Mail On Regular Schedule

Burns is again in communication with the outside world after being deprived of mail for a week, caused by Contractor Kellogg abandoning the routes leading to the railroad. An inspector of the postal department came into Canyon last week and has made a temporary contract with L. Woldenberg, who formerly had the contract before Mr. Kellogg took it and now we are receiving our mails regularly from that direction and much earlier than under the old contract. Yet this is but a temporary arrangement, but it will continue until the department can arrange for another permanent contract.

The mail between here and Vale is still rather uncertain, although several trips have been made and the mail is coming in occasionally from that direction. Special Inspector Whitney came in yesterday by way of Vale, getting a team and bringing in some mail as he came. Mr. Whitney does not know just what will be done at present. He states he was ordered to come here and investigate the situation and make a report. Whether the department will wait for this report before making any definite arrangements Mr. Whitney does not know. He assures us, however, that we will receive mail regurlarly.

When asked respecting what action would be taken with the abandonment of the contract and whether the bondsmen would be compelled to finish the contract. Mr. Whitney said he knew nothing about it.

Mr. Woldenberg has gotten his equipment together and is now furnishing most satisfactory service which will be continued until permanent arrangements are made. So long as this service continues the people here will not complain.

Two Sleighing Parties

The High School students had sleighing parties last night that proved most enjoyable. Two big sleighs were secured and Prof. Jokisch and wife and Miss Irwin acted as chaperones for one, while Mr. Leedy, Miss Locher and Miss Witzell doing like service for the other. The young people made merry and all report a fine time. One party went out to the experiment station and took luncheon consisting of cookies and coffee with them.

These occasional diversons are a treat to the young people and help to make the school life agreeable to those who come in from their homes in the country to spend the school year.

The Burns-Bend Consolidated Auto Co. will issue no more round trip tickets after this date until further notice, and will honor such tickets that may be [illegible]

The Masquerade Ball

Plans and preparations for the big masquerade ball to be given by the Tonawama Band on Friday evening, January 24th, are well under way, and present indications point to a most enjoyable and amuseing evening in store for those who wish to attend—and certainly everyone ought to Those who do not care to dance or mask, will be accorded seats in the gallery, and it will be well worth while as the entire band will furnish music for the dance thruout the evening and thereby making it a grand concert and dance all in one. The opening piece on the program, one of the band's best selections, will be started promptly at 8:45, lasting about 10 minutes, and at 9 sharp, the dancing will commence. An admission will be charged everybody and no one ought to miss this—as everyone will get their money's worth and at the same time be assisting a most deserving and worthy organization.

The boys promise those attending the best time of the season, and with the very latest and best music, which they are rehearsing twice a week, we know they will make good. The band at present is bigger and better than ever, and if given proper support and encouragment this winter, will prove themselves a most efficient aggregation during the coming summer, which besides being a boosting and drawing card for Burns, will be both a pleasure and profit to every citizen in town, and a pleasant revelation to the stranger and visitor within our city. Boost for the band—and it will boost Burns as nothing else can.

Further particulars will be given next week and in the columns of The Times-Herald you will find all about the several prizes to be awarded etc. Watch for it.

On Saloon Petition But Not Jury List.

This week appears a list of 200 citizens who were drawn by the county court for jury duty during the year 1913. There are no women on the list. There is also published in this issue petitions for saloon licenses with the departure from past precedent of having the names of women on the petition. Nine women signed the petions for a saloon license for Dayville. Under the ruling of the court it is now necessary for the petitions to contain the names of the majority of the legal voters within the precinct, this including women.—Blue Mt. Eagle.

NOTICE.

On and after January 15, 1913, our rates on freight and express shipments, between Bend and Burns, will be 2½ cents per pound, express shipments being subject to a minimum charge of 50 cents per package. All fruit and parishable goods will be transported so risk of consignee, except where damage and consequent loss is due to our negligence or negligence on the part of our employees.—FURST BROTHERS, BEND, OREGON.

James Paul, the Happy Valley sheepman, was in for several days this week.

RANGE CATTLE SHIPPED HERE FROM MEXICO

Idaho Stockmen Find It Most Advantageous And Quite Profitable To Replenish Home Supply In This Way And Range Brethern Might Do Likewise To Their Gain

Cattlemen of Malheur county are replenishing their depleted stock on local ranges this winter, buying the animals rather indiscriminately wherever they can make the best deals for the right kind of cattle. There is lots of grass on the range this season, and more hay in the country than at any time in the past; so much hay, in fact, that it is a problem what to do with it all. More cattle to eat it, and fatten on it, appears to be the sanest and safest answer.

