William Allen is pretty badly knocked out on account of the injury to the prune crop. Last season he succeeded in getting his patent evaporator pretty well introduced and at the beginning of the season he had a splendid outlook for the sale of it, but now since the fruit crop is cut short but few evaporators will be built for this season's work.

Rev. Elwood Scott of Salem has been in town during the week attending yearly meeting. Rev. Scott has accepted a call from a church in Ohio to go and take the place of pastor and he will start out in a few days. Miss Lida Hanson has secured a position in the Woodburn public school for next year. The school board of that city has made a good selection in choosing Miss Hanson, as she is a thorough scholar and a successful teacher. The many warm friends of Miss Hanson in Newberg expect to hear favorable reports of her work next year.

Mrs. Fannie Liter who has been engaged in work among the Indians on Kake Island, Alaska, on behalf of the mission sustained by the women's foreign missionary society of Oregon Y. Douglas.

The gentleman who took the contract for repairing and putting in place B. C. Miles' floating dock has been having rrther a hard time of it. The dock has fifty thousand feet of lumber in it and being badly water soaked it is a weighty mass to lift out of the water for repairs. Twice it has snapped the chains and fallen back into the water but it is now nearing completion and if everything goes well, Newberg will in a few days have what has long been needed, a floating dock.

Harlon Ong left for his home at Scotts Mills Wednesday morning. For the present he will do some work as solicitor for the Oregon Fire Relief Association of McMinnville. He has a prospect of getting a position with the General Electric Company of Portland a little later on. This will be to his special liking as he is decidedly at home among the wires. Harlon is as loyal a friend to Pacific College as ever went out from it and he will always be found speaking a good word for the institution.

The "new woman," the "bran new woman" of whom we have been hearing, came into town from an outside point one day the first of the week and made a display of her garb and—herself. Her dress was similar to that of the circus rider in semi-tights, and the height to which she raised her foot when climbing into a road cart indicated that she was the "new woman" in fact. Her features and her head of hair were about all that reminded one of the modest bearing and womanly graces of the womanly woman, the real jewel of the land, and so far as heard from no husband who saw her has asked for a pattern of her pants for his wife.

Oregon Y. M. of Friends Church.

The fourth annual gathering of the Friends church in Oregon has been in session in Newberg during the week. Owing to the long continued financial depression and the injury to the fruit crop this season, many representative members of the church who have been accustomed to attending in the past are not present this year and consequently the meetings are smaller than they have formerly been.

Rev. John Henry Douglas of Scotts Mills, a time honored minister who has grown gray in the service of the church, Rev. Elwood Scott, pastor of the Salem church and Rev. Charles Stalker of Hamilton county, Indiana, are present and these with Rev. A. T. Ware are taking the lead in the devotional meetings.

Epistles have been read from Dublin, New York, Baltimore, Wilmington and Canada yearly meetings.

The question of changing the time of holding this annual meeting to give a little more time between the date of opening and that of the closing of California yearly meeting was discussed at some length on Wednesday but no final action taken. This matter will probably come up again.

Rev. James P. Price superintendent and C. J. Edwards treasurer of the Pastoral and Evangelistic work made complete reports showing the work of the committee during the year, all of which was full of interest to the church.

Others continue to arrive from outside points so that by Saturday and Sunday the number in attendance will probably reach something near that of former years.

Installation Service.

On Wednesday evening next, July 1st Rev. A. T. Ware will be installed as pastor of the Friends church in this city and it is earnestly desired that not only the members of our church but all other persons interested in giving him a hearty welcome be present. Invitation is extended members of other churches to be with us and you will be cordially received and your presence appreciated.

The installation service will be followed by a reception tendered our new pastor and wife and we would be pleased to have every lady and gentlemen in our community meet them and extend their greetings of welcome. The services will begin at the Church at 8 p. m.

The young people are especially requested to attend.

For the Committee,
F. A. MORRIS, Chm.

There are weddings and rumors of weddings. Since the Smith-Hinchman wedding of last week, the news of which, the public it seemed, was not exactly prepared for, dame rumor has whispered from ear to ear that another wedding would occur in a very short time that would be still more of a surprise to the public, so that from day to day the outlook has been pretty thoroughly canvassed, the likes and dislikes of every bachelor and maid, widow and widower, in town have been compared with a view of figuring out the "unexpected," the various ministers in town have been on the anxious seat lest the other one would get the fee, and even J. K. Wright our new justice of the peace has been going about with a six-by-nine smile of expectancy on his beaming countenance, and yet up to date the "unexpected" is still looked for. This thing of getting cupid to do his work at just the proper time is a pretty hard proposition for the public to figure on anyway. Later—Married, at the residence of Jonathan Votaw, on Thursday evening, June 25, 1896, Miss Zelna Dillon to Will C. Osburn, Mrs. Jane B. Votaw officiating. The bride and her sister arrived here from California on Thursday. Their home has been at North Branch, Kansas. The Graphic extends congratulations.

