In LOS ANGELES it's RED CROWN GASOLINE by 250%
On a busy Los Angeles streetcorner a checker stood and asked 150 passing motorists "Which gasoline do you use?" 63 answered "Red Crown," as against 18 for the next highest brand—a lead of 250%.
Because "Red Crown" is an all-refinery gasoline every drop of which vaporizes rapidly and uniformly in the carburetor, and is completely consumed in the cylinders, giving quick starting, smooth acceleration and maximum mileage, "Red Crown" is *the* popular motor fuel everywhere.

DAILY MARKET REPORT

OREGON JOURNAL MARKET SERVICE

PORTLAND, Ore., March 26.—Cheese market is somewhat demoralized here, although no further price change is shown at Tillamook.

Secret cutting by some houses here has been reported for some time past. This has emerged into open price slashing. The result is that no stable prices on cheese exist here. Sales in some instances being made down to 26½c a pound for Tillamook triplets in box lots; a price that is just about landed cost. This really means a loss to the seller, as no selling expenses is allowed.

Because of the cutting of prices on Tillamook stock, cheese from lesser known and from Eastern sections is also being shaded here. Eastern triplets are ebing offered down to 23c a pound, while Oregon-Washington stock is being quoted around 23c to 24c for good stuff.

Lower prices are also named on cream brick and other fancy cheese.

Tillamook is reporting a normal seasonable output.

BUTTER ADVANCE IS IN EFFECT

Market for butter is quoted at the rise of 3c announced by the Journal Saturday evening. The new price of best prints is 47c for parchment wraps, while cubes range from 42@44c generally.

EGG STORAGE BASIS LIBERAL

Liberal storage operations continue in the egg market, with prices firmly held. Buying values generally are around former figures. Ice house movement in California is also very liberal.

CHICKEN TRADE JUST STEADY

Practically no change was shown in the chicken market for the week's opening, although the trade in general is anticipating a slightly lower price all around. Capons of quality selling well.

ONION PRICE IS NOW NOMINAL

Because of the excited condition of growers there is practicaly no new business passing for onions. Prices are on a nominal basis. Values asked here are too high to admit of business at the moment.

POTATO PURCHASE IS LIBERAL

Liberal purchases of potatoes continue at 40@50c a cental generally at common terminals. This is for good shipping stock. An occasional lot of something extra fancy is bringing a premium, and worth it.

American Walnuts FOR American People
The safest crop to raise is the one having the greatest public demand. Take Walnuts, for instance.
In 1911 there were 32 million pounds of Walnuts imported into this country.
In 1921 there were 45 million pounds imported. An increase of 13 million pounds.
American people "want" more American Walnuts. But we're not supplying their "wants."
Our home-grown Walnuts are far superior to any imported, and an unlimited demand for them exists.
Why not plant a few Walnut trees this Spring?
They are likewise serviceable for shade and ornamentation.
