We call attention to the discussion of the water laws appearing in another column of this issue. Matters of this character are not understood or investigated by the ordinary individual until they are brought directly to his attention, when he realizes that they are of vital importance to him personally. While the proposed bill changing the law would affect every section of the state it is especially significant to Harney county as the immediate development of our great and valuable water resources now depends upon an equitable and speedy determination of the existing water rights. The present Water Code is a good one and its operations are working out successfully, and it should not be muddled by the adoption of amendments without thorough and careful consideration.

The many friends and admirers of Senator Chamberlain and the Wilson administration feel that it would be a mistake on the part of the voters of Oregon to make any change at this time and for that reason are going to to support him for re-election. His important committee asignments, the strongest ever held by a Senator from Oregon, gives Mr. Chamberlain a prestige that could not be gained by a new man for some time. His faithfulness to duty at present at a time when it would be the natural thing for him to return home and look after his political campaign has gained him admirers.

Senator Chamberlain has been a consistent supporter of the best policies of the administration and has also been a factor in the popular government measures in the state. He has been in public life for many years and knows the ins and outs of affairs in Washington as no other man who aspires to the position. Senator Chamberlain is going to have the loyal support of not only members of his party in this territory but also those who believe in the Wilson policies and wish them carried out.

During the incumbency of the governor's office in this state Senator Chamberlain showed his sincerity of purpose in serving the people to his utmost and they feel he has followed the same course since he has become U. S. Senator, therefore will show their appreciation by voting to return him to the place.

Report on Experiment Farm.

The Times-Herald is in receipt of a report on the experimental and demonstration work of Eastern and Central Oregon Stations compiled by Prof. H. D. Scudder, of the Agronmy department of the O. A. C. It covers the work of the stations in this county Moro, Redmond, and Metolius and is one of the most interesting bulletins to those living in this territory ever issued by the college. It gives complete statistical figures and has many illustration that bring out the points desired in a most explicit manner.

The writer has not yet had the time to go into the publication particularly, but would recommend that local dry farmers apply to this college for copies, as the are sent free upon application to all as long as they last. They will be found of service to those engaged in farming and the demonstrations will prove of profit to men who engage in stock, especially hogs, etc.

Reception to Dr. and Mrs. Benson

The Presbyterian and Baptist Ladies Aids joined in extending a welcome to Rev. Dr. Benson and wife at the Presbyterian church last evening and it proved a very enjoyable affair. The choir rendered a couple of selections, Mr. Ludwig Johnson sang two solos as did also Mrs. Gault and Mr. Farre made a short address. Dr. Benson expressed the pleasuse of himself and Mrs. Benson for the kindly reception they had received and expressed himself as being pleased to be among the people of Burns and the hope of remaining for a long time.

The first of this month the two churches combined by selecting Dr. Benson as the joint pastor and so far the arrangement has proven very satisfactory and agreeable. It was a wise move and one that meets the approval of the two congregations. Dr. Benson said in the course of his remarks last night that several such consolidations had been effected in the state but none just as this one. Here services are held in each church every Sunday, in the morning at the Presbyterian and in the evening at the Baptist church.

The reception to the pastor and wife last night was genuine and the large number in attendance proved the appreciation of the people of the work of Dr. Benson and the two congregations mingled together with a spirit of Christian union that portends a future of good work along the line of church work in this city.

Dr. Benson has proven his abilty as a minister and has gained a warm spot in the hearts of the people by his fearless defense of Christianity and the church. He is one of the most forceful and logical speakers we have ever had in the pulpit of Burns and his work is going to count in the future. The people of the city are glad to extend him their moral and financial support and give him what assistance they can.

Protests Against Assessment Turned Down

Two applications for increase of assessed values were turned down by the board of equalization this week. One signed by J. F. Mahon, C. H. Voegtly and J. W. Biggs asking that cattle be raised from $20 to $35 per head, and sheep from $2.50 to $3. The petition was denied and we understand an appeal will be taken.

A protest was filed by C. B. McConnell objecting to the assessed value of lands of the Harney Valley Improvement Co., Wm. Hanley Co., Blitzen Valley Land Co., P. L. S. Co., Oregon & Western Colonization Co., Clerf Land & Live Stock Co. and the American Land & Live Stock Co.

The petitioner appeared in person filing lists and plats, and arguing that the assessment on these properties was too low, was inconsistent and unequal with that of other lands.

Attention was called to the plats which showed that lands in the Silver Creek valley, on which proof had recently been made, were assessed at $5.00 per acre, while on similar lands of some of the above holders were assessed at $1.25 to $2.50 per acre; and that section after section of the Blitzen Valley and Home Creek lands were assessed at $1.25 per acre. This petition was also denied and the board in making the order of denial says in part: "that to attempt a change in the assessment as prayed for would be practically an impossible task at this time, as it would require a re-classification and survey of almost the entire area of the county, and a readjustment of the valuations upon a large percentage of all the entries on the tax roll; and believing that no good interest of the county could be subserved by such an attempt, it is hereby ordered that the assessment of lands as returned by the assessor be allowed to stand." The order further makes the recommendation that the lands be re-classified next year and that sufficient help be furnished the assessor for this purpose.

Hanley Club Formed.

Friends of the candidacy of Wm. Hanley held a meeting last night and formed a non-partisan Hanley Club, having for its purpose the furthering of his cause. It is reported that quite an enthusiastic following were present and resolutions were passed pledging their support. It is further stated that these clubs will be formed over the county and active work begun in his interest.

Dr. Hibbard was made president and C. A. Byrd secretary. Speeches were made by C. H. Leonard, Judge Miller, E. B. Hill, J. B. Balcomb, John Smart, Mr. Soloman and others.

Grain for Range Cattle.

Several cattle feeders of the irrigated districts of the Prineville country tried the experiment of feeding grain to their fattening cattle last winter, according to R. E. Reynolds, who has just returned from an extended observation trip through that part of Oregon, where farmers institutes were held by the agricultural advisor and members of the O. A. C. staff. "Very satisfactory results were secured," says Mr. Reynolds, "and further experiments will be carried on this coming winter. Owing to a scarcity of range, cattlemen are considering the advisability of feeding the one-year olds instead of the two-year olds, as was done in the past. Cattle raising is the principal livestock industry, and although hogs would undoubtedly do well there farmers are reluctant to undertake hog-raising because of the distance from market."

GIVE HIM A CHANCE

Accidentally Shot.

J. W. Davis and his son Glen, of St. Johns, came up last week to make proof on their desert entries. They were to make proof yesterday but Mr. Davis Sr. found it necessary to make an additional trip to the land to have his witnesses view some of the work and went to the livery stable for a team. Just as he entered the shed of the barn Dell Dunbar accidentally shot him with a 22-calibre rifle, the ball entering his arm and apparently ranged down. Mr. Dunbar had the rifle through a hole in the wall to shoot a chicken and, therefore did not see Mr. Davis approaching. The wounded man was taken to the hospital where he is doing very well and it is thought there will be no complications as the small bullet did little damage.
