Street paving contractors have been in consultation with our mill men relative to the price of lumber for street work in the city of Portland. If these contractors get the work in the metropolis upon which they are figuring, the lumber will be furnished by the Hillsboro mills. Nicholson paving blocks are to be used in the new street work, but these are to be covered by asphaltum. The idea probably is that the air will be excluded and the blocks will not be liable to rot.

X. N. Steeves who was indicted in Multnomah County, on the charge of being accessory to the murder of Sayers in Portland some months since, was on Wednesday last turned over to the custody of Sheriff Ford. Steeves has had one trial but the case having gone to the Supreme Court, it was sent back to be retried. Steeves then moved for a change of venue to Washington county which was allowed. This put him under the jurisdiction of Judge McBride hence his transfer to Sheriff Ford. Steeves does not know whether his trial will be at the July term or the November term of court. Only equity cases have here-to-fore been determined at the July term, but it may be possible to call a jury then to try this action.

Did you ever see such weather? Yes at least once before. The spring of 1866 was just such a time. That was the year that Rufus Malory ran for congress. The rain continued up to election day. TEACHER'S INSTITUTE.

Saturday the teacher's institute, which was set for this time four weeks ago, was held at the school house. The following teachers were present: Mrs. Elliot, Mrs. Pittenger, Miss Colemen, Miss Wilcox, Mr. West, Mr. Coleman and Mr. Hargue.

Mr. West was chosen chairman of the meeting.

Miss Coleman read a good paper on language work, bringing out the following points relating to it. 1, Develop interest; 2, language culture; 3, teaching to think; 4, taste of expression; 5, culture of the mental faculties. She spoke of encouraging pupils to refer to the dictionary and when correcting work, to indicate the error and let the puplis do their own correcting.

Mrs. Elliott's subject was grammar. Instead of reading a paper she talked on the subject. To say her talk was good is putting it mild, for we think it was excelent. To express a doubt of her efficiency on the subject of grammar, we think would be admitting one's own ignorance on the subject. Mr. Coleman read a well received paper on the subject of reading. U. S. McHargue, Secretary.

THE READERS OF THIS PAPER will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollar for any case that it fails to cure. Send for list of testimonials. Address,

HAVE YOU USED BUTTER PARCHMENT?

All gilt-edged butter put on the market by creameries is wrapped in paper.
The product of the private dairy would reach its market in much better condition if wrapped in Butter Parchment than it does when wrapped in cloth.
Parchment is not only better than cloth, but cheaper.
Cloth sells at 6 cents per yard, from which 27 sheets can be cut—27 Parchment wrappers cost 3¼ cents.

500 Sheets, 8x11, - 55 cts
500 Sheets, 8x13, - - 60 cts

The standard size for 2-pound rolls is 8x11 inches; 2-pound blocks are wrapped in the 8x13 size.
One reason why paper has not been generally used heretofore, farmers could not get it at the general store. It is now kept at the Independent office cut to any size wanted.