Leander Michael of Stella, Washington, was in town Wednesday. Mr. Michael lived in this county several years ago but he had not been in Newberg since the town commenced to build up and consequently he expressed great surprise at the changes made. For several years he has been identified with the lumbering interests on the lower Columbia about sixty miles below Portland.

R. L. Thompson has brought suit against David Everest for $1200 as services as detective in the old man Jones case. It is expected that this will stir up the old feud respecting the unearthing of the body of Jones some two years ago.

Weekly Crop Bulletin.

Weather—Warmer with a normal amount of sunshine and an absence of rain, have been the weather features for the week. The past week has been the second, so far this season, without rain. Friday, the 19th, was coolest day of the week, and the clouds increased. Many were of the opinion that rain would fall, but the conditions were those which pertain to the summer season and which seldom give rain. The mean temperture for the week was 64 degrees, six degrees warmer than the preceeding week. The night temperture averaged 49 to 53 degrees, the heat of the day from 73 to 78 degrees. The highest temperture during the week was 80 degrees, at Ashland, on the 16th, the lowest 44 degrees, at the same place, on the 20th. Sunshine prevailed during the entire week except on the 19th, and on that day it shone in the afternoon.

Crops—The weather has been most favorable to all growing vegetation. The soil has been thoroughly soaked, and with cool weather growth has been retarded; under the influence of the warmer and clear weather the soil has dried out and vegetation has made a wonderful growth during the past two weeks. Haying is now in progress and the weather is perfect for that work. The first cutting of alfalfa has been finished. Clover hay is yet being cut. Orchard grass is reported by some correspondents as being four feet high. The correspondents, with very rare exception, report the hay crop usually heavy. This is due to the late rains followed by warm sunshine. Haying will continue all the present week. The grain crop is in good condition. Under the influence of the present weather it has made excellent growth. Fall sown wheat is heading out. The grain sown in May is doing very well, but it must have showers for it to make hay. Oats are growing nicely. Rye and barley never had a better appearance. Corn has improved under the influence of the warmer nights. The correspondents are almost unanimous in their reports as to the fine condition of the grain crop.

RIVERS.

Warm weather has prevailed for the past 10 days, and this morning shows the Snake to be falling. This indicates that if under warm weather the river now falls there is little more snow to be melted. The upper Columbia continues to rise. The Willamette shows 23.6 feet at Portland this morning. The Willamette will not rise over 0.5 of a foot more, possibly not that much. The maximum height has now practically been reached. The Columbia from Umatilla westward will not fall materially for the next ten day.

A. C. Churchill arrived home from his trip to New York last Thursday. He says bicycles are few in number in Oregon when compared to the number of them seen in the far eastern states, where he found that almost every man and woman, young and old, rode a wheel. The west is progressing and we will get there by and by if we continue as we have started out.

Oregon State Camp-meeting.

The Oregon State Camp-meeting of the Methodist Episcopal Church will be held at Canby, Oregon, on their beautiful grounds, beginning July 14th and continuing until July 27th. The grounds will be suitably arranged and everything in good condition for an enjoyable and profitable meeting. By the order of the association the grounds will be enclosed with a barbed wire fence, and instead of spoiling the Sunday services by drumming for money to pay expenses, a small fee of ten cents for single admission will be taken at the gate. A season ticket for a single individual good during the campmeeting can be had for fifty cents, and a family ticket one dollar. This includes all campers upon the ground without any additional expenses to themselves and family. The boarding house will be fitted up with care and let to responsible persons, who will furnish desirable board at reasonable rates.

The date is later than usual, but after consultation with interested parties it was thought best, owing to the backwardness of the season, the Chautauqua Assembly in session so near to us and other considerations, to fix the date a few days later than usual. As far as possible we want to make this a real old fashioned Methodist Camp Meeting where sinners are converted and believers sanctified. Surely there are hundreds of needy souls among us who are longing for a deeper Christian experience and in thus coming together with one accord eternity alone will reveal the good accomplished. Let all Methodists take a deep interest in this Camp Meeting. Come, bring your children and your neighbors—especially the unconverted. G. W. GUE, Pres.

Consumption and bronchitis are not by any means the same, although it is hard to distinguish one from the other. Bronchitis is an inflammation of the lining of the wind tubes or air vessels of the lungs, causing soreness of the same, cough, sore throat, hoarseness, difficulty of breathing, spitting of matter and sometimes blood. Thousands die annually with this dread disease. Wilbur's Cough Cure will cure. Price 50 cents. For sale by all Druggists.
