OFFICIAL PAPER of SHERMAN CO.

MORO, OREGON.

D. C. IRELAND ..... EDITOR

THURSDAY ..... JULY 23, 1896

Taking dispatches from wire to type is now a success in the Brooklyn Eagle office. Frank J. Kihm is the telegraph operator who receives the news by ear and runs a type setting machine with his fingers at the same time.

The work of improving the Columbia river, from Astoria up, must be taken out of the hands of the government and turned over to a commercial district of Oregon with power to guarantee interest on $2,000,000. In no other way will the work ever be done.

Hon. R. S. Bean, heretofore the chief of Oregon's supreme bench and lately re-elected under the rules now becomes junior associate justice of the court. Judge Wolverton assumes the place of senior associate justice and Judge Moore becomes chief justice.

"Messages and Papers of the Presidents," compiled by Representative Jas. D. Richardson of Tennessee, and authorized by congress, promises to be one of the best documents emating from the government printing office. We acknowledge receipt of the first volume through courtesy of Hon. W. R. Ellis.

Fashions in eggs are often misinterpreted. Boston, for instance, wants Plymouth Rocks, heavy, rich and better than Leghorns, but the reason is not from any remembrance of Puritan days, but because Bostonians are close buyers, you know, and don't want anybody to tell 'em how to get the worth of their money.

H. W. Holden, who has been sojourning in Texas and southern California for the past year, has returned to Douglas county. He does not bring a very favorable report of the prosperity of the localities he has visited, and thinks that Oregon will compare very favorably with them notwithstanding times are not so brisk here as they might be.

The Nebraska delegation took no interest in the nomination for the vice-presidency. Their votes were not cast in either of the five ballots taken, and from the returns they seem to have joined the bolters from New York, New Jersey, Massachusetts, Maryland, Pennsylvania and Minnesota. The chances are they were out looking after cabinet appointments.

It would be interesting to know the exact state of mind of that little handful of misguided republicans who walked out of the St. Louis convention, and who have worked so assiduously ever since to secure favor from other parties on account of that proceeding. It must be very humiliating to have their wisdom and experience overlooked and the inexperience and unwisdom of the "cowboy orator" preferred in their stead.

The Malheur Gazette sensibly remarks that is now probable that McKinley will have the combined strength of the disgruntled, the hypoed, the locoed, the anarchist and entire dangerous foreign element arrayed against him. That is why he will get the sensible American vote and that of the desirable naturalized citizen—in fact, the vote of all opposed to ribald ring rule and anarchistic lunacies being in the ascendency at the capital of the nation, where cool headed men of known honor and integrity are needed.

The Chicago and N.P.Ry Co have adopted a new scheme for disposing of superanuated locomotives at a profit above the value of old iron. They erect an ampitheater over the track to hold 25,000 spectators at so much a head, fire up the old hosses and set em at each other. Suckers looking on at this modern gladiatorial combat help to swell the receipts by putting up their bottom dollar on the result in favor of the concessionaires; we believe that is what gamblers and thugs were called at the Columbian humbug in Chicago.

The Washington press association in convention at North Yakima discussed type lice, pi, lean and fat cakes, long and short stuff, with occasional mention of subjects pertaining to the Inland Empire, good roads and needed newspaper legislation; that the rates on all notices for publication now provided, or hereafter ordered by statute, be $1 per folio for the first insertion and 50 cents for each subsequent insertion. The legislative committee was requested to draft a measure embodying these ideas for presentation to the next legislature. No newspaper shall be entitled to legal advertising as an official paper until after it has been in existence one year.

Maj. Thomas Charman of Oregon City reported, to the writer, in 1867 [illegible] seen a snake with a head on [illegible] the road above Milton [illegible] from Portland. [illegible] major for having [illegible] ed the each end of it [illegible] sin- wankie, on a drive [illegible] d. How people did guy the [illegible] that report! We never doub[illegible] statement because of the evident[illegible] cerity with which it was relate[illegible] Now Yamhill county comes to the front and with plenty of evidence confirms the fact. It is classified with the reptiles in Thurber den as the stupid snake. It has a head on each end, and runs either way. One head is about one-fourth as large as the other. It is of a yellowish color. It generally lies in a loop, and is frequently observed running in an apparently stupefied condition on a rock or log.

Glacier. Last summer one of our grand children was sick with a severe bowel trouble.

Oregonian. When you hear a man howling about the scarcity of money better inquire how many bicycles he has had to buy for his family.

* * *

Hood River Glacier. It will be gall and wormwood for democrats to vote for McKinley, but many of them will vote that way, all the same. This is an off year in politics.

* * *

Long Creek Eagle. County clerk Powell Tuesday issued a marriage license to Tom Swift and Fannie Scott. Swift must be quite a ladies' man, to catch on so soon after getting out of the pen.

* * *

Heppner Gazette. The fence around McKinley's home has been almost entirely torn down by the large crowds and souvenir hunters. Otherwise the McKinley fences are in excellent condition.

* * *

The Dalles Chronicle. The clarionet solo of Mark Long on Sunday was much appreciated by the large audience present. Mr. Long is a skillful musician, as was evidenced by the difficult solo he faultlessly rendered.

* * *

The Dalles Chronicle. Yesterday a gentleman was heard to say that he believed the cascade locks would be ready for operation next fall. This is what psychologists would class as an extreme example of a sanguine temperament.

Glacier. A man who chewed twenty cents worth of tobacco in a week concluded to try the tobacco cure. In two weeks he ate up $1.50 worth of the cure and for the next two weeks he used ten cents worth of candy, five cents worth of chewing gum, five cents worth of peanuts and five cents worth of cough drops per day.

Condon Globe. The loss of thirty thousand lives in Japan by an earthquake adds another horrible happening to the already long list of the world's casualties. No part of this mundane sphere is free from mortality and destruction of property by unforseen causes and there is an uncertainty of life that should make all quit their meanness and prepare for the worst.

Colonist, Victoria, B. C., July 14. The celebrated Dean Moss family last evening gave a secular entertainment at Calvary church, are rightly entitled to the name by which they have become known throughout two continents, the lyric bards of America. [illegible] singing is of the most finished [illegible] and sympathetic order, while their [illegible] mentation is on a par with their admirable vocal work. Last evening's programme was a revelation to those who had the keen pleasure of listening to its presentation.

Business Locals.

The Eastern Oregon Land Company has one more Section of land in Sherman county for rent, Sec 33 Tp 2 S R 17 E. This is a fine body of agricultural land and can be leased for a long time on easy terms—for full particulars apply to T. A. Hudson, The Dalles, Or.

Heydt & Co., the Moro Saddle and Harness dealers, have a splendid stock of harness and saddles on hand now from which to make selections, and they invite the attention of purchasers. The quality of these goods is equal to any in the market and the prices are as low as the lowest. Chain harness, carriage harness, saddles, etc. Call and sample these goods and prices before purchasing elsewhere.

Persons who are buying second-class fruit trees from abroad can get the same kinds of trees of Tillett for less money the Glacier says. He has 2,000 second class trees, two to three feet high, well rooted—Yakima, Spitzenburg, Ben Davis, Gano, King, Red Russian, Delaware Red and Jonathan—which he will sell for $25 per thousand. Or, if you wish first class trees at regular rates, he can accommodate you.

THE ONLY True Blood Purifier prominently in the public eye today is Hood's Sarsaparilla. Therefore get Hood's and **ONLY HOOD'S.**

The European House, kept by Mrs. H. Frazer at The Dalles, is where you want to stop. Meals 25 cents, and a free stable for your horses.
