When the wall is out of plumb the building is more or less unsafe, and the higher the wall is carried out of the perpendicular the greater the danger of col-lapse. It's about so with the health; it is out of plumb when the digestion is

impaired, when there is a dull, sluggish feeling, with nervousness irritability and sleeplessness. Every day that these symptoms are neglected increases the liability to physical collapse

"For three years I suffered untold agony," writes Mrs. H. R. White of Stanstead, Stanstead Co., Quebec. "I would have spells of trembling and being sick at my stomach, pain in right side all the time; then it would work up into my stomach and—such distress it is impossible to describe. I wrote to the World's Dispensary Medical Association, stating my case to them, and they very promptly answered and told me what to do. I took eight bottles of Dr. Pierce's Golden Medical Discovery, and five vials of Dr. Pierce's Pleasant Pellets. Thanks to Dr. Pierce's Pleasant Pellets. Thinks to Dr. Pierce's Pierce's Redictions also cured my mother of liver complaint from which she has been a sufferer for fifteen years. We highly recommend these medicines to all suffering people."

SCHOOL GRADUATIONS AND ELECTIONS

New Teachers Elected. The Annual School Meeting. Teachers' Meeting. Eighth Grade Graduating Exercises.

The board of directors of the Oregon lity school district voted last Friday fight to have a gentlemen from Ken-tucky, as superintendent of the city schools.

His name is H. A. Hayes, of Hender-son, Ky., and he was employed through teachers' agency, who not only guar-utee his educational ability and peda-rogic accomplishments, but pay his fare from Kentucky to Oregon City and re-turn, if he does not prove satisfactory to the school board. He is said to have riven satisfaction as school superintend-int in a city of 15,000 inhabitants. Mr. Hayes comes from a land of "co-

onels," pretty women and chivalric nen—the home of statesmen and val-ant soldiers—the state that produces ine horses and the best old bourbon and rye in the world. A teachers' agency differs from a mat-

imovial agency in several respects. In he latter the goods sometimes come 3. O. D., and the agency makes no provision for the return of the article, if it toes not prove satisfactory. In this re- John Trullinger's place. pect, the teachers' agency has points lecidedly in its favor.

No one questions the qualifications of Mr. Hayes, but many people openly ex-ress the opinion that the board should have given Oregon applicants the prefrence; that there is no incentive for eachers to apply themselves diligently or promotion, when they are coolly arned down. The board of regents of he University of Oregon, have finally lecided that it does not always pay to end East for presidents, and selected resident P. L. nounced the unnecessary and extravagant expenditure of the sheriff's and clerk's offices and entirely overlooked the assessor's and the big monthly sums received by the three commissioners. The reason for the oversight was not far to seek. H. Cross and Colonel Miller were especial objects of his venom, and he boldly declared that they, with perhaps Billy Ganong, formed the worst and most dangerous political ring in Oregon City and Clackamss county. The tone of Mr. Ryan's speech was more moderate. He gave his own voucher for the fitness for office and the good qualities of the candidates on his side, and thought it would be better policy for the people to vote for republicans who would work than for their rivals, who would only make "flowery" speeches. The judge is a good and popular man, but he will not have any votes to spare on June 2d. The general tendency to extravagance of the republicans in this

county is sure to detach numbers of voters from them on election day. The citizens followed closely in the wake of the republicans, and there was also a fair-sized audience to greet them. Mr. Editor: Please allow me a little of the people's party raised a cry against fusing with the democrats, yet they electioneered for Brownell and other republican candidates; but more than that, they were also leaders of an insignificant little order called the M. P A., or vigilance committee, of which I was also a member. So just before election I met a co-member, and he told me that at the previous meeting (from which I was absent) they had passed a resolu-tion endorsing a certain candidate. Now, in the first place, this was not a political organization and therefore had no business to pass a political resolution; and today that same element stands at the head of the socialist party. I think it is simply to draw votes from the citizens' party and cause the elec-tion of republicans. With them it is a case of you cannot tickle me too much now; we are not single yet. friends, is why I am not and never will be a socialist, as long as present conditions prevail. You all know me.
