Stepin Fetchit, a colored lad who is just naturally funny, furnishes all of the many laughs in "Fox Movietone Follies of 1929," now playing at the Heilig. Stepin is a clever actor and his feet just talk when he puts on a special dance act.

Chorus girls, lots of fine singing and dancing, in fact, a musical comedy as is put on on Broadway, forms the theme of the picture. Three songs which have been popularized by this production form the nucleus for the musical numbers. The songs are: "Big City Blues," "When I Go Walking with Susie," and "The Breakaway."

When Dolores Del Rio's picture, "Ramona," was shown throughout the land, everyone spoke highly of the photography.

Robert Kurrle, Edwin Carewe's ace cameraman, was responsible for the beautiful shots in the film.

Now comes "Revenge," Miss Del Rio's lated United Artists production, opening at the Heilig theater Sunday. In this picture Kurrle had unlimited opportunities to focus his camera lens on beautiful exterior settings. Those who see the film will hasten to agree that the cinematographer lost no time in "registering" everything that nature provided in beauty for this latest Del Rio presentation.

"Simba," the motion picture record made by Mr. and Mrs. Martin Johnson, the famous explorers, during four years in the jungles of Africa, is at the McDonald theater this week and is one of the most exciting and thrilling films ever seen in this city. It holds not one dull minute from the time the Johnsons load the outfit for their long trek into the jungles up to the startling climax when half-naked natives, armed only with slender spears, surround and kill full grown lions.

Marching across the screen come antelopes, giraffes, zebras, rhinos, hippopotamuses, herds of elephants, leopards—all the denizens of the jungle, just as they are at home. And they are photographed with a clarity and against such wildly beautiful

backgrounds that the value of the film is wonderfully enhanced.

"A Single Man," now at the Colonial theater, is a diverting comedy of a middle-aged romance which almost goes to the rocks when a young flapper and her collegiate friends appear on the screen and start the hero on a mad chase for his lost youth.

He outdoes them at their own game of modernity, trying to prove that a few added years means nothing if the spirit is young. He imagines himself in love with the flapper, and doesn't realize, until the wedding date is set, that his heart really belongs to his quiet but beautiful secretary. As the flapper has a boy friend her own age, she solves the problem in an unexpected and satisfactory manner to all concerned.

Perhaps the most hilarious comedy feature shown locally in many months is "Modern Love," the Universal talking picture which opened Wednesday at the Rex theater.

Heading the cast are Jean Hersholt, Charley Chase and Kathryn Crawford, all well-known and more than adequate in their roles. Their mirth-making is spectacular in its power to arouse the risibilities of audiences, and every performance yesterday was greeted with outbursts and gales of laughter.

The mystic, the dreamer and the alert modern girl are all blended in the personality of Alma Bennett, who plays the role of an alluring little vamp in the Tiffany-Stahl picture, "New Orleans," in which Ricardo Cortez and William Collier, Jr., are her victims.

"New Orleans," which is a Reginald Barker Special Production, directed by Barker from an original story by John Francis Natteford, is the feature attraction for Thursday at the State theater. Dialogue and musical score have been synchronized by RCA Photophone.

Coast Roads Said In Good Condition

The state highways leading to the coast and most of the county roads in the coast region were said to be in good condition by H. S. Shelley, supervisor of the Siuslaw national forest, who was over most of them on a recent tour of the forest.

The Roosevelt highway is in excellent condition from Newport to Hebo, Mr. Shelley said. The new short-cut road from ned Grand Ronde to Devil's lake is still under construction, although passable. The road is rough and dusty, Mr. Shelley said.
