The heat was so oppressive in Sherman county last week that one of Marion Powell's header crew succumbed. A son of J.F.Belshee was also a close victim to sun stroke. Stage horses suffered.

There is a proverb that says something to the effect that when the days begin to shorten then the heat begins to hotten. Those words don't sound just right, but that's the state of the weather these days.

Wonderful are the cures by Hood's Sarsaparilla and yet it is only because as the one true blood purifier, it makes pure, rich, healthy, life-giving blood.

We are glad to hear that Uncle Billy Ward had a safe and pleasant journey to Nevada and return. We left him at the great union depot July 13th, headed for Sacramento with a $10 rake off from the SPRCo.

Wannamaker Brown and team parted company one day last week while unloading sheet iron at R.J. Ginn's. The team introduced the stage to Kaseberg's blacksmith shop which so upset the rig that it broke its tongue.

Twenty carloads of iron for the Columbia Southern has been received at Biggs. This is about a third of the amount needed to lay the track to Wasco. Connection with the ORN has been made and track laying is under way.

The O C.Co. with headquarters at Huntington, managed by Hon J.H. Aitkin, is precisely such an organization as the Moro Mercantile Company. The O.C.Co. just do an immense business annually, and has the confidence of the people.

In all his travels THE O. MAN finds no place superior to good old Sherman county. Our 3,500,000 bushels of plump No. 1 wheat this season turns all eyes to the much despised little tract of land bordered by the meanderings of the Des Chutes and John Day.

Miss Jennie Hulse, of Racine, Wis., now on a visit to relatives in Monkland, was a delegate to that massive Christian Endeavor assembly in San Francisco the like of which the world has never seen. Sunday evening last she gave a report of it to an attentive audience.

Picnics on the Columbia are an almost daily happening now by the DPANCo. steamers. The tourist finds them an oasis in the desert of dust stained travel from the Atlantic to the Pacific and the tendency is to cause cheerful recollections of the stop over priveilges in Portland.

People who are not invited to social gatherings very naturally conclude they are not wanted; and people who trade feel the same way toward the merchant who does not advertise. If he doesn't ask for trade he evidently doesn't want it and it's a poor dog that isn't worth whistling for.

Bros Shutt, of the Herald and Globe, are off for a family reunion in the east. There are 15 members of the Shutt family, the parents and 13 children; 7 boys and 6 girls all of whom are yet alive and reside within a few miles of the old homestead, except the two brothers mentioned above.

Cutting scrape, at Heydt & Co.'s saddlery in Moro. It was a serious cut in saddles that attracted quite a crowd. Heydt & Co. propose to keep up the cut just as long as anybody wants a saddle. Other goods, harnesses, whips, etc., are going off like hot cakes Call and price these goods before you buy.

Mrs. Briggs, the leading milliner of this region at The Dalles, carries an elegant stock. A fine display of suit and dress hats in new and exclusive styles, millinery trimmings and novelties latest styles of trimmed hats from $2.00, upwards. Call when in The Dalles at Mrs. Briggs millinery store, Second street.

Hazlenuts in the Wallamet are ripening early this season. Prof. Hargreaves children brought home quite a quantity from Clackamas county. Oregon hazelnuts are not like the kind grown in the eastern states but are akin to the English filbert. The hazel bushes here grow to be diminutive trees, attaining a height of twenty and thirty feet and oftentimes measure from four to six inches in diameter.

The Pacific Coast Steamship Co. has established service on the route between Portland and all points in Alaska. Steamers carrying freight and passengers stop at Metlakatla, Mary Island, Ketelican, Juneau, Fort Wrangle, Douglas Island, Dyea, Glacier Bay, Kallisnoo and Sitka. This establishes first-class service to the Clondyke and Yukon. For rates and information call on or address A.H.Gaylord, agent for O.R.N. Grant, Oregon.

Dr. W. H. Snook of Portland, has located in Grass Valley and has opened a drug store in the building formerly occupied by W.D.Marshall as a harness shop. The doctor comes well recommended and will be quite an acquisition to Grass Valley. A drug store has been needed by Grass Valley for some time

Waste papers, envelopes, etc., should not be thrown so recklessly around town as they are. Such a day as last Thursday raises the very mischief when the streets are all a litter with papers. Moro keeps quite a number of people away who would do their trading here if it were not so liberal with waste paper, etc.

Moro feels the effects of good times no matter what anybody may say. People who have lived economically and pinched a little during the hard times to get along are now on Easy street, and will be likely to keep there The output of the Klondyke mines for the year will be a small matter compared with the income from the grain, wool, fruit, fish, lumber and hops produced by Oregon.

A female poet in Minnesota writes a poem to a local paper in which she exclaims: "I am thy grass oh Lord! I grow up sweet and tall." This rouses the Tacoma News man to action, for he declares some one should "Bring a scythe or a lawn mower," and use it on the "tall, sweet grass." We are inclined to the belief that neither a scythe or a mower is the machine needed for just that kind of grass.

