vice and a school service.

The general nursing service has in-

cluded instructive and home nursing:

this can best be described by a con-

The nurse was recently called into

children of her own. She had always

heard that in preparing a baby's tood

the value of the milk was destroyed

by boiling; that milk thinned a little and warmed a thriving baby; that a

baby should be fed when it cried and that if it did not stop crying it should

She was however easily convinced

that cereal water in the milk was a

substitute for what might be boiled

out; that continued irregular feedings

would spoil a baby's appetite and over

night the sensitive stomach; and that

in carefully proportioned food a baby

was much more apt to get the amount

The point to be made is this: If the

ount had not proved responsible for

the baby's and mother's care, the

nurse would have had it to do until

some competent person could have

been found. This baby was given a

layette and the sick room supplies

were loaned from the association loan

Visits are still being made to this

During the three months 20 patients

were carried, 11 nursing visits made,

Lacking social agencies it is neces-

sary in this county for individuals or

societies to do their own investigat-

Because of the acute relation of ec-

onomics to health, it is essential in

considering public health, careful
