be agreed on anti-assembly.
