An isolated farm near Macleay, Ore., was the scene of a terrible tragedy and cold-blooded murder on last Monday. Four persons were killed and the bodies destroyed by the burning of the house. Pools of blood and blood-stained clothing and charred bones are all that remain to tell the story. No clue has been found.

HAND CAR RUN DOWN BY TRAIN

Twelve-Year-Old Boy of Arlington Hurt in Collision---Left Leg Crushed.

The 12-year-old son of A. Thompson, foreman of the Quinton section, was run over by eastbound freight train No. 26, Saturday evening, the bones in his right leg being broken and his left so crushed it will have to be amputated.

Mr. Thompson, together with his family and five Greek laborers had taken a hand car and gone to Blalock for provisions. On one of the curves three miles east of Quinton they met the freight as they were coming home. The train had no headlight. Before they could stop the car or give the signal, they were knocked off the track, the boy falling across one of the rails.

The train picked up the unfortunate people and brought them to Arlington, where they might receive treatment. The boy was immediately sent to the hospital in The Dalles.—Oregonian

The Lack of "Get Up."

At the request of a few self-opinioned basketball enthusiasts, the Globe set forth, a few weeks ago, the advantages of the game basketball as a pastime or recreation during the winter months. Since that time practically all the surrounding towns have organized teams and are already playing the game, while here nothing has been done. Perhaps these so-called enthusiasts are waiting patiently until the first of the year when they may be able to make new resolutions and thus be handed a bunch of "get up".

Our friends over at Fossil are again showing up the spirit abounding in their little city. Read the following and find out how things are done:— "The High School and the Business Men of Fossil have organized basketball teams to compete with each other during the winter months, and have rented Steiwer hall in which to practice and play their games. Dr. Gove is manager of the Business Men's team and Prof. Potter is manager of the High School team. The young ladies are also organizing teams and have begun practice.—Fossil Journal.

The Pendleton High School football team is now down on the records as the Interscholastic Champion of Oregon. During this season the Pendleton lads won five games and received no defeats. The last team to go down before them in defeat was the Hill Military team of Portland on Thankgsgiving with a score of 13 to 0. Hurrah for Eastern Oregon!

Mrs. J. E. Stevens was taken to The Dalles Sanitarium Tuesday morning by Dr. Gavey and was operated on by Drs. Giesendorffer and Gavey on Wednesday. At last reports the patient was improving and doing nicely.

Carl Rogers, the little son of Mr. Rogers of Alville, is recovering from an operation for the removal of the tonsils successfully performed by Dr. Gavey.

H. H. Hendricks of Fossil was in Condon last evening on his way home from a business trip to Pendleton.

The Fair which the Ladies Aid of the Catholic Church has been planning to hold this month has been postponed indefinitely on account of the recent financial disturbance.

A special meeeting of the Arlington Commercial Club was called Saturday morning for the purpose of sending a delegate to Portland to attend the meeting of delegates from all commercial organizations throughout the state. After thoroughly discussing the existing situation, E. J. Clough was elected as the Arlington representative.

A letter from S. A. D. Hurt of Huntsville, Washington, was received this week by this office. Mr. Hurt renewed his subscription for another year and said: "I have taken the GLOBE since it first started and it wouldn't do to go back on it now, in fact we cannot get along without it."

Everybody Knows the name Studebaker
Manufacturer of Wagons and South Bend Watches. We don't sell the Wagons but we do sell the Watches to those who insist upon having them. We like to sell them for one reason, and yet we don't like to for another reason. The reason we like to sell them is because the margin of profit is much greater than on our higher grade watches, yet we would rather sell you a standard timepiece which we know would give entire satisfaction and make you our permanent customer. We sell more watches than any other dealer in the county for two reasons, the first is because we handle all the high grade movements, and never try to talk a customer into buying an inferior article, knowing that by so doing we not only lose his trade, but also his good will, and sacrifice our established reputation for square dealing and reliability. The second reason is expressed in a very few words, being nothing more or less than that our prices are about 25 per cent. lower than those of our competitors, regardless of their misleading assertions, and we are here to prove it to you. Our goods are marked in plain figures, and we have but one price to all. ROBINSON, Graduate Optician. Watch Inspector O. R. & N.
