Road Master Faulkner already has men at work on the road and it is found many places are in the right condition to work to the best advantage, therefore they are pushing matters. It is hoped to get some of the work started last year completed this season and thus give Harney county some highways that may be considered permanent.

The weather for the most part of this week has been most balmy and spring like. It has caused Dr. Horton to spade up his hot bed where he plants his early lettuce and radishes and with no change to discourage him The Times-Herald man confidently expects to be one of the first to taste "green things" this spring, for he has given Doc advice on gardening right along and entitled to the first "mess."

Died—Thursday, March 11, at the farm home of Mr. and Mrs. H. J. Jokisch, Otto Hero, aged 64 years. Deceased was the father of Mrs. Jokisch and had been in poor health for several years, being cared for during the period by his daughter and family. The Times-Herald was unable to secure any information respecting the life of deceased. A casket was taken out this morning and interment will be made at Saddle Butte cemetery.

A. S. Swain was up from the ranch during the week, bringing Henry Lyons, who had come that far from Riverside to visit the family. Henry had been telling his relatives in letters that he was coming to see them when we got a railroad, and as the road had reached Riverside, a point that is an old "stamping ground" of his, he decided that was pretty close. On the train up from Ontario he had as fellow passengers such old time friends as Geo. and Press Smyth, Ham Brown and Chas. Haines, who had been out attending a conclave of the Shriners, and they were a happy bunch. Upon reaching Riverside, however, it was found the mud had stopped the autos that were making the regular runs; Mr. Smyth's car was there but someone had borrowed the chains and it was useless to attempt the trip without them, so Henry decided rather than lay over, his time being limited anyway, struck out and walked into Lawen. His relatives are having some fun at his expense over the matter.

The grip has been prevalent during the past two weeks and but few have escaped its ravages. It has taken quite a firm "grip" on many of our people, causing absence from the schools and also keeping many business and professional men from their duties.

For its wonderful accuracy, its safety and convenience, and its effectiveness for small game and target shooting, you should buy

The Marlin

.22 CALIBRE

Repeating Rifle

Model 20, as illustrated, 24-inch octagon barrel, 15 or 25 shots, $11.50.

Model 29, 23-inch round barrel, 15 shots, $9.25.

The Marlin .22 pump-action repeater has simple, quick mechanism and strong, safety construction. Has sensible, visible hammer. It takes down easily. You can look through the barrel—it cleans from both ends.

Its Solid Steel Top protects your face and eyes against injury from defective cartridges, from shells, powder and gases. The Side Ejection throws shells away to the side—never up across your line of sight.

Handles all .22 short, .22 long and .22 long-rifle cartridges, including the hollow-point hunting cartridges. Accurate to 200 yards. A perfect gun for rabbits, squirrels, hawks, crows, etc.

Marlin .22 repeaters also made with lever action; ask your dealer.
