SMITH PLANNING VACATION

Democratic Nominee to Have Plenty of Swimming, Golf

ALBANY, N. Y., July 25.—(AP)—Governor Smith, whose pet diversions are swimming and golf, decided today on a few days' vacation at the seashore, where he will get plenty of both.

Anxious to have an "absolute rest," he announced that he would spend the week-end at Good Ground, on the south fringe of Long Island, and that during his stay there a tight lid would be clamped on politics.

Although he plans to stop off in New York Friday night for a chat with Governor Ritchie of Maryland, the Democratic presidential nominee emphasized today that he didn't intend to have his stay at the seaside spoiled by political conferences. He even is determined to dismiss from his mind the acceptance speech which he will deliver here four weeks from tonight, and will do no work on it while out of town

Al Silent on South

During the press conference, a correspondent tried to draw the governor out on the political situation in the south by asking how seriously he took reports of a breaking away from party ties by some southern Democrats.

"Don't know a thing about it," Smith shot back. "The only man who can answer that is Peter Gerry, if it can be answered. That's his little joke."

Senator Gerry of Rhode Island, is chairman of the Democratic advisory committee.

As to his stay at the shore, Smith said he proposed to go out to Good Ground on Saturday and to make his headquarters there at Canoe Place Inn, a private club.

COOLIDGE PRAISES WORK

SECRETARY'S RESIGNATION FORMALLY ACCEPTED

SUPERIOR, Wis., July 24.—(AP)—With high praise for Dr. Hubert Work's activities as secretary of the interior, President Coolidge today formally accepted his resignation from the cabinet.

"I wish to thank you for the loyal service you have rendered to the country during the time which you have been at the head of the important department of the interior," Mr. Coolidge said in his letter to Dr. Work, accepting his resignation.

After stressing that his tenure of office "was a real contribution to the administration of public affairs," Mr. Coolidge concluded by saying that Dr. Work could feel that he was "leaving the department in a high state of efficiency which will be reflected in the success of its efforts for some years to come."

WOUNDING OF MORONES CANNOT BE CONFIRMED

Mexican Leader is Reported In Hiding Injured

CALLES MAY HAVE TO GO

Statements of Obregon Leader Indicate That Present President Will Be Opposed

MEXICO CITY, July 24—(AP)—Reports received in New York City that former Secretary of Labor Luis Morones had been wounded July 15 could not be verified tonight. Morones' whereabouts were unknown and those ordinarily close to him were either ignorant of where he was or chose to conceal their knowledge.

Innumerable reports concerning him have been circulating for the last few days, including one that he had escaped to the United States in an airplane. If any attacks have been made on him they have been kept secret.

An intimation that in addition to demanding the removal of all members of the labor party from the government, Agrarian leaders did not expect President Calles to remain in office as provisional president was seen in a statement of the Obregon leader, Antonio Soto Y Gama, tonight.

Asked if the provisional president would be General Calles, Soto Gama replied:

Many Oppose Calles

"A constitutional president who continues in power as a provisional president directly violates the constitution which prohibits re-election."

This was construed in some quarters as Agrarian opposition to the demand formulated that the president continue in his post for another two years.

On the other hand, Ricardo Topete, leader of the Obregon block in congress which controls that body, has placed himself on record that either Calles or Aaron Saenz, governor of the state of Nueva Leon, will carry on the government until elections can be held in 1930.

Friends of President Calles said today that he had reiterated his desire to retire from his post if it were possible and resume his life as a dairy farmer.

Agrarian groups in various parts of Mexico today took up the demand of their leader in Mexico City that "all labor influences" be removed from the Mexican government.

Demonstrations Occur

In several parts of Vera Cruz and other states in the south Agrarian demonstrations occurred, speakers demanding that the followers of Luis Morones, until a few days ago secretary of labor, be ousted not only from the cabinet but from congress as well. At the same time in the capital the Obregonista leaders, Soto Y Gama and Aurelio Manrique, repeated their charge that the labor union organization and the labor party, in both of which Morones was the guiding spirit, were "psychologically responsible for General Obregon's assassination."
