Think what this world would be without confidence that the sun would rise tomorrow!

Without confidence in the order of things, in our fellow men, in our institutions, chaos would reign in the world. There would be no security, no progress, no happiness. Confidence is essential to all that is worth while.

## DAILY MARKET REPORT

OREGON JOURNAL MARKET SERVICE

PORTLAND, Ore., May 21.—In strong contrast with each other were the Eastern and California butter markets during the last week, complicating an otherwise strong trend. While California values were inclined strong and higher, the East was weaker and lower.

Upon the action of the California trade for the week's opening depends the price of print butter at Pacific Northwest points within the next few days. Contrary to usual custom, there is considerable strength in the butter trade at the very time when production is practically at its maximum for the season.

EGG TRADE SHOWS NO CHANGE

Practically no change was shown for eggs at the week's opening here. Leading f. o. b. buyers are showing no special keenness about bidding up, indicating the prevailing prices are about all the market affords.

# Be Sure of Children's Health

ARE your children healthy? Are they strong and vigorous? Or, are they frail and delicate—pale, under-developed? These latter signs are indications of malnutrition—a condition that exists in one out of every three children in the schools of our nation.

Such children are starving for want of elements necessary for health—elements found in greater proportion in good bread—in BETSY ROSS Bread—than in any other single food. Truly, good bread is a wonderful food, yet few eat enough of it.

But, there are many grades of bread, and to best serve your family's health you should select a bread containing the health giving properties in the right proportions. You will find them in BETSY ROSS—a loaf of unsurpassable quality. Select your bread wisely for "There's a difference in bread." Don't say "bread," say BETSY ROSS.
