

...Bicycles With Wings...

The nearest approach to flying yet attained. The experts who perfected and the makers who produced the Chainless Bicycle are public benefactors. No noise. No breaks. No friction caused by exposed driving parts. No attention necessary. "You buy the wheel—the Columbia Chainless does the rest." Not an hour of time taken to keep the Chainless in order for a year. More durable. More handsome in appearance. Less expensive "in the end." Absolutely satisfactory under all conditions of use. The Columbia Chainless stands today as the greatest achievement of America's oldest and most modern and complete bicycle factory. "You see them everywhere." They are

A Challenge.

As agents for a new stump-blasting, bank-blasting and mining powder (The California Vigor Powder) we challenge the representatives of any powder company on earth at any time and place to test their powder against ours for strength, superiority and cheapness. This powder has been tested by Clackamas county and many individual citizens and is acknowledged to be 25% cheaper than any other powder. Extremely Weak

Deficient Blood Causes Loss of Appetite and Final Break Down—Hood's Sarsaparilla Cures.

"I lost my appetite and about all I lived on was cold lemonade. My strength was all gone. I was so weak I could hardly cross the floor. At last I was taken very sick. One physician told me my blood was all gone and he gave me medicine but it did not help me. I had pretty much lost all faith in medicines, but thought I would get one bottle of Hood's Sarsaparilla and try it. After taking that bottle I was much better, and so I got two more bottles and after taking them I was well, but to be sure of it, I kept on taking Hood's Sarsaparilla until I had used in all five bottles. It has done unspeakable good to me and I wish all my suffering sisters would try it." **MRS. A. EVERSEN, Wedderburn, Oregon. Remember**