Nothing equals an outing trip to Portland at this time of the year by the steamers of the DP and ANCo The cool breezes on the Columbia are inviting, but there are numerous other conditions to be considered. Attentive officers, a luxurious dinner, a ride through the locks, the never ending and always alluring majestic scenery by this route contribute to make the trip one ever to be remembered. With a cuisine classique and a spotless reputation the DP and ANCo will sustain the reputation acquired by the old time OSNCo.

The Baker City Republican says that a local politician, during a heated argument with a party of chums, in which he was discussing the efforts of congress to enact legislation that would revive business along all lines of business, asked with eloquence and dramatic effect "what are the signs of the times?" This he repeated several times. A josher replied "fresh paint, keep off the grass, ice cool beer, to-let, and for sale." This reply turned the laugh on the orator and he closed his argument with an audible remark about people attending to their own business.

The M. E. Sunday school of Rutledge raised 19.85 last week to purchase Tunison's Sunday school maps. The following amounts were raised by by the following children who received prizes as follows: Joe Rutledge 1st prize, large map of the United States, $7 00, Lloyd Dunahoo 2d prize, map of Oregon and Washington, $3 05, Hazel Dunahoo 3d prize, large picture of Noahs Ark, $2 40, Lora Minton 4th prize, book entitled Life of Christ, $2 25, little Lennie Eakin 5th prize, Pilgrims progress, 25 cents. At the class collection $4 65 was taken.

Trouble is feared in the Clondyke region, judging from a telegram received at the treasury department asking that a revenue cutter be ordered to convoy a vessel of the Alaska Transportion company, the steamer Portland, which will leave St. Michael's about September 15, with gold from the Alaskan gold fields valued at $2,000,000, from St. Michael's down to the Yukon river and through Behring sea. It has been intimated that a band of Chinese pirates has been organized for the purpose of intercepting and looting one of the treasure crafts which are expected to leave the gold regions between August 5th and September 15th this year.

During his wanderings THE O. MAN last week found Johnnie Foster at the helm in The Herald office at Huntington Mr F is one of the best informed and most conscientious mining men in The Waiting Empire He was one of the children packed into Florence on a mule at 50 cents per 100 pounds. His brother, the Baker city Nasby of today, was the first white child born in Florence. His mother was so feeble that it was feared the babe would die and he could not be taken out of that mountain home without possible death from smothering or freezing. Providentially an ewe was found with a lamb at a camp near by which saved the baby's life and it grew up to become an influential and useful citizen.

PORTLAND UNIVERSITY.

Normal Department Placed Under Prof. W. A. Wetzell.

The normal department of the Portland University has been placed under the supervision of Prof. W.A.Wetzell, who is well and favorably known to the residents of Sherman county, whose long and successful experience in public school work eminently fits him for the position The design of this department is strictly professional; that is, to prepare in the best possible manner its students for the important and responsible work of organizing, governing and teaching public schools. It will aim to qualify its students for the various phases of public school work, from the primary grades to the most advanced work of the high school, but its training is especially adapted to give thorough and superior qualifications for the work of country schools. It is pertinent to here remark that the public schools of the city of Portland offer excellent advantages for studying the graded school system, and for observing the practical application of educational principles. Frequent visits under the direction of Prof. Wetzell will be made to these schools.

The school offers three courses of study which includes all branches upon which applicants are examined for state and life diplomas: 1st. An elementary course, extending through three years, for the benefit of students who are deficient in literary attainments; 2d, advanced course, extending through two years for graduates of approved high schools; 3d, professional course extending through one year. This course is adapted to the needs of teachers of some experience, or those who are graduates of colleges, academies and first-class high schools. Graduates of such schools are admitted to this course without examination; others are permitted to enter the professional course upon examination.

The first term begins September 21st, 1897, anyone wanting further information about this excellent school, by addressing inquiries to Prof. W. A. Wetzell, 111 East 10th Portland, can secure all necessary information promptly.

Something to Depend on.

James Jones, of the drug firm of Jones & Son, Cowden, Ill., speaking of Dr. Kings' New Discovery, says that last winter his wife was attacked with la grippe and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. Kings' New Discovery in store and selling lots of it, he took a bottle home and to the surprise of all she began to get better from the first dose and half a dozen bottles cured her sound and well. Dr. Kings' New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it—free trial bottles at A.D Bolton & Co's drug store.

DANIEL MYERS,
OF PENNSYLVANIA.
A Living Object Lesson for Dr. Miles' New Heart Cure.

HEART DISEASE is curable. "For over forty years," writes Daniel Myers of Two Taverns, Pa., on Aug. 10, 1896. "I suffered with heart disease. First a slight palpitation, gradually growing worse. Then shortness of breath, sleeplessness, smothering sensations and much pain in the region of the heart alarmed me and I consulted a physician. Receiving no benefit I tried others and a number of remedies, spending a large amount of money, but finally became so bad that it was unsafe for me to leave home. I commenced using Dr. Miles' Heart Cure two years ago. For eighteen months I have been well. Although 72 years of age I can go where I wish and I sleep all night and wake up as cheerful as a babe and completely rested."

Dr. Miles' Heart Cure Restores Health