Several Malheur county stockmen are casting their eyes longingly in the direction of Texas and Mexico for renewal of their big cattle herds, but one thing which invariably "sticks in their craw" when Texas or Mexico is mentioned is the question of high freight rates. Railroad charges for the shipment of range cattle such a great distance is a sort of nightmare to the cattlemen of Eastern Oregon, but usually they only think so and have made little if any personal inquiry.

A number of stockmen of the Idaho benches, notably at Payette, Parma and Weiser, have recently shipped in large numbers of Mexican cattle, and say the charges are not prohibitive. It would seem, therefore, that if the Idaho cattlemen can afford to do this, their brethren here in Malheur county might go and do likewise—Enterprise.

FREE DELIVERY
By N. Brown & Sons

Send in your mail orders for Clothing, Furnishing goods, Dry goods, Dress goods Boots and Shoes or any thing in the above departments to Brown's Satisfactory Store. All orders for above goods will be delivered free to any Post office in Harney County.

Will Lose Both Feet.

William Carroll, one of the men who was imprisoned in the well out in Catlow Valley for six days and who had both legs broken, has been brought in for medical treatment. Dr. Harrison informs us that both feet will have to be amputated, as they were frozen and have become infected. It is very unfortunate. Mr. Carroll and his friend put up a plucky fight against odds and it was sincerely hoped they would survive the ordeal with no lasting effects, but it seems that Mr. Carroll will now be a cripple for life as a result of the unfortunate accident.

Mr. Carroll is at the Summit hotel and Dr. Harrison is preparing to operate tomorrow. The feet are in bad shape, requiring immediate attention as a means of saving tne life of the man.

Irrigationists Preparing To Go Some.

Three principles for irrigation procedure are before the Oregon Irrigation Congress, in its second annual convention at the Imperial Hotel, says the Telegram. One is Federal Government work, with unlimited capital and low interest charges behind it. Another is Federal or state aid work, in which the government credit is used, but more of the expidition and elasticity of private enterprises could be attained. The third is a district plan, bonding patented property to secure the funds, and applying the proceeds according to the immediate wishes of the district residents bearing the burden.

"We have come to assassinate the Carey act and bury it with appropriate celebration," Asa B. Thompson of Echo, chairman of the executive committee of the congress is quoted in the Journal.

"We shall endeavor to establish the district plan as a better method. It mokes a municipality of the people in a district. It permits them to join in the improvement as the people of a city vote to bond for streets, except that our streets are ditches. It eliminates greed, speculation and government red tape. It gets quick action and value for money invested by workers.

"We seek cooperation between state and government in project work. We will demand under a new arrangement the $9,000,000 of the reclamation fund which is Oregon's apportionment."

"The Dark Town Minstrels" a company now playing over in Grant county, will be seen at Tonawama next Sunday and Monday nights. Watch for bills the first of the coming week.

"Hick'ry Farm" Next Friday Night.

The well known and popular comedy, "Hick'ry Farm," will be produced next Friday evening by the Tonawama Stock Co. at the usual price of admission. The box office will be open all the afternoon of the day of the performance when reservations may be made. This production is not new and was played here several years ago, some of the same cast taking part. It was well received at that time and no doubt will be as thoroughly enjoyed next Friday night, for but few remember the bill other than that it was a mighty funny one and as it is good for the digestion all want to laugh some more.

Some good specialties have been arranged for the evening to be put on between acts. Definite announcement of these will be made later and will appear on the programs. Some of the best talent obtainable will be used for these specialties.

The company has not yet decided what its next bill will be but there will be another performance by the same aggregation during Feburary. Tonawama is going to keep things moving during the entire winter season in some form of amusement. It was not put up and equipped to stand idle and the management is prepared to make it a place of amusement that will furnish diversion for its patrons all the time in one form or another.

Government Purchase of Stallions for Breeding.

Under the provisions of the current appropriation act for the department of Agriculture authorizing the inauguration of experiments in the breeding of horses for military purposes and providing $50,000 for that purpose, the Secretary of Agriculture, with the concurrence of the Secretary of war, has appointed the following gentlemen as advisory agents in the selection of stallions and to assist in the operation of the Government's plan: Mr. Henry Fairfax, of Virginia, for Thoroughbreds; Mr. C. L. Railey, of Kentucky, for American Saddlehorses; Mr. Walter Palmer, of Illinois, for Standardbreds; Mr. Maxwell Evarts, of Vermont, for Morgans.

