Miss Belle Wilson returned Friday from a visit to her old home in Michigan.

Harry May, who has been very low with typhoid for some time, is somewhat improved at this writing.

G. W. Rinehart left Sunday for Medical Lake, near Spokane, where he goes for the benefit of his health.

During the past week this office has turned out a large amount of fine stationery. Among the customers supplied was the county judge's office, Dunn Bros. and Wm. Keys & Son.

A. F. Simmons, of Alville, was in town Saturday and called to have his name placed on the GLOBE'S rapidly growing subscription list. Mr. Simmons says the wheat in his neighborhood is of excellent quality this season.

Andrew Greiner and Chas. Lillie, who shipped a car load of fat hogs to Troutdale last week, returned Sunday. They had a good trip and received a good price for their stock. They went on to Salem and took in the State Fair and report a splendid exhibition.

The Condon Millinery Co. has just opened a fine line of Fall and Winter Millinery in their store on Spring street. Their stock, which has been carefully selected, is fresh and up-to-date and their trimmer is one of the best to be found. All the ladies should call and see them.

The Blue Mountain Eagle says that the government officials have posted notices on the Elkhorn mountains, near Sumpter, forbidding sheepmen from pasturing their flocks on the new reserve or on lands adjacent thereto and that the sheepmen are preparing to leave that section a month earlier than usual.

School opened Monday morning and since that time the streets have been enlivened and brightened about four times a day with a merry troop of bright faced young Americans who are eager seekers after knowledge. May their aim be high and their work while striving to attain their desire, be most thorough.

Don't overlook Dunn Bros. Removal Sale ad in this issue and don't overlook the sale itself. Remember that from this date until they are settled in their new store they give 10 per cent discount on all goods except groceries and tailor-made clothing. That amount of money saved is better than the same amount earned.

Elders Luff and Hilliard held a series of interesting meetings in the L. D. S. church here last week closing Sunday evening. Both gentlemen are earnest, forceful speakers and made an excellent impression on their audiences. They left for Arlington Sunday evening, after church, being pressed for time to reach their next appointment.

The GLOBE office has recently been supplied with a fine lot of new and up-to-date type faces, rule and other material for use in the job department and is better prepared than ever before to supply our customers with handsome, artistic printing. Call and see us or mail us your order. We know we can suit you and we guarantee satisfaction.

In our mention of the Condon Milling Co's. new plant last week we inadvertently omitted to give credit to Mr. C. L. Rowe, the mill wright and head miller of the establishment. Mr. Rowe had charge of setting up all the milling machinery and placing the intricate system of spouting and the fact that not a single change was necessary, when the mill was started, is a splendid endorsement of his efficiency in that line of work. Mr Rowe has followed the milling business all his life and a more thorough, competent, conscientious miller would be hard to find.

A Shocking Calamity

"Lately befell a railroad laborer," writes Dr. A. Kellett, of Williford, Ark. "His foot was badly crushed, but Bucklen's Arnica Salve quickly cured him. It's simply wonderful for Burns, Boils, Piles and all skin eruptions. It's the world's champion healer. Cure guaranteed. 25c. For sale by Condon Pharmacy.

Wheat Ablaze.

What might have been a disastrous fire, had it not been discovered in good time, occurred on Henry Miller's ranch, on Matney flat Tuesday afternoon. The fire was discovered in the straw stack at a setting that had been threshed the previous day and it required hard work to save about 700 bushels of wheat that was piled in the field close by. As it was the straw stack and about 15 sacks of wheat were burned. The origin of the fire is a mystery. It hardly seems probable that a stray spark from the thresher engine could have lain dormant and then started a blaze so long after the machine had left the premises. Mr. Miller was fortunate in saving most of his wheat.

Obituary.

William E. Foster, a well known and highly respected young man, of this neighborhood, died at the Good Samaritan hospital, in Portland, Monday, September 15, of consumption, aged about 31 years. Mr. Foster left Condon several months ago, being then in poor health hoping that a change of climate would prove beneficial, but he continued to fail until the end came as above stated. His sister, Miss Mary Foster, his brother, Arthur Foster, and his aunt, Mrs. Mary Young, all of this place, were with him for some time before the end and all that could be was done to minister to his comfort and to prolong his life.

Deceased was a quiet, unassuming young man of good habits and had many friends. He was a member of Condon Camp Woodmen of the World.

Married.

Mr. Wm. T. Nelson and Miss Cassie L. Shriber were united in marriage at the residence of M. Van Blaricom, on the Geo. Hanson ranch, last Friday, Justice John F. Pinkham performing the ceremony. Both parties are residents of Ferry Canyon precinct. We extend the usual congratulations and best wishes.

The Forest Reserve.

Hon. Binger Hermann, commissioner of the General Land Office, recently expressed himself to an Oregonian reporter in reference to the proposed forest reserve as follows:

"Regarding the proposed forest reserve in the Blue Mountain region I can only say that the matter is entirly unsettled and is now pending before the department of the interior. The tract has merely been withdrawn from settlement and whether a reserve will be created, and, if so, upon what lines, remains to be determined. Concerning the effect the creation of the reserve would have upon the grazing war in Eastern Oregon I can say nothing except in a general way, that the department is friendly to the grazing interests and the regulations have met the approval of the sheep and cattle men. This would seem to be a demonstration of the benificent influence of the forestry regulations. The department is liberal in granting grazing priviledges except where it is found that grazing injures the tree growth or interferes with the waterflow.

A Communication.

MR. EDITOR—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines but could get nothing to give me any relief until my wife got a bottle of this valuable medicine which has completely relieved me.—W. S. BROCKMAN, Bagnell, Mo. This remedy is for sale by Condon Pharmacy.
