With The Model Makers

YOU would never recognize this as a back-stage New York World's Fair scene, would you? But these girls are all young artists in a model-maker's shop where the animated little wooden figures on the towering turntable in the Ford Exposition are being turned out in fresh Spring finery for the 1940 opening on May 11.

It took an army of artists and craftsmen, working at highly specialized jobs, to make the highly stylized figurines for the colorful cone—one of the artistic and mechanical wonders of the Fair. The turntable revolves in a moat of water and shows how the magic of chemistry and metallurgy transforms products from the earth into the cars in which America rides.

At left is Reba Joffe, who has a Master's degree in fine arts from Columbia University, fashioning a chamois jacket for a tiny lead refinery worker. Beside her is Marie Schuck, painter and sculptor, giving an asbestos worker a jaunty new suit. Proceeding around the group are: Elizabeth Vasilio, designer of the original clothes for the 1939 turntable models, fitting a sweater on the chap who fires spark plugs; Esther Swinburne, Boston University Art School graduate, sewing a fine seam for "Arthur" the glue mixer; and Anne Kardon, former costume designer at the Metropolitan Museum of Art, re-outfitting "Tess, the Powder-Puff Girl," who glazes spark plug insulators on the turntable.

A Noted Artist—A Prize Kitten—A Record-Breaking Book!

"SMOKY," famous blue ribbon winner, "assists" his Missy, Helene Carter, well-known painter of animals and flower subjects. Smoky is busy designing his miniature garden for the Flower Show circuit; also for "Gardens on Parade" at the 1940 World's Fair, for thousands of people to admire. He hopes to win more prizes. The clever kitten gets his hot tips, of course, from that indispensable Garden Encyclopedia, without which any amateur grower or flower show competitor is simply sunk. Ineed, more than 310,000 copies already have been sold—a world's record for a horticultural book!

Young Smoky is reading up on all the damaging winged insects and beetles he will soon be chasing through his garden, including Olympic team grasshopper high-jump champions. Smoky objects strenuously to wearing a little tinkle-bell to warn birds of his approach.

"I hate that bell! Cramps my style," he says. "Makes me feel like a toy fire engine. I'm going to look up in the Garden Encyclopedia and see what it says about bells interfering with a kitten's personal liberty! My Missy jimmied my tin bank with a can-opener and got out some of my pennies to buy this book for me. It has 1300 pages and 750 nice pictures—a real bargain! Tells all about teaching little seeds to grow and what to do with flowers after they bloom, but the fellows who write this stuff shouldn't interfere with cats having fun. Meow! Meow!"

Last chance to see
TWO WORLD'S FAIRS
and America, too
for only $90 *roundtrip*

● Perhaps never again will you have this opportunity to see two great world's fairs, plus your own America, from border to border and coast to coast, for as little as $90 roundtrip. This is the year to go!

Starting from anywhere in the Northwest, you can go down to San Francisco on our Shasta Route and see the new San Francisco World's Fair on Treasure Island (May 25 to Sept. 29). Then on to Los Angeles and across the Southwest to romantic New Orleans. Then up to New York for the great World's Fair there (May 11 to Oct. 27), and back home on a northern line.

All this, mind you, for only $90 roundtrip in chair cars and coaches or $135 roundtrip in standard Pullmans (plus $45 for a lower berth all the way or $34.50 for an upper).

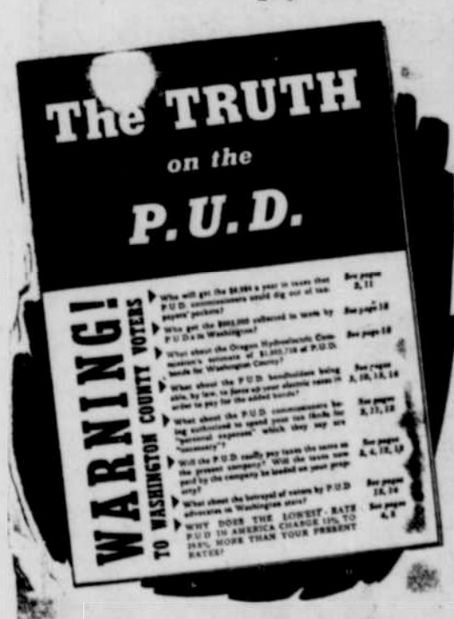
OUT THIS WEEK!
The TRUTH on P.U.D. Propaganda

Why does the lowest-rate P.U.D. in America charge 13% to 29.6% *more* than your present electric rates?

Who would get the $44,924 in taxes that a Washington County P.U.D. could dig out of citizens' pockets each year for five years, a total of $224,620.00

Who got the $903,000 that Washington State P.U.D.s collected from taxpayers?



Watch for Your Copy

A copy of this pamphlet is being delivered to your home. See the actual figures on P.U.D. rates. Read about the testimony of the commissioner-elect of the Tacoma public system. Read about the faithless P.U.D. promises in the Pacific County election. ***Know the Truth Before You Vote!***

Know the Answers to these and other vital questions

The P.U.D. propaganda campaign is misleading many voters. For the TRUTH behind the smoke-screen of P.U.D. claims, read the informative pamphlet pictured on the left. Copies of this pamphlet are now being delivered to Washington County homes. Watch for *your* copy. Study the pamphlet. It is vitally important to every citizen. Read in it the answers to the questions above, and the questions following—

What about the P.U.D. bondholders being able, by law, to *force up your electric rates* in order to pay for the hundreds of thousands of dollars of added bonds?

What about the Oregon Hydroelectric Commission's estimate of $1,605,710 of P.U.D. bonds for Washington County?

Would a P.U.D. *really* pay taxes the same as the present company? Will the $26,475 now paid by the company in *one* year within the boundaries of the proposed P.U.D. be bonded on *your* property and the property of other taxpayers?