Each gentleman acts with the officers of the Government in the selection of stallions of the breed he represents. The Secretary of War has designated Lieut. Col. D. S. Stanley of the Quartermaster Corps to represent the Army, and the Secretary of Agriculture has designated Mr. George M. Rommel, Chief of the Animal Husbandry Division of the Bureau of Animal Industry, to represent the Department of Agriculture.

Thirteen stallions have been purchased to date, as follows:

Thoroughbreds: Gold Heels, by The Bard; dam, Heel and Toe. Charcot, by Common; dam Spanish Match.

Saddle horses: Young Bill, by Golden King; dam by Bourbon Chief. Fair Acre King, by Bourbon King; dam, Aletha Chief. Richmond Choice, by Rex Peavine; dam by King Richard.

Standardbreds: MacNunne, by MacDougall; dam, The Nunne. Sigler, by Red Medium; dam, Maud Sigler. BeGue, by Wiggins; dam, Lady Crescent. Twilight M, by Delmont Jr.; dam, May Fry. Lord Rion, by Arion; dam, Madge Fullerton.

Morgans: Daniel Webster Lambert, by Joe Allen. Madison Lambert, by Lambert B. Prince M, by Ethan Allen 3d; dam Topsy M.

All of these horses are well bred and registered, and some are well known individuals. Gold Heels, for example, had a conspicuous career on the turf; Common, the sire of Charcot, was by Isonomy, winner of the Berby and other important stakes in England. All the Saddle horses thus far purchased have had winning records at the Kentucky fairs. Of the Standardbreds, MacMunne in that he, like Carmon at the Colorado stud of the Department of Agriculture, is a grandson of Robert McGregor. Sigler was first in two-year-old class for Standardbred trotters at the National Horse Show in 1911; and Lord Rion's sire, Arion, sold for $125,000. The Morgans thus far purchased are excellent representatives of the breed and should prove useful as sires of cavalry horses of good size and conformation. The sire of Prince M, Ethan Allen the 3d, has left a remarkable impress on the character of the Morgans of the east side of Vermont.

The Department of Agriculture expects to make other purchases during the winter.

Oregon Eastern is in Mile of Tunnel.

Monday of this week witnessed the completion of tracklaying on the Oregon Eastern as far as the third crossing of the Malheur river at Mile post 37.5.

About Monday next, it will be possible to cross the bridge at this point and lay another lap of 900 feet more to the fourth crossing of the river, where another watery gap in the right of way will check the tracklayers for a few days only.

Concrete work on the bridge piers is practically finished, says Chief Engineer Osborn, and will be only a matter of another week or ten days before the track will be laid clear to the east portals of the tunnel, at Mile 38.2. The tunnel is more than two thirds excavated, and when operations are resumed in April, it will be possible to continue the tracklaying many miles west from the 2600-foot tunnel.—Enterprise.

Call for Warrants.

Notice is hereby given that there are sufficient funds in the county treasury to redeem all Harney County Warrants registered January 10, 1912, prior to warrant No. 95 Class U. Interest will cease on all such warrants December 21, 1912.

SIMON LEWIS,
Treasurer Harney County.

Clay Clemens mill is the nearest one to Burns where all kinds of lumber both rough and dressed can be had. Near Canyon road. Call him by 'phone.

A. Dunn will have charge of my wood business in Burns this winter. Dry wood on hand to any part of town—F. O. Jackson. 52. tf

Chronic Constipation Cured.

"Five years ago I had the worst case of chronic constipation I never knew of and Chamberlain's Tablets cured me," writes S. F. Fish, Brooklyn, Mich. For sale by All Dealers.

Stockholders Meeting

Notice is hereby given that the annual meeting of the stockholders of the Harney County Fair Association will be held at the office of the secretary on Monday, Jan. 13, 1913 at 2 o'clock p. m. The regular business of the Association will be taken up, the election of new directors, reports of the officers and such other business as may come before the meeting.

JULIAN BYRD, Secretary.

His Stomach Troubles Over

Mr. Dyspeptic, would you not like to feel that your stomach troubles were over, that you could eat any kind of food you desired without injury? That may seem so unlikely to you that you do not even hope for an ending of your trouble, but permit us to assure you that it is not altogether impossible. If others can be cured permanently, and thousands have been, why not you? Sohn R. Barker, of Battle Creek, Mich., is one of them. He says, "I was troubled with heart-burn, indigestion, and liver complaint until I used Chamberlain's Tablets, then my trouble was over." Sold by All Dealers.

Always ready for job printing.
