We extend a cordial invitation to the public to attend all our services. We are here in the interest of of our Lord's kingdom; so let us get the habit of attending the services of God's house. The church cannot exist, and certainly cannot extend their influence, without our attendance, our cooperation, our support. The Gospel cannot be preached without hearers; the work of the Kingdom cannot be carried on without workers; the minister cannot live without a salary; so let us all do our very best.

THE KILOWATT KIDDIES are INVISIBLE ICE MEN

THE Kilowatt Kiddies are on duty at your Electric refrigerator whether you are there to watch them or not. They have never been known to leave footprints on the spotless linoleum of any kitchen. Yet their service does not end with providing mere ice. Charlie and Clara Kilowatt see to it that their ice is cubed just the right size to tinkle tanalizingly in glasses of the beverages it chills.

The Kilowatt Kiddies in your Electric Refrigerator make the most delicious frozen salads and deserts—even ice cream. All you do is mix the ingredients—they do the rest. In few roles do the Kilowatt Kiddies perform more satisfying than as the invisible icemen accompanying every Electric Refrigerator.
