SPORTS

HAYWARD PICKS OUT BASKETBALL SQUAD

From Over 100 Players He Culls All Out Except 12 Best

From over a hundred basketball enthusiasts who have been playing inter-class and inter-fraternity matches for the past six weeks, Bill Hayward has chosen 12 who are summoned for daily practice and probably from whom the University basketball team for 1911 will be chosen. Others may be posted with this list, however, if they show well within the next few days. The men chosen are: Jamison (captain) Elliott, Walker, Watson, Perkins, Moore, Fenton, Simms, Brooks, Rice, Service and Stevenson. The first six of these named composed, with one absent, the first team of last year Fenton played center on the famous Dallas team that toured the East a year ago, and the other men are principally freshmen who are showing remarkable ability and who have all made reputations in "prep" schools.

The new suits which have arrived will be given out at first practice next Monday. The basketball jersey is distinguished from the track jersey by a narrow white stripe over the diagonal green band across the front, knee pads will be used this year, introduced here for the first time.

AUTOMOBILES TO BE TAXED $3 AND $5

Salem, Or. Jan. 5.—Frank T. Wrightman, chief clerk of the corporation department in the secretary of state's office, has completed the final draft of an automobile license bill which is to be submitted to the legislature by that department and by which he expects to increase the revenues of the state department nearly $50,000 annually within a few years.

It is proposed to tax all machines of 50 horsepower or under $3 annually and all machines of greater horsepower $5 annually. The present license is $3.50, which is for all machines indiscriminately, and is paid but once.

AUTOMOBILE NOTES

Fifty attendants at the Madison Square Auto Show which opens in New York on Saturday next, will be attired in the complete costume of the Swiss Guard of the Vatican.

Two odd looking cars may be seen at Grand Central Palace, New York, this week, both of them three wheelers. One of these is made in Germany and is called the Cyklonette. The car is driven from the front wheel above which the motor is placed. The other is an American machine called the Motorette, which has a maximum speed of twenty-five miles an hour and is said to be an excellent hill climber.

The two Abernathy boys, Louis and Temple, who came to town to see Col. Roosevelt last June when he arrived in New Yor, riding horseback, have have returned to Gotham and be a feature of the Brush machine exhibit at the Licensed Automobile Manufacturers Show which opens at Madison Square Garden, January 7. The Famous kids will probably remain on the East for sometime, as it is said they have developed a healthy liking for metropolitan life.

One sees a very different type of salesmen at the automobile shows now. Once upon a time the automobile salesman did not know even the full details of the car he was trying to sell, let alone points about other cars. The increased education of the motor buying public has changed this materially. A man who knows enough to call attention to some special feature in another car that he noticed and wants to know it compares with the like thing in the machine before him, puts it up to the seller to know something of other automobiles than his own. So it has came about that the salesman's education has grown in proportion to that of the car buying public. He can't get away with generalities.

Barney Oldfield has been judged ineligible to compete in sanctioned events for one year, following his suspension on October 19, by the contest board of the A. A. A. In other words a term has been put to the hitherto indefinite suspension and for a man who has done as much since he ran afoul of the A. A. A. to show his defiance for that body Oldfield has been left off light. He draws a fifteen months disqualification for his pains.

A lot of folks think the fore door, four door arrangement in automobiles is designed for the benefit of the driver and they waste a lot of time commenting on the philanthropy of the companies who do so much to make it comfortable for the driver in winter. Of coure, as a matter of fact, the comfort of the driver is considered in measure in this arrangement, but the other fact must not be lost sight of that another seat alongside the driver is gained. One more person besides those whom the tenneau will hold is able to tour in comfort in the automobile. The chaffeur's comfort is more or less incidental.

The entry blanks sent out for the 500 mile sweepstakes to be run on the Indianapolis Motor Speedway on May 30, contain a provision that cars must show 75 miles an hour to qualify. The race is for cars in class C with 600 cubic inches piston displacement or less and minimum weight 2,300 pounds. The prizes to be given are these: First, $10,000; second, $5,000; third, $3,000; fourth, $2,000, and so on until the tenth which is for $300.

NEWS OF CRESWELL AND VICINITY

S. E. Wallace and wife of Cottage Grove, and Mrs. Bertha Brenton of San Francisco spent Sundty with W. L. Wallace and family.

C. F. Moore is erecting a woven wire fenc the entire length of his residence property at the foot of the butte and otherwise improving the premises.

G. W. Jordan, who resides two miles northwest of town, shipped 28 dressed turkeys to Portland just before Christmas on which he netted $268.00, receiving 26 cents per pound for the birds. Mr. Jordan states that 200 turkeys were hatched on his farm, but as they ranged without a caretaker he lost over a hundred of them. He has been raising turkeys several years and says there is money in them when the market price is 25 or 11 cents. Two years ago he sold a turkey at Eugene that dressed 40 pounds.

Contractors Keenan & Stone have been awarded the contract for the erection of a bungalow 24x40 and a barn 26x34 on the land west of town which the Eugene and Great Western Land Co. intend to set to fruit. Work on the buildings will begin as soon as the lumber arrives, which will probably be the latter part of the week. Other buildings are to be erected by the company and the work will be performed by Messrs. Keenan & Stone. This firm also has the contract for the erection of a residence in town.—Chronicle.

HOMESEEKERS ARRIVE AT JUNCTION CITY

Thompkins Land Company's Special Car Comes in With Twenty-five

Special Correspondence.

Junction City, Jan. 6.—The Tompkins Land & Immigration Co. have started from St. Paul and will arrive here today with a special car of twenty-five persons who have bought orchard land five miles west of Junction. The Commercial club is making arrangements for their entertainment while they are here. These gentlemen are but a few who will be here as the company has bought and hold options on 1700 acres of land in the Fruitdale tract.

The civic improvement company is getting the opinion of the seridents of the city as to improvements that should be made and will report these soon.

The Junction City Commercial Club took in 36 new members Wednesday which makes its total membership 102. This is the largest club in the state considering the population of our city.

The new members of the city council were sworn in last Tuesday and have started in at once with those that held over to further improve our little city.

"FLETCHERISM"

The habit of chewing one's food until it becomes almost liquefied and swallowed involuntarily, and eating certain foods at certain times of the day is called "Fletcherism" after a man named Fletcher who advocates this method as a remedy for indigestion and stomach troubles. While one may get from this system the maximum amount of strength from the minimum amount of food, it is a question as to what extent this principle of living can be applied to the human race as a whole. It is an old and true saying "What is one Man's meat is another man's poison."

There is one thing sure, however, much less distress and mich more assimilation of the body-builder elements contained in every ady food would be experienced by the people with poor or impaired digestion if they would only believe what we tell them about Vinol.

There is no mystery about it, or misrepresentation. Vinol simply contains the necessary elements needed to reestabl normal condition of the digestive There is no need of going into tecnnitic reasons why—it simply does it, that is all.

Thousands of genuine testimonials from reliable people prove this claim, and to further support the fact and prove our faith in what we say we unhesitatingly declare that any one who will buy a bottle of Vinol for stomach disorder and malasimilation, will have their money returned without question if they are not satisfied that it has done them good. The Red Cross Drug Store.
