FOR JOINT SENATOR

I seek the republican nomination for joint senator for the twenty-second Senatorial District at the coming primaries.

If nominated and elected I promise to the District an honest service and will take my oath of office unpledged to any person or interest.

I am a liberal and not a reactionary or radical; and especially so as to public expenditures. Economy should mean thriftiness. Public expenditures demand a reasonable promise of material and social benefit. Irrigation and drainage under special assessments; good roads; protection of grazing lands and of the public range for the good of the livestock interest as a whole; betterment of mail service; improvement of facilities of branch line railroads; are among the important local needs. Roads and postal service in country districts are the only visible returns from taxation, and the burden of taxation should be fairly equalized through these means.

On the foregoing statement I ask the support of the republican voters.
CHARLES W. ELLIS, Burns, Ore.

HOME PAPER AD SELLS IT.

"Ever try selling that pig or cow or old plow or thousand baby chicks by an ad in the local paper?" asks George W. Kable, Benton county agent, of his Farm Bureau News readers. "It's a cheap and easy way to get your wants before the public. It's a good thing to watch the ad columns of the home paper, too, for some good bargains are often found there. Every farmer should subscribe for the county paper. Many news items, notices and local events you ought to know you will never know unless you read the home paper we say this because we believe it and because the papers have always been 'Johnny-on-the-spot' in aiding the farm bureau."

OFFER ASSISTANCE TO FARMERS

Oregon Agricultural College, Corvallis, March. 10,—Assistance in improvement of livestock, construction of farm buildings, and housing of feed for stock, is offered by the extension dairy service at the college to Harney county farmers.

Use of high grade purebred stock and weeding out of inferior cows, by cowtesting associations and herd record keeping, is encouraged by dairy men in the extension service. Last year 4,500 cows were tested through the seven cow testing associations of the state, and 97 inferior cows were discovered and sent to the butcher.

Silo meetings and campaigns resulted in the construction of nearly 1000 silos in Oregon last year. In one county alone it is estimated that 30 silos saved 1000 tons of hay. Plans for different farm buildings are furnished to farmers by the service and advice concerning proper housing is given through correspondence and meetings.

The dairy department of the college gives assistance or information regarding matters relating to dairy production and dairy manufacturing. Selection of purebred cattle, proper feed, and balancing of rations are matters on which the department is prepared to give assistance.
